If however, like thousands of other people, you have learned that you must "draw the line at lard," this is to remind you that there is a clean, delicate and healthful vegetable substitute, called

SUGAR ON FREE LIST

Both Raw and Refined Now Without Duty.

THE COAL SCHEDULE TAKEN UP

Foreign Nations Must Keep Their Hands Off Hawaii—No Annexation at This Time.

WASHINGTON, Jan. 23.—The house today resumed consideration of the sugar schedule of the tariff bill, the pending amendment being Robertson's, imposing a duty on raw sugar and increasing the duty on refined, as amended by Warner, placing both raw and refined on the free list. The confusion entailed by these two incongruous amendments had first to be straightened out.

Dingley claimed the Warner amendment was utterly inconsistent with the Robertson amendment and should be considered as a substitute.

Robertson took issue with him, maintaining the effect of Warner's amendment was simply to place refined sugar on the free list, leaving so much of his amendment as imposed a duty on sugar below the 16 Dutch standard unaffected. A vote was finally taken on Warner's amendment as a substitute, and it was carried, 161 to 38.

The effect of this is to place all raw and refined sugars on the free list. The great mass of democrats and practically all republicans voted for the proposition, only a handful of democrats, including Wilson and several other democrats of the ways and means committee, voting against it.

The coal schedule was then taken up. The first amendment, by Oates of Alabama, is as follows: To strike out of the free list coal, etc., and insert coal, bituminous and shale, 40 cents per ton of 28 bushels, 80 pounds to the bushel; coal slack or culls, such as will pass through a half-inch screen, 20 cents per ton of 28 bushels.

Wise of Virginia followed with an amendment striking out 40 cents and inserting 50 cents.

In the Senate.

WASHINGTON, Jan. 23.—In the senate, the committee on foreign relations reported favorably the following resolution:

"Resolved, That from the facts and papers laid before the senate it is untrue and inexpedient, under the existing conditions, to consider at this time any project of the annexation of the Hawaiian islands to the United States; that the provisional government therein having been duly recognized, the highest international interests requires that it shall pursue its own line of policy. Foreign interventions in the political affairs of these islands would be regarded as an act unfriendly to the government of the United States."

Terms of Lobengula's Surrender.

LONDON, Jan. 23.—A dispatch from Cape Town to the Daily News says Sir Henry Loch has dispatched a messenger to King Lobengula, pledging in the queen's name that if he surrenders, his life and interest shall be assured, and he shall not be deported from Africa. Sir Henry has arranged with Premier Cecil Rhodes to provide the king with an adequate tract of land south of the Orange, the chartered company furnishing the royal income.

Populists and the Income Tax.

WASHINGTON, Jan. 23.—Pence of Colorado, on behalf of the populists in congress, will offer an amendment to the income tax bill when it comes up for consideration, providing for a graduated income tax as follows: \$2,500 to \$10,000, 1 per cent; \$10,000 to \$30,000, 2 per cent; \$30,000 to \$60,000, 3 per cent; \$60,000 to \$100,000, 4 per cent; over \$100,000, 5 per cent. This is in accordance with the plank in the populist platform. If the populists cannot get the democrats to adopt their idea, they will drop it and help pass the democratic measure.

\$100 Reward, \$100.

The readers of this paper will be much pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly on the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer \$100 for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, O. NEWS NOTES.

George W. Childs, who has been ill, is out of danger.

Sugar and coal are added to the free list in the Wilson bill.

Jacksonville, Fla., was full of militia-men yesterday, ready to enforce the law against prize fighting. They were hissed by a mob, but are determined to enforce the law even if they are compelled to shoot to kill.

A dispatch from the Associated Press correspondent at Rio Janeiro says probably the United States will be called on to arbitrate the differences between the government and the insurgents. Both sides are heartily tired of the conflict.

President Diaz would not permit the Corbett-Mitchell fight to take place in Mexico. Diaz stated that if the sport is too brutal to be given in the United States it cannot be given in Mexico. He evidently believes a bull fight is less brutal.

One hundred and twenty years was the age of Mrs. John Bradock, who died at Slabtown, Pa., yesterday. Mrs. Bradock was a native of Hungary. She was a student at a college at St. Petersburg prior to emigrating to this country. She was twice arrested in Russia for her political opinions and sentenced to Siberia, but her escape was effected by high political power, and she fled to this country forty years ago. Her life since then has been obscure, with but few acquaintances.

EVANS HEARD FROM.

He is Now Said to be Sailing Away on the Atlantic.

SAN FRANCISCO, Jan. 23.—An afternoon paper publishes the statement that the bandits Evans and Morell are safely out of the state, and are sailing on the high seas free from pursuit. It is said that Evans sent to a friend in Arizona a narrative of his adventures after his escape from the jail at Fresno. After capturing the buggy, instead of driving out of town as is generally supposed, he drove to a siding of the Southern Pacific road. The bandits entered a box car, the door of which had been left open by a brakeman in consideration of \$20. The car had been previously stocked with provisions. Galveston, Tex., was reached in a few days. From there they went to New Orleans under the care of friends. Since then the news has been received that the bandits got to sea without attracting any suspicion, and the wide Atlantic now separates them from their pursuers.

THACKER KNOWS WHERE THEY ARE.

SAN FRANCISCO, Jan. 23.—Detective Thacker, of Wells, Fargo & Co., states he has positive information that Evans and Morell are now between Kings river and San Joaquin, and that in a very short time they will surely be caught.

NEED OF THE POET.

The Laws of the Mind Make Him an Important Factor.

It is impossible for man to live in the world without poetry of some sort or other. If they cannot get the best they will get some substitute for it, and thus seem to verify Saint Augustine's slur that it is wine of devils, says James Russell Lowell in Century. The mind bound down too closely to what is practical either becomes inert, or revenges itself by rushing into the savage wilderness of "isms." The insincerity of our civilization has disgusted some persons so much that they have sought refuge in Indian wigwams and found refreshment in taking a scalp now and then. Nature insists above all things upon balance. She contrives to maintain a harmony between the material and spiritual, nor allows the cerebrum an expansion at the cost of the cerebellum. If the character, for example, run on one side into religious enthusiasm, it is not unlikely to develop on the other a counterpoise of worldly prudence. Thus the Shaker and the Moravian are noted for thrift, and mystics are not always the worst managers. Through all changes of condition and experience man continues to be a citizen of the world of ideas as well as the world of fact, and the tax gatherers of both are punctual.

There is as much poetry as ever in the world if we only know how to find it out, and as much imagination, perhaps, only that it takes a more prosaic direction. Every man who meets with misfortune, who is stripped of material prosperity, finds that he has a little outlying mountain farm of imagination, which did not appear in the schedule of his effects, on which his spirit is able to keep itself alive, though he never thought of it while he was fortunate. Job turns out to be a great poet as soon as his flocks and herds are taken away from him.
