SOME INCONSISTENCIES.

The Economist discerns a few inconsistencies in the Wilson bill and finds that on Potatoes, a northern and western farm product, mostly, a tariff is proposed at 10 cents per bushel, or 20.87 per cent. ad valorem.

Peanuts, exclusively a southern product, the protection is to be 1 cent per pound, or 72.86 per cent. ad valorem.

Hoop iron, when used for cotton ties, to cover bales of southern cotton, is to be free of duty; but Hoop iron, when used to cover bales of hay, the product of the northern, eastern and western farmer, is to be taxed 30 per cent. ad valorem.

Iron ore is placed upon the free list, but Kaolin, a product of South Carolina, is protected by a duty of \$2 per ton, or 26.38 per cent. ad valorem.

Apples, eggs and cabbages, which are products of the energy of the northern, eastern and western farmers, are put upon the free list so as to suffer from competition with the almost pauper labor of Canada; but Rice, which is exclusively a southern product, has been the object of very tender care and solicitude.

The Cosmopolitan for February introduces a famous European author to its readers—Valdes of Madrid, and the artist Marold of Paris, well known as a French illustrator.

The Olympian-Tribune has a jewel of a reporter for amateur entertainments. Here is a specimen of his skill in dodging a very dangerous rock: "The heroism of Cinda Harrold, in speaking with a dreadful cold, won her admiration on every hand."

The president is reported to have made up his mind not to send any more nominations to the senate until the nomination of Mr. Peckham for the supreme bench and a large number of others that have been pending for a long time have been disposed of.

The Spokane Review says: The democracy worked up a good deal of frothy enthusiasm in the house when the Wilson bill passed. But the cheering quit right there. The fellows who made that demonstration haven't been fairly hit by the hard times undertow.

The readers of this paper will be much pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity.

KEYS IN THE EAST.

Their Great Bulk Corresponds to Intensity of the Locks. In the "History of Nineveh, and Its Palaces," by Joseph Bonomi, we find a description of, perhaps, the oldest lock ever discovered, says Hardware. It was used in securing the gate of the apartment in one of the palaces of Khorsabad. In describing this ancient piece of hardware—if such terms may be applied to wooden locks—he says: "At the end of the chamber, just behind the first bulls, was formerly a strong wooden gate, of one leaf, which was fastened by a large wooden lock, like those still used in the east, of which the key is as much as a man can conveniently carry, and by a bar which moved into a square hole in the wall. It is to a key of this description that the prophet probably alludes. 'And the key of the house of David will I lay upon his shoulder,' and it is remarkable that the word for key in this passage of Scripture, 'muttah,' is the same in use all over the east at the present time.

The only medicine of its kind so remarkable in its effects that it can be sold on this plan is Dr. Pierce's Golden Medical Discovery. As a blood-cleanser, strength-restorer, and flesh-builder, there's nothing like it known to medical science. To every sufferer from Catarrh, no matter how bad the case or of how long standing, the proprietors of Dr. Sage's Catarrh Remedy say this: "If we can't cure it, perfectly and permanently, we'll pay you \$500 in cash." Sold by all druggists.

That's a good way to buy a medicine, but it's a pretty hard condition under which to sell it. Perhaps you've noticed that the ordinary hit or miss medicine doesn't attempt it.

The only medicine of its kind so remarkable in its effects that it can be sold on this plan is Dr. Pierce's Golden Medical Discovery.
