Dole is invincible. He has always trumped Cleveland's ace in the game for the Sandwich islands, and the queen proves to be no card to lead at all.

The issue of standard silver dollars from the mints of the treasury offices for the week ended January 13th was \$282,-956; for the corresponding period last year it was \$219,849. It would thus seem that the repeal of the purchasing clause of the Sherman act is not responsible for hard times, as claimed by silver mono-

Resolutions, irrespective of party, have been sent to congress from nearly every state on the Pacific coast protesting against any change in the tariff affecting wool as proposed by the Wilson bill. It is universally asserted that to remove the duty from wool will prostrate if not wholly destroy the industry, which gives employment to thousands of our citizens.

Islands are Americans, and have numerous relatives in this country. Sanford B. Dole, the president of Hawaii, is Islands are Americans, and have nua native of Massachusetts, and Hon. Frank M. Hatch, the vice-president of the provisional government of Hawaii, list of testimonials. Address is a native of Portsmouth, H. H., a son F. J. Cheney & Co., Toledo, O. Sold by druggists, 75c. of the late Hon. Albert R. Hatch, and a younger brother of Hon. John Hatch of Greenland, N. H.

To make up the deficiency in revenue if the income tax don't pass, an amend- 25c., 50c. and \$1.00. Sold by Snipes & ment is proposed to the Wilson bill by Kinersly, druggists. the democrats to tax sugar one cent a pound, and by declaring the bounty-off, the expenses of the government will again be met. To tax one of the main articles of diet of Americans so heavily is against everything that has been claimed by the free trade party to further the interests of the workingman, and will be severely felt. The expenses of this government must be met, and the problem of the democrats is how to meet them without taxing somebody something. The quicker they admit that this problem is incapable of solution the better it will be for the country. Whether they secure it by an income tax, a tax on woolens, sugar, iron or anything else, these expenses must be met by taxation.

The New York Tribune thus speaks of the beneficence of Nature: "In what a wonderful way does Nature provide for unexpected emergencies. Take, for instance, the existing situation in several of the Western states. It has long been known, of course, that for the ordinary ass the thistle-either Canada or Scotch -furnished useful and nutritious food. In agricultural neighborhoods there is more or less prejudice against the thistle, as there is in cultivated intellectual circles against the ass. Efforts have been made to exterminate the thistle, but Nature has successfully resisted them up to date, and it seems probable that the plant will flourish so long as the ass survives. The simultaneous appearance, however, during the last year ot such governors as Waite of Colorado, Lewelling of Kansas and Pennoyer of Oregon has raised a doubt in the minds of thoughtful men as to the sufficiency of the ordinary thistle crop to supply the extraordinary demand. At this point provident Nature steps in. The emergency has been met by the appearance in the Northwest of a new variety of thistle, known as the Russian, which grows to four feet in height and seventeen feet in circumference, as appears from a specimen forwarded to the agricultural department at Washington. Manifestly this is an effort of Nature to make provision for the new order of governors now browsing over our prairies. It is an endeavor to keep up the relative proportion of the ordinary thistle to the ordinary ass. Four feet by seventeen may not prove entirely adequate, but it is at least a good beginning. It illustrates the marvellous fer-tility and adaptability of Nature.

Wasco County,

- - - Oregon,

The Gate City of the Inland Empire is situated at the head of navigation on the Middle Columbia, and is a thriving, prosperous city. ITS TERRITORY.

It is the supply city for an extensive and rich agricultural and grazing country, its trade reaching as far south as Summer Lake, a distance of over two hundred miles.

The Largest Wool Market. The rich grazing country along the eastern slope of the Cascades furnishes pasture for thousands of sheep, the wool from which finds market here.

The Dalles is the largest original wool shipping point in America, about 5,000,000 pounds being shipped last year.

ITS PRODUCTS.

The salmon fisheries are the finest on the Columbia, yielding this year a revenue of thousands of dollars, which will be more than doubled in the near future.

The products of the beautiful Klickitat valley find market here, and the country south and east has this year filled the warehouses, and all available storage places to overflowing with their products.

ITS WEALTH. It is the richest city of its size on the coast and its money is scattered over and is being used to develop more farming country than is tributary to any other city in Eastern Oregon.

Its situation is unsurpassed. Its climate delightful. Its possibilities incalculable. Its resources unlimited. And on these

corner stones she stands.
