

The Dalles Daily Chronicle.

Entered at the Postoffice at The Dalles, Oregon as second-class matter.

THE DALLES OREGON

THE WORLD AT PEACE.

In the Austrian army the average rate of suicide each year is 131 to every 100,000 men; in the French army 92, German 68, and English 23.

The latest explanation of the rain which usually follows a great battle is that it is caused, not by the smoke, but by the perspiration of the soldiers.

The Camperdown, the vessel which rammed the Victoria, is again cruising in the Mediterranean in company with the ships of the British squadron. Rear Admiral Maricham is in command.

Of the recruits in the British army 33,004 were last year raised in England, 3,567 in Scotland, and 3,860 in Ireland. One thousand three hundred and five of these young soldiers were under 17 years of age.

HELLE BOYD, the rebel spy, famous during the war, has gone on the lecture platform. She is now past fifty, and her reddish blonde hair has become almost white. She has three children, and is divorced from her third husband.

ADMIRAL AVELAN has received over a thousand letters from emotional French women, each of whom wants a lock of his hair. He will probably have the first barber shingle a dozen sailors so that none of the fair writers will be disappointed.

GEN. BROUSARD VON SCHELLENBERG, the new minister of war of Germany, is a martial-looking man, of medium height. He wears a mustache and imperial. He is said to be almost as eloquent a speaker as his late brother, who was one of his predecessors in office.

MEDICAL MATTERS.

THE Austrian authorities have issued a rescript in which they call attention to the law that physicians' prescriptions shall be written in a legible hand.

SIR HENRY THOMPSON, of England, says that out of every ten patients who came under his knife nine would never have done so had it not been for errors of eating and drinking.

Four members of the Imperial College of Physicians at Peikin who failed to give a proper diagnosis of his majesty's indisposition recently were punished by having a year's salary taken away from them.

ALBERT ABRINK is in a St. Louis hospital suffering from a disease called anchylostomum dodenale, the effect of which is to render him as white as marble. Even his tongue, gums and finger nails are devoid of all color.

DR. CHARLES FERE, a well-known authority on nervous and mental diseases, says that these disorders are increasing at a terrible rate in France, and attributes the fact to the increase of beer drinking, absinthe drinking and bars. There was scarcely such a thing as a bar twenty-three years ago, he says, but now they are all over the town and always crowded.—N. Y. Examiner.

ELECTRICAL FLASHES.

In 1600 Gilbert recorded that other bodies besides amber had electric properties.

TESLA, the electrician, thinks he has solved the problem of transmitting electricity to a distance with little loss of power.

The destructiveness of a new Gatling gun may be imagined when it is stated that it fires 3,139 shots a minute. When operated by an electric motor, it fires 5,000 shots in a minute.

SAMUEL LEFFERS, an aged resident of Moraine, N. D., who has been a great sufferer from rheumatism for over twenty years, has been entirely and, it is thought, permanently cured by a slight stroke of lightning.

MR. EDISON is now engaged in the construction of a magnetic ore concentrator which he expects will work a revolution in the iron business so that northern furnaces can once more successfully compete with the south.

TELEPHONE METER is the new word naming an instrument to register the time of each conversation at the telephone from the time of ringing up the exchange to the ringing-off signal. Such a system would reduce rentals of telephones to a scale according to the service, instead of a fixed charge to a business firm or occasional user alike.—Scientific American.

About a year ago I took a violent attack of la grippe. I coughed day and night for about six weeks; my wife then suggested that I try Chamberlain's Cough Remedy. At first I could see no difference, but still kept trying it, and soon found that it was what I needed. If I got no relief from one dose I took another, and it was only a few days until I was free from the cough. I think people in general ought to know the value of this remedy, and I take pleasure in acknowledging the benefit I have received from it. MADISON MUSTARD, Otway, Ohio. Fifty-cent bottles for sale by Blakeley & Houghton, druggists.

A Lender.

Since its first introduction, electric blitters has gained rapidly in popular favor, until now it is clearly in the lead among pure medicinal tonics and alteratives—containing nothing which permits its use as a beverage or intoxicant, it is recognized as the best and purest medicine for all ailments of stomach, liver or kidneys. It will cure sick headache, indigestion, constipation and drive malaria from the system. Satisfaction guaranteed with each bottle or the money will be refunded. Price only 50c. per bottle. Sold by Snipes & Kinsley.

BOXES FOR EVERYTHING.

The Great Number of Uses to Which Cardboard is Put

Some Interesting Information Regarding the Beginning and Growth of an Important Industry.

In the multiplicity of modern conveniences the paper box holds a front place. Half a century ago the dry goods dealer would present an empty box to the little daughter of his regular customer as a mark of special favor. Boxes were then used only by the wholesale houses to send out their goods in, and the retailer kept them to show his wares in. Now the customer insists upon his purchase being placed in a neat box. Not only is this so in the dry goods business, but in every other business. The oyster fry in a box as a peacemaker was a popular joke half a dozen years ago; now they put ice-cream in boxes, and all sorts of things. Candy used to be sold in paper bags; the smallest purchase has to be put in a box. The saucy confectioner might hand a paper bag to a woman who had made a small purchase, but never to a man. The man is probably more particular about his parcel than a woman. He hates to be seen carrying parcels, anyway, and those he does carry must be thoroughly well disguised. If he buys a bottle of whiskey he must have it in a box, so that his friends may mistake it for a pair of shoes.

It is not surprising, therefore, says the New York Advertiser, that paper box making should have grown into an important industry. In this city alone no less than five thousand girls are employed in it. It is a comparatively clean, healthy business, is regular and well paid, the wages averaging between seven and ten dollars a week. There are in this city seventy-five firms engaged in the business, but three-fourths of it is done by ten large firms, whose individual output will run from one hundred thousand to one hundred and fifty thousand dollars a year. As the average cost of a paper box is five cents, you can form some idea from this of the enormous number that are used. One candy maker alone during the month of December last used ten thousand dollars' worth of boxes.

Philadelphia, Boston and Chicago are also prominent in this industry, and the workmen and girls employed by the firms of those cities cannot be much less than twenty thousand.

The first paper box maker was George W. Plumly, who started in the business at Philadelphia in 1846. He and his partner cut out the boxes, their only tools being a straight edge, compasses, shoe knife and scissors. They employed five girls to paste, and for six or seven years had a monopoly of the business. Then Charles W. Jencks started in the business in Providence, and introduced a rough scoring machine to cut partly through the cardboard where it is folded to make the box. At that time it was a struggle to obtain proper materials. There were few paper mills in the country and the straw board used was very poor stuff, not two sheets coming out of the mill of the same size. It was made by hand of straw, meadow hay, refuse straw from stables, dried in the open air on the ground, and consequently was often filled with sand, which made it interesting for the cutters. The best quality of mill board was all imported.

In those early days the young women in the paper box factories made boxes as their mothers made pies, "one at a time and that one well." A girl who could make pies quickly and well could make boxes in a similar style. The operations were somewhat similar. There was the same manner of cutting out material, the same careful way of patting down and smoothing out the box coverings as the pie crust and the same way of trimming off surplus material. Now everything is done by machinery in paper box making, and the girls have nothing to do but feed the material to the machines.

George A. Diskerman, of Boston, started in the business in 1863 in Boston, and about 1870 a Frenchman named Rouyon introduced the business in this city. The old-fashioned way of scoring the pasteboard with a rule and a cobbler's knife continued until 1871, when the first machine was introduced. This was the invention of Mr. Bigelow, of New Haven. This scoring machine was such a success that a number of firms sprang up. Six years after a man named Marshall, of Boston, made a lighter and easier running machine, and in 1881 John T. Robinson & Co. invented the present scoring machine. The trouble with the former machines was in the time it took to adjust the knives to a new size or pattern of box; in the Robinson scorer there are two sets of knives, so that one can be adjusted while the other is being used.

Nowadays the whole of the material is made in this country, and it is a satisfaction to know that the scoring machines and the box making machines are all the result of Yankee ingenuity. Paper boxes are used all over the world now, and all the world has to get its machines from this country. In France paper boxes are still made by hand by many firms, but the machines have been introduced there and it will not be long before Yankee inventions will be at work in all their factories.

The box maker now receives two dollars for the same work he received five dollars for twenty-one years ago, yet he makes a larger profit and is able to pay higher wages. The machines are uncomplicated and not expensive. The business gives steady employment, as there is practically no particular season, and when not working on orders the machines are running on stock, of which a large supply has always to be kept on hand.

Such is the rapid growth of the paper box industry, which now has three good trade papers to represent its interests.

When the Train stops at THE DALLES, get off on the South Side NEW COLUMBIA HOTEL.

This large and popular House does the principal hotel business, and is prepared to furnish the Best Accommodations of any House in the city, and at the low rate of \$1.00 per Day. - First Class Meals, 25 Cents.

Office for all Stage Lines leaving The Dalles for all points in Eastern Oregon and Eastern Washington, in this Hotel. Corner of Front and Union Sts. T. T. NICHOLAS, Propr.

The Dalles Daily and Weekly Chronicle.

THE CHRONICLE was established for the express purpose of faithfully representing The Dalles and the surrounding country, and the satisfying effect of its mission is everywhere apparent. It now leads all other publications in Wasco, Sherman, Gilliam, a large part of Crook, Morrow and Grant counties, as well as Klickitat and other regions north of The Dalles, hence it is the best medium for advertisers in the Inland Empire.

The DAILY CHRONICLE is published every evening in the week Sundays excepted at \$6.00 per annum. The WEEKLY CHRONICLE on Fridays of each week at \$1.50 per annum.

For advertising rates, subscriptions, etc., address

THE CHRONICLE PUBLISHING CO., The Dalles, Oregon.

H. H. CAMPBELL, Successor to LESLIE BUTLER. Will constantly keep on hand a complete line of GROCERIES, * CROCKERY, AND GLASSWARE.

Having purchased Mr. Butler's entire stock, I shall endeavor to maintain the reputation of the house, which has been: BEST GOODS AT LOWEST PRICES. - SQUARE DEALING TO EVERY ONE Call and see me, next door to Postoffice.

PAUL KREFT & CO., DEALERS IN PAINTS, OILS AND GLASS WALL PAPER.

Practical Painters and Paper Hangers. None but the best brands of the Sherwin-Williams and J. W. Masury's Paints used in all our work, and none but the most skilled workmen employed. Agents for Masury Liquid Paints. No chemical combination or soap mixture. A first class article in all colors. All orders promptly attended to.

THE CELEBRATED COLUMBIA BREWERY, AUGUST BUCHLER, Prop'r.

This well-known Brewery is now turning out the best Beer and Porter east of the Cascades. The latest appliances for the manufacture of good healthful Beer have been introduced, and on y the first-class article will be placed on the market.

I. C. NICKELSEN, DEALER IN BOOKS, JEWELRY, WATCHES and Musical Instruments.

HAVE YOU TRIED DRUGS AND FAILED TO FIND A CURE FOR RHEUMATISM, LUMBAGO, SCIATICA, KIDNEY, LIVER and BLADDER COMPLAINTS, DYSPEPSIA, LAME-BACK, &c.

DR. SANDEN'S ELECTRIC BELT with Electro-Magnetic Coils necessary will cure without medicine all of the above troubles. Those who suffer from Nervous Debility, Losses, Drains, Lost Manhood, or various other complaints, Poor Memory, all Female Complaints, and general ill health, the effects of overwork, excess, worry or exposure, will find relief and prompt cure in our marvelous invention, which requires but a trial to convince the most skeptical. Innumerable effects you may have unduly drained your system of nerve force and vitality which is electricity—and thus caused your weakness or lack of force. If you replace into your system the elements thus drained, which are required for vigorous strength, you will remove the cause and health, strength and vigor will follow at once. This is our plan and treatment, and we guarantee a cure or refund money should be had by every one.

Our 200 page book "THREE CLASSES OF MEN," should be read by every one, as we have restored thousands to robust health and vigor, after all other treatments failed, as can be shown by hundreds of cases throughout this and other States, who would gladly testify, and from many of whom we have strong letters bearing testimony to their recovery after using our Belt.

WE HAVE CURED THESE—WE CAN CURE YOU! GENERAL DEBILITY CURED. LAME BACK AND RHEUMATISM. Dr. A. T. Sanden, Dear Sir—Before I used your belt I was troubled with lost vigor, vital weakness, and almost a complete loss of power. I would get up with a very tired feeling, bones aching, etc., since using your belt I have had a new lease of life. I now enjoy life better than I have for ten years past. I have the utmost confidence in your treatment. You can publish this statement, also have others write or call on me. Truly yours, H. A. BOWEN, 26 and 28 Turk St. RHEUMATISM AND LAMENESS CURED. Portland, Oregon, April 16, 1902. Dr. A. T. Sanden, Dear Sir—I got one of your belts two weeks ago for rheumatism, from which I suffered for several years. For the most six months I had not been able to work. Your belt has placed me in almost perfect health in the two weeks I have used it. I can walk comfortably and feel like a new man generally. M. E. GUILLET, Proprietor International Hotel. NERVOUS DEBILITY—LOSS OF VIGOR. Tacoma, Wash., October 21, 1902. Dr. A. T. Sanden, Dear Sir—I have been using your Electric Belt for general nervous debility, and to-day feel better than I have for five years. I have gained in vigor daily, and am strong in every part. Yours gratefully, CHAS. LUTKA. LOST VITALITY AND STRENGTH. Everett, Wash., June 29, 1902. Dr. A. T. Sanden, Dear Sir—Since wearing your belt I have been greatly benefited. I feel my old energy fast returning, and after a month's use of the belt I find myself twice as vigorous as before. My memory is now nearly perfect, and each day I am getting better. I feel much stronger than before using the belt. Yours truly, HENRY SCHULTZ.

THE DR. SANDEN ELECTRIC BELT is a complete galvanic battery, made into a belt so as to be easily worn during work or at rest, and it gives soothing, prolonged currents which are instantly felt throughout all weak parts, or we forfeit \$5.000. It has an Improved Electric Suspension, the greatest boon ever given weak men, and we warrant it to cure any of the above weaknesses, and to enlarge shrunken limbs, or parts, or Money Refunded. They are graded in strength to meet all stages of weakness in young, middle-aged or old men, and will cure the worst cases in two or three months. Address for full information, SANDEN ELECTRIC CO. 172 First St., PORTLAND, OREGON.
