EFFECT OF FREE WOOL.

A mass meeting of wool growers was held recently at Antelope, to answer a set of questions relating to the effect of taking of the tariff on wool, prepared by Justice, Bateman & Co. of Philadelphia.

In reality, the Rocky mountains region is better adapted for the sheep and wool growing industry than any other, therefore it is extensively engaged in.

When on a visit to Iowa, Mr. K. Dalton of Luray, Russell county, Kan., called at the laboratory of Chamberlain & Co., Des Moines, to show them his six-year-old boy, whose life had been saved by Chamberlain's Cough Remedy.

In conclusion, we wish to impress upon the minds of our honorable representatives the fact that this is a vast territory of rough and mountainous country that is utterly unfit for any business except sheep raising.

We have spent years in improving our breeds, and under the fostering care of protection we have so improved our wool-increasing the weight and improving the fleeces-that last year we were selling our wool for much less than we could have done ten years ago, and at the same time were paying our herders \$5 per month more than we have paid in 1893.

After disposing of their sheep, two prominent sheepmen left this section the first of this month, their destination being South Africa. If they find conditions in that country favorable for wool-growing quite a number of sheepmen in this immediate vicinity will sell out in the spring and emigrate.

Whatever may be said to the contrary, sheepmen in the west will be forced out of business, and if it becomes generally known that in foreign countries stockmen can secure profitable localities it will have the effect of sending many good, enterprising citizens and much capital out of the country.

Trusting you will use your best efforts to prevent the destruction of the great wool growing industry of this country, we are

Yours very respectfully,

[Here are attached the signatures of nearly all the sheep owners in this country with the number of sheep owned by each man set opposite his respective name].

The official treasury figures show that the receipts are running at the rate of \$20,000,000 a month or \$312,000,000 a year, and expenditures at the rate of \$32,000,000 a month or \$384,000,000 a year. These figures indicate a deficit for the fiscal year ending June 30, 1894, of \$72,000,000.

DEAR SIR-I have used Kruse's Headache Capsules for some time and want to testify to their value. I tried various well recommended medicines, but got no relief until I used these, and now would not be without them for ten times their cost.
