It will be hard work to convince U. P. employes that an "equalization" of wages is a benefit if it lowers them.

Editor Harvey Scott refuses to accept the nomination for mayor of Portland. He would rather be on the committee of 100.

The Hays City Sentinel reports Mr. Lease as exclaiming, "Land suds! I just think him real mean!" when Lewelling bounced Mrs. Lease.

Perhaps the true inwardness of Talmage's resignation is a desire for more salary. At any rate finances of some nature are causing the trouble.

Oregon has her John H. Mitchell in the senate, and Wisconsin her John L. Mitchell; Oregon has her W. R. Ellis in the house and Kentucky her W. T. Ellis.

A new club has been organized in San Francisco styled the "Portia Law Club." Women only are to be members.

Mello and DeGama have both had a chance and failed. There ought to be less of bitterness to the former because De Gama made his brags that after Mello got through pirouetting around he would take charge of the rebellion and conduct it to a successful issue.

The men that went out in search of George Colgate, the unfortunate man who went out with the Carlin hunting party, and who was reported to have died from exposure, have returned without accomplishing the object of their search.

A New York exchange says the blind pigs of Oregon wallow in the rich black mud which quickly stiffens upon their classic brows so that they cannot wink. In this predicament they quickly become blind; though humane farmers sometimes mitigate their sufferings and prolong their powers of vision by providing them with blue glass spectacles.

Avoid the sign "imported;" avoid things "imported;" avoid the tailor who carries nothing but "imported" suitings; avoid the shops that announce nothing but "imported" silks, the "imported" glassware, the "imported" china, the "imported" bric-a-brac, the "imported" textiles; avoid the cigar dealer who would sell you only "imported" cigars, which may carry the filth of foreign countries; avoid the grocer who would sell you "imported" dried fruits, which may carry the germs of disease, and avoid the newspaper which teaches the "imported" idea and advocates free trade.—Economist.

The Home Market Club of Boston is the most vigorous and energetic protectionist organization in the United States, and much of its energy is due to the work of Mr. Albert Clarke, its secretary. In the February number of The Forum Mr. Clarke takes up the Wilson bill, which he calls "The Wilson Tariff for a Deficit Only," to show that it is neither flesh, fish nor fowl. It is not a free-trade bill, as a part of the democratic party at least was supposed to desire; it is not a bill for revenue only, as the party platform calls for, because it has many distinctive protective features; and yet it is not a bill that will bring sufficient revenue for the government. It has therefore, he says in conclusion, "not a single leg to stand on."

Krause's Headache Capsules. A remedy used with unvarying success as a cure for Headaches of all kinds. The results have been so universally good that it is no longer an experiment. It has been used for Headache resulting from Dissipation, in Periodical Sick Headache, in Headaches caused by severe labor mental or physical, or by exposure to the sun, and in all cases with the most gratifying results. We have, after a thorough investigation, had no hesitation in taking the agency for this effective remedy, and conscientiously recommend it to our patrons. Sold by Blakely & Houghton.

Learning the Begging Trade. Many of the children in the east end of London are trained in the arts and blandishments of begging by old hands at the business, who have retired from active operations. In Paris there are several "professors" who earn good incomes by teaching young people how to beg. Clever purse fakers, pocket pickers and handkerchief stealers are turned out after a certain course of lessons, for which a moderate fee is charged. Beggars "pitch" frequently change hands at respectable figures, and advertisements often appear in the French papers offering to dispose of "lucrative corners" and "good will" to those desirous of entering the ranks of the begging fraternity. Just the other day a pitch in front of the Louvre was disposed of for one hundred dollars.

The Salt in the Sea. According to a computation of the Berg und Huettenmaennische Zeitung, the amount of salt in the sea waters of the globe, if extracted, would be greater in mass than the land so far as it appears above the surface. The seas, it says, cover 73 per cent of the earth's surface, estimated at 9,200,000 (German) square miles. The percentage of chloronium in the sea is the same at all depths. Assuming that the average depth of the sea is a half (German) mile, there are 3,400,000 cubic miles of sea water. A cubic mile of sea water contains, on the average, about twenty-five kilograms of salt. The 3,400,000 cubic miles of sea water would therefore contain 85,000 cubic miles of distilled pure salt. There is therefore little danger of a salt famine, is the rather logical deduction of the writer.

THE WEAKEST SPOT in your whole system, perhaps, is the liver. If that doesn't do its work of purifying the blood, more troubles come from it than you can remember.

Dr. Pierce's Golden Medical Discovery acts upon this weak spot as nothing else can. It rouses it up to healthy, natural action. By thoroughly purifying the blood, it reaches, builds up, and invigorates every part of the system.

For all diseases that depend on the liver or the blood—Dyspepsia, Indigestion, Biliousness; every form of Scrofula, even Consumption (or Lung-scrofula) in its earlier stages; and the most stubborn Skin and Scalp Diseases, the "Discovery" is the only remedy so unerring and effective that it can be guaranteed.

If it doesn't benefit or cure, you have your money back. On these terms, it's an insult to your intelligence to have something else offered as "just as good."

Dr. Sage's Catarrh Remedy by its mild, soothing, cleansing and healing properties perfectly and permanently cures Catarrh in the Head.

THE DALLES

Wasco County, Oregon. The Gate City of the Inland Empire is situated at the head of navigation on the Middle Columbia, and is a thriving, prosperous city.

ITS TERRITORY. It is the supply city for an extensive and rich agricultural and grazing country, its trade reaching as far south as Summer Lake, a distance of over two hundred miles.

The Largest Wool Market. The rich grazing country along the eastern slope of the Cascades furnishes pasture for thousands of sheep, the wool from which finds market here.

The Dalles is the largest original wool shipping point in America, about 5,000,000 pounds being shipped last year.

ITS PRODUCTS. The salmon fisheries are the finest on the Columbia, yielding this year a revenue of thousands of dollars, which will be more than doubled in the near future.

The products of the beautiful Klickitat valley find market here, and the country south and east has this year filled the warehouses, and all available storage places to overflowing with their products.

ITS WEALTH. It is the richest city of its size on the coast and its money is scattered over and is being used to develop more farming country than is tributary to any other city in Eastern Oregon.

Its situation is unsurpassed. Its climate delightful. Its possibilities incalculable. Its resources unlimited. And on these corner stones she stands.
