From the treasurer's semi-annual report, submitted at the city council meeting Saturday night we learn that the receipts for water rent for six months amounted to \$5818.75.

Today is the first day of Chinese registration in The Dalles, and will continue for three days. A number of the Chinamen presented photographs which were smaller in size than required by the law and will have to be re-taken.

Rev. A. LeRoy gave an interesting discourse in the court house yesterday afternoon on "The Origin of Kingdoms." It was not so historical as may have been supposed from the title, but was full of interest and instruction.

In observance of "The Week of Prayer" the Congregational church will hold meetings every evening this week, from 7 until 8 o'clock. Topic for this evening, A prayer of Jacob; for a household. (Gen. xxxii: 9-12, 24-32). All persons not worshipping elsewhere are cordially invited.

The Goldendale Courier spoke in four or five different places in its last number of its possible demise, and today it is learned that it was really its last issue. The greatest sufferer by its extinction will be the Goldendale Sentinel, which will be deprived of a butt for the gall-dipped pen of Editor Gourlay.

Three sales of property were made by the sheriff today: Fen Batty purchased the 160 acre tract of land formerly owned by Geo. H. Rowley, for \$300. A. D. Bolton vs. Frank Gillespie, 160 acres sold for \$787. Block 10, Ft. Dalles Military Reserve, containing twelve lots, the property of A. Kennedy, was sold to Walter Breeze for \$150.

By far the most beautiful calendar for 1894 is that issued by the Massachusetts Mutual Life Insurance Co. Each month is given a page, upon which is the colored portrait of some representative American, with scenes of events in his life work accompanying the picture, also in colors. The calendar would grace any center table in the land. We are indebted for it to Mr. C. E. Haight, the company's agent.

Work at the Cascade locks is progressing rather slowly. A force of men is clearing out the canal between the upper lock gate and the upper bulkhead. There is about 40,000 cubic yards of earth to remove, and it is slow work. The masonry of the upper lock has also been started, but, as there are 20,000 yards of masonry in the job, it will require some time to complete it. From present appearances it will take several years to finish the locks.—Oregonian.

Attention, Jackson Engine Co.

CITY COUNCIL.

Finishing up the Regular Meeting of Wednesday Night.

At the adjourned regular meeting of the city council there were present Mayor Krest and Aldermen Butte, Lauer, Crowe, Eshelmen and Joles. The reports of officers were read and adopted.

The electric light question was opened by Ald. Lauer, of the committee on streets and public property, reporting that he had conferred with Mr. McArthur, manager for the company, who said the company would not entertain the proposition of furnishing thirty lights for \$300, and the smallest sum would be \$300. Mr. Butts said that he would not be in favor of paying more than \$300, and Mr. Lauer retorted by saying that the city was paying nearly \$300 now for twenty lights, and that a very few more would alone bring the sum up to \$360, and the city would not have thirty lights either. Mr. Eshelmen said that a large share of those now in use did not burn well and believed a complaint should be presented. Mr. Joles said that the moon on a clear night gave as good light as the arc lights, and believed that ten days in the month the electric lights could be dispensed with. He argued from a standpoint of economy. Mr. Eshelmen moved that the whole matter be dropped for the present, with the promise that the petition for a light in the pines would receive consideration when the council desired to increase the service. The motion was carried.

The ordinance to improve Lincoln street was put on its final passage and passed.

Also two special ordinances, one transferring money out of the general to the special fund, and one providing for the improvement of Second street from Union to the brewery hill grade. Ald. Eshelmen spoke on the latter proposition concerning the manner in which the work was to be done. He wanted to build the street in a proper manner, believing that without gutters the street would be in as bad a condition two years hence as before the improvement was commenced. This was productive of a motion that the street commissioner be instructed to put in all leaders wherever necessary.

A request from Mr. Dehm to connect with the sewer between Second and Third streets was granted.

Mr. Lauer then made a motion to grant the use of the city hall to the young men's moot court, which was carried.

Adjourned.

Wedding Bells.

Mr. C. R. Davis and Miss Edith Marsh, of Newport, Vermont, were married Thursday evening at the Grace Methodist church in Portland, Rev. Gue officiating, in presence of a number of their friends. The bridal party, consisting of Mr. Frank French, who acted as usher, then the groom with the bridesmaid Miss Clara Grimes, then the bride on the arm of the groom, H. H. Riddell, entered the church and proceeded down the aisle to the strains of Mendelssohn's wedding march on the pipe organ, played by Prof. King. They were met at the altar by Rev. Gue, who pronounced the service of the Methodist ritual. After the ceremony the newly married couple received the congratulations of their friends. Mr. Davis was a resident of The Dalles for a number of years, and has a large circle of friends here. He occupies a responsible position in Ladd & Tilton's bank and is a very estimable young man.

An Incident in a Dark Tunnel.

Two young married men in the Salem excursion to Newport recently played a rather sweet joke on their wives. Before entering the long tunnel at Elk City each was sitting with the other's wife. They agreed to exchange seats in the long tunnel and each kiss his own wife. Well, they did as agreed. One of the young women screamed terribly and attracted the attention of the whole car, and all had a hearty laugh at her expense, when the light broke in upon her, resisting fiercely and in her husband's arms. The one kept perfectly still, and she and her husband had a good laugh on each other when the light broke on them. She said she did not know but what it was her husband, and did not want to give it away if it was not.—Salem (N. Y.) Journal.

NOTICE.

To All Whom It May Concern: By virtue of an order of the common council of Dalles City, made and entered on the 12th day of December, 1893, notice is hereby given that said city council is about to proceed and order and construct a sewer of 8-inch terra cotta pipe on Lincoln street, commencing at the intersection of Lincoln and Fourth street, on the south side of Fourth street, and continuing thence northerly along the center of said Lincoln street to low water mark of Mill creek, and that the cost for said sewer will be assessed against the property directly benefited thereby, as by the charter provided.

Dated this 26th day of December, 1893. DOUGLAS S. DEYER, Recorder of Dalles City.

PUBLIC SCHOOL NOTES.

Teachers, Pupils, Taxes, Enrollment and Other Notes.

The total number of pupils in attendance just before the Christmas holidays was 470. Of this number twenty-four are non-residents and pay tuition to the district. About \$300 will be realized from that source during the present school year. The schools are now crowded nearly to the limit of the total seating capacity, and beyond the limit in particular grades.

The total enrollment and average daily attendance are each larger during the present school-year than ever before in the history of the city. Each number exceeds by fifty pupils the number at the time the teaching force was increased to the present number—a principal and ten grade teachers.

Forty pupils per teacher is the limit for the most efficient work. That limit has been passed in The Dalles public schools, and it is a question of only a short time until more buildings must be erected and more teachers employed.

When the equalized assessment roll of The Dalles district reaches the school board a special school meeting will be called to levy a district tax, as all school tax levies of '93 have been declared questionable by State Superintendent McElroy.

The semi-annual examinations will close Friday, Jan. 19th, and promotions throughout the schools will take place on the Monday following.

Since April, '93, the school clerk has collected \$828 delinquent school taxes. From '94 inclusive all direct property taxes—school, city, county and state—will be collected by the sheriff once each year and but one receipt will be given. This is the good feature of the new way and offsets the inconveniences caused by the change in the law last year.

JOHN W. LEWIS, Register.

The American Farmer,

1729 New York Avenue, WASHINGTON, D. C.

THE AMERICAN FARMER, which is now entering upon its 75th year, is the pioneer farmer's paper in the country. It is a large eight-page paper and contains 56 columns of the choicest agricultural and literary matter, plentifully embellished with fine illustrations. It is NATIONAL IN CHARACTER, and deals with farming and farmer's interests on broad, practical lines. EMPLOYS THE BEST WRITERS IN THE COUNTRY, and everything that appears in its columns is of the highest character. Every department of the farmer's business is discussed in an earnest, practical way, looking to the greatest profit and benefit to the farmer and his family. It appears on the 1st and 15th of each month, and is furnished at the low price of 50 CENTS A YEAR in advance. This makes it the cheapest agricultural paper in the country. FARMER LEGISLATION. During the coming year there will be an immense number of matters of the most vital interest to farmers dealt with by Congress and the Executive Departments at Washington. It is extremely important that the farmers be kept promptly and fully informed as to what is being planned and done affecting them at the National Capital. They should all, therefore, take THE AMERICAN FARMER, which, being on the ground, has better facilities than any other papers for getting this information, and devote itself to this duty. They will find in it constantly a great amount of valuable information that they can get in no other paper. THE AMERICAN FARMER and THE CHRONICLE will be sent one year for \$1.75.
