THE BANK FAILURES.

According to Dun's Review, Oregon had twenty failures in banking circles in 1893, with liabilities of \$7,378,249; Washington twenty-five, with liabilities of \$5,758,684.

The failures began very shortly after the question was raised late in April whether the new treasury notes were to be redeemed in silver ones. Apprehension regarding the financial future seized depositors all over the country within a short time, bank failures became unusually numerous and heavy in May, and even more in June, and from the 4th of May to the 12th of July the individual deposits held by national banks alone were reduced \$192,000,000.

AN INSANE DECISION.

The certainty of defeat is better than suspense. And perhaps this is the reason the asylum commission has delayed so long in selecting a site. We hope for the sake of the various members that they have acted only upon their unbiased judgment, but confess that they have exercised mighty poor judgment.

ARMY DEVELOPMENT.

INFANTRY tactics were originated by the Athenians. The first regiment of British infantry was organized in 1633.

SPARTAN cavalry generally fought dismounted as infantry. The Greek phalanx was commanded by a strategus or general.

The first regiments of infantry were organized in France about 1588. The Spartan regiment was the mora. It was composed of 400 to 600 men.

REGIMENTS of riflemen were organized in Germany during the thirty years' war.

The percussion lock was introduced into European armies between 1830 and 1840.

The earliest record of cavalry is on the Assyrian monuments, about 1000 B. C.

THE aristocratic arm of the Egyptian and Assyrian military service was the chariot.

EVERY Roman legion had about 600 horses for camp equipage, baggage and provisions.

THE use of cavalry as infantry was brought to the highest perfection during the civil war.—Army and Navy Magazine.

EDUCATIONAL NOTES.

The science of geometry is ascribed to the Egyptians. The first magazine for the blind was printed by Rev. W. Taylor in London in 1855.

PRINTING in raised characters for the use of the blind was first done at Paris in 1786.

THE Israelites learned surveying from the Egyptians, who had practiced it for ages.

The first school for the training of the blind was established at Paris by Hauy in 1784.

The first regular effort to instruct the deaf and dumb was by Pedro de Ponce, a Spanish monk, in 1570.

The Dalles

Wasco County, - - - Oregon.

The Gate City of the Inland Empire is situated at the head of navigation on the Middle Columbia, and is a thriving, prosperous city.

ITS TERRITORY.

It is the supply city for an extensive and rich agricultural and grazing country, its trade reaching as far south as Summer Lake, a distance of over two hundred miles.

The Largest Wool Market.

The rich grazing country along the eastern slope of the Cascades furnishes pasture for thousands of sheep, the wool from which finds market here.

The Dalles is the largest original wool shipping point in America, about 5,000,000 pounds being shipped last year.

ITS PRODUCTS.

The salmon fisheries are the finest on the Columbia, yielding this year a revenue of thousands of dollars, which will be more than doubled in the near future.

The products of the beautiful Klickitat valley find market here, and the country south and east has this year filled the warehouses, and all available storage places to overflowing with their products.

ITS WEALTH.

It is the richest city of its size on the coast and its money is scattered over and is being used to develop more farming country than is tributary to any other city in Eastern Oregon.

Its situation is unsurpassed. Its climate delightful. Its possibilities incalculable. Its resources unlimited. And on these corner stones she stands.
