KILLED EACH OTHER

Terrible Shooting Affray Between Father and Son.

WITNESSED BY A LITTLE CHILD

A Suicide Caused by Disappointment in Love—Bandits Surrounded and Shot.

LOS ANGELES, Cal., Jan. 29.—Sheriff Kline has just returned from Compton, this county, where he has been all morning investigating a double murder that occurred on Johnson's ranch, near that place. John Johnson, aged 46, and his son, George, were both found at the ranch house dead. From a younger son 11 years old, the particulars of the terrible tragedy were learned, he being an eye witness. His brother, who is 25 years old, was out hunting yesterday, when he returned in the evening he and his father had a quarrel, which culmi- nated in George's calling him a vile name and telling him he ought to go back where he came from. The father picked up a revolver and shot his son, the bullet entering near the heart. The young man staggered, but did not fall, and, seizing his double-barreled shotgun, poured the contents into his father, the charge entering the pit of the stomach, killing him instantly. The young man then reeled out to a water trough, the blood streaming from his mouth, and while in the act of drinking a cup of water tumbled over dead. The terrified boy, who saw the horrible murders, finally rode on a Shetland pony to an adjoining ranch and gave the news. The family has hitherto borne a good reputa- tion. The coroner held an inquest this morning, at which the facts narrated were elicited, and a verdict in accordance therewith returned. The tragedy caused great excitement at Compton and vicin- ity, where the parties were well known.

He Died For Love.

PHOENIX, Ariz., Jan. 29.—Ar Mesa City, 18 miles east of Phoenix, W. T. Burton took laudanum yesterday morn- ing with suicidal intent. The act was quickly discovered and prompt medical attention given. Half the male popula- tion of the town turned out to aid in ex- ercising the man, but to no avail as he died during the night. The cause was disappointment in a love matter.

Surrounded and Killed.

TOPEKA, Kan., Jan. 29.—The general passenger agent of the Mexican Central at Chihuahua telegraphed General Passenger Agent Nicholson, of the Santa Fe road, that the government troops overtook and surrounded the bandits at Arroyo del Mangona and defeated them, killing 26, including the famous Lujan, and taking 25 prisoners. Victor Ochoa escaped, but is certain to be captured.

Scalded to Death.

SACRAMENTO, Jan. 29.—August Hill, a child aged 11, while reaching behind a stove in the house of relatives, on Second street, to get a stocking which hung on a line there, upset a large boiler of water and was literally cooked to death. The boy's parents reside in Virginia City, Nev., and he was here on a visit. He suffered nearly 12 hours be- fore death gave relief.

The Execution of Vaillant.

PARIS, Jan. 29.—It was reported last night that Vaillant would be guillotined this morning. A large crowd gathered in the vicinity of the place of execution during the night. This morning there was much disappointment when it was learned the execution would not occur today. Le Petit Journal says that the government intends making sweeping arrests of anarchists, and will detain them in prison until after Vaillant is executed.

How do you do when you buy shoes or clothing? Don't you go to the place (if you can find it) where they tell you that you may wear the articles out, and then, if you are not satisfied, they'll refund the money? Why not do the same when you buy medicine?

Dr. Pierce's Golden Medical Discovery is sold on that plan. It's the only blood purifier so certain and effective that it can be guaranteed to benefit or cure, in every case, or you have your money back. It's not like the ordinary spring medicines or sarsaparillas. All the year round, it cleanses, builds up, and invig- orates the system. If you're bilious, run-down, or dyspeptic, or have any blood-taint, nothing can equal it as a remedy.

SINGLE-TAX SCHEME.

Is Now Developing in the West and South.

WASHINGTON, Jan. 29.—The feature of the debate upon the Wilson bill which has been most surprising is the unex- pectedly strong sentiment in the direc- tion of free-trade and single-tax theories developed among the democrats of the west and south. It has remained for Maguire of California to bring forward the most far-reaching proposition placed before the house. For the first time congress will be brought face to face and placed on record upon the single land tax scheme, of which Henry George is the author. Maguire has drawn up, with great care and study, a bill which gives effect to the single tax theories and will propose it at the proper time as a substitute for the income tax to the Wilson bill. This bill levies a direct tax of \$52,622,250 upon the value of all land, exclusive of the improvement thereon, in states and territories. It provides for collection by collectors and assessors for each state or territory, to be appointed by the president, or that the states shall collect the taxes them- selves and turn them over to the treas- urer of the United States, retaining 15 per cent of the proceeds. Mortgages on real estate are to be treated as interest in the land tax on proportion of the value represented. The amount due from the mortgagee shall be a primary charge against the mortgagee, but will constitute a lien on the land, to satisfy what may be sold. In case the mortgage fails to pay his proportion, the owner is to pay it and be entitled to receive credit for the amount on his mortgage.

NEWS NOTES.

Talmage has tendered his resignation as pastor of Brooklyn tabernacle.

Rosina Vokes, the English actress, died at Torquay, Devonshire, Saturday.

The czar is suffering from a severe at- tack of influenza, accompanied by bron- chitis and inflammation of the right lung.

Charles Owens of Boston is under ar- rest, charged with murdering his wife and child, and then burning the house over them to hide the crime.

The republican program in regard to the income-tax bill is not fully outlined, but present appearances indicate that it will receive united support when a vote is taken to incorporate it in the tariff bill.

Judge Willis, of the district court, has rendered a decision declaring the law for the suppression of railroad-ticket scalping, by requiring the scalpers to have licenses, unconstitutional on the ground of class legislation.

Joseph Bush, foreman of an irrigat- ing ditch at Hooper, was killed Sunday two miles and a half east of Winona, Wash. Bush was riding down the track between Lacrosse and Winona on a velocipede car when struck by the en- gine drawing No. 6, west-bound. He was thrown from the velocipede and killed, and his body was sent to Colfax under instructions from the coroner of Whitman county.

One of the many laws passed by the Kentucky legislature last year was a loosely worded one, mandatory in na- ture, directing that each school district be supplied with maps, charts and globes. The school-book vendors are pushing the sale of these supplies at a rate that is raising a howl all over the state. Outfits that can be sold at a profit for \$20 are forced on the trustees at \$125.

The Knights of Labor through their master workman, Sovereign, has begun an action for the purpose of enjoining Secretary Carlisle from issuing the \$50,000,000. The case has been argued by examiner counsel before Judge Cox of the United States Court, who has taken the matter under advisement and will decide the question today or tomorrow. The secretary is somewhat annoyed and disappointed.

Three American ships who were en- dangered by the indiscriminate fusillade of the insurgent war ships Saturday ap- pealed to Admiral Benham for protec- tion. He saw De Gama, who was in a somewhat sultry mood and replied: "It is not my fault. The American ship captains should know enough to keep

themselves and their crews out of range of our guns. I shall not take any notice of this matter." Benham said nothing, but the next day got the entire naval fleet in readiness, including the New York, Newark, San Francisco and De- troit, and escorted the small ships to the harbor. Not a shot was fired. This action will have a good effect in teach- ing the belligerents on both sides to re- spect the rights of vessels sailing under the stars and stripes. Benham's course will doubtless result in similar action by representatives of other nations in Rio.

BLUM HAS AN ALIAS.

He Is Known as "Dr. Herrick" in Washington.

A. B. Slauson, the special correspond- ent of the Seattle Post-Intelligencer, sends a long dispatch to that journal from Washington under date of January 27th. Among other things he says:

"There is a noted Oregonian in this city at the present time, although his coming was not heralded in the public press, nor has his presence here been signaled by interviews in all the city papers. He is neither a politician nor a placehunter, but a wearer of diamonds and fine linen, a man who pays treasury officials \$1,200 a month when he has need of their services. This is Mr. Nat Blum, who needs no introduction either to the people of Portland or Puget Sound, although he is not quite so well known here.

VAL HASTINGS WITH HIM.

"At the Oxford, where he is stopping with a young lady known as Val Hast- ings, he is known as Dr. Herrick of Astoria, and after his name on the hotel register appear the words 'and wife.' Mr. Blum has been here for several weeks, while the papers out in the Northwest have had him located all the way from British Columbia to New York City. The story that he is here negotiating for a pardon is equally off the track. Neither he nor his partner, Jackling, will ever be sentenced for their confessed guilt. They have been too useful to the treasury department, and as there is another trial coming on, the days of their usefulness are not over.

THE 'DR.' WELL RECOMMENDED.

"Dr. Herrick" came here well recom- mended. He has letters from the spe- cial treasury agents to chiefs of divisions in that department, from United States District Attorney Dan Murphy, from Judge Durand, who was special counsel for the government in the smuggling cases, all of which recounted his services in the attempt to end ex-republican officials to the penitentiary. Besides he had personal letters to Secretary of Agriculture Morton, who, in his own carriage, drove his guest about the city when he first came, showing him all the points of interest.

"Mrs. Herrick" is greatly admired at the hotel where they are stopping. Beauty is at a premium in Washington City, and a fresh face is always certain to gain a world of flatterers. All in all, the doctor and his wife have been hav- ing a very good time in Washington City.

BLUM FURNISHING "POINTERS."

"His face is a familiar one in the treasury building, and before he leaves the officers of this administration will know more about smuggling and how it may be prevented than they ever did before. This is the real object of Blum's visit to Washington City. He is furnishing pointers to the department, and recent captures were undoubtedly the result of some of the information of which this man has unburdened him- self here. The hope of convicting Lotan of participation in the smuggling busi- ness has not yet been given up, and Blum is confident that when the opium trials come up the government will secure the convictions they failed to do when the Chinese smuggling cases were on trial."

"During the epidemic of la grippe Chamberlain's Cough Remedy took the lead here and was much better liked than any other medicine." H. M. Bangs, druggist, Chatsworth, Ill. The grip is much the same as a very severe cold and requires precisely the same treatment. This remedy is prompt and effectual and will prevent any tendency of the disease towards pneumonia. For sale by Blake- ley & Houghton, druggists.
