THE DALLES OREGON

HYBRID COINAGE.

Gov. Waite, of Colorado, Has a New Plan for Silver.

D. H. Waite, the sensational governor of the Centennial state, has in hand, it is stated, a convention of miners, which is to pass resolutions urging a special session of the legislature to protect the silver-mining industries.

The same wire which flashed the above information broadcast over the

GOV. D. H. WAITE, OF COLORADO.

land told how S. J. Toy, recently appointed warden, took possession of the Colorado penitentiary at Canyon City. Toy had come from Denver by train. He was met by ex-Deputy Bence, son-in-law of the governor, who had been removed by Warden McLester, and a prison employe who had permission to be absent until a late hour.

FINANCE NOTES.

The coinage of gold in the Philadelphia mint during October was greater than for any month since the mint was established.

A St. Louis dispatch says that the financial agent of the Cherokee nation has released a deal whereby an English syndicate takes the \$6,300,000 Cherokee strip bonds at par and accrued interest.

The treasury department has ordered the superintendents of the mint at San Francisco and New Orleans to resume the coinage, suspended some time ago, of standard silver dollars, for the purpose of utilizing the seigniorage.

COINAGE executed at the several mints of the United States for the month of October aggregated 7,732,140 pieces, of the value of \$10,003,900, as follows: Gold pieces, 1,140,150—value, \$9,504,800; silver pieces, 1,823,000—value, \$419,000; minor coin, 4,810,000—value, \$80,100.

During the world's fair period the railways, suburban trains not included, carried 9,916,295 passengers. The suburban trains collected \$4,385,643 fares and the local street railway system transported the enormous number of \$18,750,173 passengers! The grand total is \$49,052,111.

It is declared upon authority that more than \$5,000,000 worth of property has been destroyed in a single year by the maiming of stock or cattle through cruelty while in transit at sea. This is an enormous percentage of a total of \$40,000,000 shipped to represent loss through abuse and neglect.—Chicago Inter Ocean.

When on a visit to Iowa, Mr. K. Dalton of Luray, Russell county, Kan., called at the laboratory of Chamberlain & Co., Des Moines, to show them his six-year-old boy, whose life had been saved by Chamberlain's Cough Remedy, it having cured him of a very severe attack of croup. Mr. Dalton is certain that it saved his boy's life and is enthusiastic in his praise of the Remedy. For sale by Blakeley & Houghton.

"A Talented Editor."

During the coming months, of the heated period, those who are traveling or contemplating a trip away from home should read the following letter from a brilliant and well known editor and provide themselves against attacks of headache and dizziness.

GENTLEMEN—I had occasion to use several boxes of Krause's Headache Capsules while traveling to Chicago to attend the National Lumber Convention. They acted like a charm in preventing headache and dizziness. Have had very little headache since my return, which is remarkable. Yours respectfully,

JOHN U. SHAFER, Ed. Berovo, Pa., Record, Trugsville, 175 Second St., The Dalles, Or. Sold by Supts & Kibersly.

Mrs. M. Matthey, sister of B. H. Thurston, is here on a visit to her brother. She will return to her home in Lafayette, Yamhill Co., in a day or two. Mr. Thurston will accompany her home to spend the holidays.

A CANADIAN has made a collection of the buttons of officers of every regiment and department of the British army.

BICYCLES for military couriers and big dogs for sentries and ambulance service are curious features of the tented field.

IN 1896 an experimental cruise of all the ironclads in the British navy, thirty in number, was made during very rough weather, to ascertain how they would behave during a storm; result deemed successful.

DURING the twelve months just ended there were 1,259 desertions from the navy, 929 men and 330 boys. Of this number 776 men and 303 boys deserted at home ports and 483 men and 17 boys at foreign ports. The number of enlistments was about 7,000, out of nearly twice that many applicants.

The Grass-Eating Turtle.

Paradoxical as it may seem, the only known species of grass eating turtle in the world, xerobates agassizii, lives and thrives on that all but barren waste—the Mojave desert, in San Bernardino county, Cal. This queer creature grazes after the fashion of an ox or a horse, and, notwithstanding the natural scarcity of grass, seems to keep moderately fat and happy. He is about 10 inches in length when full grown, and is sold at \$5 by west coast curiosity dealers.
