## LOST IN THE STORM

Fishing Schooner Founders With all on Board.

A RESCUING PARTY ALSO LOST

Editor Stead Again Warms up Chicago—Casualties and General News.

NEW YORK, Jan. 17.—The Dutch steamer Amsterdam, from Rotterdam, arrived this morning. She reports a succession of gales and tremendous seas. Sunday last, during a northwest gale, she sighted what was supposed to be the American fishing schooner Maggie E. Wells, of Gloucester, Mass., in a sinking condition, and with her boats stove. In response to signals for assistance, Chief Officer J. Meyers, Second Boatswain Erequart, Carpenter A. J. Oudyn, Storage Steward A. Boso, Quartermaster F. M. Elchhorn, Seaman A. Vanleet and Seaman A. Vanterwit volunteered to man a boat to rescue the crew of the sinking vessel, numbering about 14. When the boat neared the unfortunate vessel it capsized in a squall and all perished except Vanterwit. Another crew volunteered, but the captain thought it too hazardous, and decided to wait till the gale subsided. The steamer kept in the neighborhood, but in a very heavy gale and snow storm lost sight of the schooner, and thereafter was unable to find any trace of her. It is believed she foundered with all on board.

The schooner Maggie E. Wells left Gloucester, Mass., December 23d for Grand Banks, after a trip for fresh halibut. No news has been received from her yet. The crew consisted of Captain Davidson and 13 men.

EDITOR STEAD ON CHICAGO.

Says the City Councilmen Are No Better Than Thieves.

CHICAGO, Jan. 17.—William T. Stead made an address at the People's Institute on the West Side last night, and abused everything Chicago possesses. His object was to show up the seamy side of life in this city, including the rich men who rob right and left, and the women who sell their bodies in order to get bread. He took a fling at the city council, denouncing it as being composed in the main of men who came from the very lowest elements of the city, and said the idea of such men legislating for such a great city as Chicago was absurd. He intimated that many of the members of the city council were little better than thieves, and he was liberally applauded for the sentiment. The wealthy woman who thinks only of herself and neglects her hungry and down-trodden sisters, came in for a share of attention. The speaker drew pictures between the woman rolling in wealth, who because of her social position and her fear of losing it kept herself free from taint, and the poor woman, who harassed by want and poverty, threw herself into the gutter to get bread to keep her from starving. Mr. Stead did not think the society woman was any better than her weaker sister, who however pure in heart she might be, was compelled by force of circumstances to abandon a moral life. Stead's words in discussing this phase of life were so broad that most of the women in the audience blushed with shame, and some of them left the hall.

Accused of Poisoning His Wife.

OAKLAND, Cal., Jan. 17.—Philip Boogar, a local capitalist, is now on trial for having attempted to poison his wife by putting rat poison in her rice on three different occasions. Mrs. Boogar testified that her husband confessed to her that he had committed the deed with which he is charged. The case is proceeding and further sensational disclosures are expected.

The getting it down is bad enough, with the ordinary pill. But the having it down is worse. And, after all the disturbance, there's only a little temporary good.

From beginning to end, Dr. Pierce's Pellets are better. They're the smallest and easiest to take—tiny, sugar-coated granules that any child is ready for. Then they do their work so easily and naturally that it lasts. They absolutely and permanently cure constipation, indigestion, bilious attacks, sick and bilious headaches, and all derangements of the liver, stomach and bowels. They are guaranteed to give satisfaction, or your money is returned.

The makers of Dr. Sage's Catarrh Remedy say: "If we can't cure your Catarrh, no matter what your case is, we'll pay you \$600 in cash." Now you can see what is said of other remedies and decide which is most likely to cure you. Costs only 50 cents.

Feasible! Cheaper than anywhere else at the California winehouse.

## Bombarding at Rio.

LONDON, Jan. 17.—A dispatch from Buenos Ayres, dated yesterday, says advice from Rio have reached there showing that rumors are current in the Brazilian capital that many members of the national guard are deserting and going over to the insurgents. Several persons, including a number of Italians, have been killed by shells fired by the insurgents into the middle of the city. Friends of the Italians have demanded indemnity. The government has informed the foreign residents that it will not accept any liability. The government's forces are bombarding the insurgents' storehouses on En Chados islands.

BONDS TO BE ISSUED.

One Offer Received to Take the Whole Lot.

WASHINGTON, Jan. 17.—The secretary of the treasury will soon, probably this evening, offer to the public enough bonds to replenish the gold reserve to the extent to which it will have been depleted February 1st, when it will probably be reduced to from \$60,000,000 to \$65,000,000. The bonds will be 10-year 5 per cent bonds, but must sell for enough to make them really 3 per cent bonds. An offer has been received from one person to take all the bonds issued, but the secretary prefers that the general public shall have an opportunity to bid for them.

CIRCULAR INVITING PROPOSALS.

Secretary Carlisle this afternoon issued a circular inviting proposals for \$50,000,000 5 per cent bonds redeemable after ten years. Allotments of bonds will be made to the highest bidders therefore, but no proposal will be considered at a lower price than 117,223, which is the equivalent of the 3 per cent bond at par. The bonds to be in denominations of \$50 and upwards.

WASHINGTON, Jan. 17.—It is believed Secretary Carlisle contemplates taking prompt action on the bond question in view of what appears to be the impracticability of securing early relief from congress. Guarded statements made by treasury officials today, together with other significant facts, form the basis for this belief. An official statement is unobtainable.

THE ITEM OF BARLEY.

Protection for Western Manufacturers of Barley Product.

WASHINGTON, Jan. 17.—The democratic members of the ways and means committee have decided on an important amendment to the pending tariff bill. It covers the item of barley, but its effect will tend to the extensive manufacture of beer and its various other products. The rate already prepared in the Wilson bill is 20 per cent ad valorem. Whiting proposed that this scale be advanced to 30 per cent, and after much discussion the amendment was agreed to. The change is said to be of special interest to the beer industry of the west, which uses American barley, and against the eastern beer industry, which draws its supply of barley from Canada.

About a year ago I took a violent attack of la grippe. I coughed day and night for about six weeks; my wife then suggested that I try Chamberlain's Cough Remedy. At first I could see no difference, but still kept trying it, and soon found that it was what I needed. If I got no relief from one dose I took another, and it was only a few days until I was free from the cough. I think people in general ought to know the value of this remedy, and I take pleasure in acknowledging the benefit I have received from it. MADISON MUSTARD, Otway, Ohio. I. I. BURGET, City Treasurer. THE DALLES, Or., Jan. 8, 1894.

## AN OLD IDEA.

The German Poet, Goethe, Foresaw the Nicaragua Canal.

Dr. Julius Goebel, professor of German philology and literature at Stanford university, says that Goethe received most of his ideas on geography from his intimate friend Herder, the father of the science in Germany, who, in his turn, had been a disciple of Baron von Humboldt. They had many erroneous ideas, says the San Francisco Chronicle, but that is not surprising when it is considered that in the middle of the last century certain parts of the earth were supposed to be inhabited by giants and certain other parts by dwarfs.

Goethe conceived the universe to consist of earthly, sidereal and celestial elements. Each star, he thought, was governed by a separate spirit. That of the earth was a personal being known as the earth spirit. It was the personification of the eternal creative element of nature.

Goethe's ideas of the geography of America are full of interest to us. It was one hundred years ago when he wrote, in speaking of cutting a canal through the isthmus of Panama:

"Humboldt suggests that there are rivers on the isthmus that would render the cutting of a canal at other places more advisable than at Panama. It would surprise me greatly if the people of the United States should not before long have settled that vast country west of the Rocky mountains. On the Pacific coast are some of the finest and most capacious harbors of the world. On these great cities will grow up, making a ship canal across the isthmus an altogether indispensable thing."

FLOWERS, SHRUBS AND TREES.

The great oaks in Waverly, Mass., are survivors of an oak forest that must have existed in that region according to the geologists, as far back as the tenth century.

It is stated that one New Yorker living opposite Central park expends one hundred and fifty dollars monthly upon his roof garden, and there are no less than six such parterres in the city.

ORCHIDS are comparatively new to florists and the public, but they are becoming more common, and at the same time more perfect, every year. In spite of the fact that they are very expensive, as indeed all the choice blooms are nowadays, they are often seen in the florists' supplies.

AS THE season for lifting dahlias is here, it may be well to say that the roots ought to be turned stems downward as soon as the tops are cut off, and kept so until spring. The losses of dahlias during the winter, otherwise than by freezing, are mostly caused by neglect of this precaution.

EDUCATIONAL NOTES.

The first professorship of history was established at Oxford in 1734.

SPAIN, in 1885, had 31,880 schools, 30,000 teachers and 1,843,000 attendance.

The United States has 115 medical schools, regular, eclectic and homeopathic.

The total income from all sources of the American colleges in 1891 was \$10,801,918.

The first town school in this country was opened for business in Hartford, Conn., in 1642.

The most celebrated rabbinical schools were those of Jamnia, taught by Gameliel, of Tiberias, Alexandria, Babylon and Jerusalem.

Guaranteed Cure.

We authorize our advertised druggist to sell Dr. King's New Discovery for Consumption, Coughs and Colds, upon this condition. If you are afflicted with a Cough, Cold or any Lung, Throat or Chest trouble, and will use this remedy as directed, giving it a fair trial, and experience no benefit, you may return the bottle and have your money refunded. We could not make this offer did we not know that Dr. King's New Discovery could be relied on. It never disappoints. Trial bottles free at Snipes & Kinerly's.

The persistent cough which usually follows an attack of the grip can be permanently cured by taking Chamberlain's Cough Remedy. Mr. W. A. McGuire, of McKay, Ohio, says: "La Grippe left me with a severe cough. After using several different medicines without relief, I tried Chamberlain's Cough Remedy, which effected a permanent cure. I have also found it to be without an equal for children when troubled with colds or croup. Fifty-cent bottles for sale by Blakeley & Houghton, druggists.
