Troubles of Soiled Doves.

The jury found Bell Lewis guilty of larceny by bailee on the first ballot. The facts of the case are substantially as follows: While sick she borrowed a watch from the mistress of the house, the latter believing she wanted it to time herself by in taking medicine. Instead Miss Lewis pawned it for \$25. Nothing much was thought of the proceeding by the owner of the watch, it seemingly being a custom for this class of people to raise money by pawning jewelry, either their own or belonging to others. But a disagreement arose between them and Miss Lewis left the house. She then wrote a letter to the owner of the watch, telling her where it was and that she could get it by paying \$25 for it. She was informed in answer that she owed Miss Lewis nothing, nor the one who was in possession of the watch, and unless she returned the watch she would have her arrested. The watch was not forthcoming and the arrest was made with the result as stated.

Just a Kindergarten.

The Midwinter fair has developed into a local squabble between rival newspapers in San Francisco, and the gate receipts have dwindled to nearly nothing. So much so that daily statements of the amount are no longer published. Two weeks ago information was sent out from the head office of the managers that country editors in making applications for passes to the fair must accompany said applications with their photographs—a sort of a Geary exclusion act, which they have resolved not to submit to, but they are generally publishing the latest conundrum about the fair: "Why is it like a kindergarten?" "Because it was gotten up to benefit de Young."

Enumerators' Troubles.

The school children enumeration still goes on. Clerk Jacobsen says that wherever practically he gains statistics from the men. He says the ladies very often open the door with their sleeves rolled up, and steam rising from their arms when they have come from the washtub or perhaps they have been in the dough, which is still hanging from their fingers, when they answer the call. Very often he has to enter into an explanation that his duties are not at all similar to the assessors', for the women imagine that if they show up a good many children their school taxes will be heavier. When told that the more they have, the greater the benefit without added expense to them, they frequently trot out a dozen or more.

WATSON'S CONDITION.

He Was Stabbed Five Times, Once Probably in the Lungs.

F. W. L. Skibbe appeared before the recorder this morning and was discharged until Tuesday morning at 10 o'clock, pending developments of Watson's condition. If he recovers the charge will be assualt with a dangerous weapon, and if he dies the charge will be more serious. Watson's condition has not changed materially since yesterday. The attending physicians believe, from present developments, that his intestines have not been pierced. Yesterday he coughed up blood and clotted matter, which probably comes from his lungs. Another stab was found in his back, which would account for it if one of his lungs were reached. Three other stabs exist, one on his chin, one under the left eye and one over the right eye. He is a very restless patient and is not submissive to the doctor's orders, who told him he must lie perfectly quiet. On one occasion he left his bed and walked to the table and back.

THE AMERICAN FARMER, which is now entering upon its 75th year, is the pioneer farmer's paper in the country. It is a large eight-page paper, and contains 66 columns of the choicest agricultural and literary matter, plentifully embellished with fine illustrations. It is
NATIONAL IN CHARACTER,
and deals with farming and farmer's interests on broad, practical lines.
EMPLOYS THE BEST WRITERS IN THE COUNTRY,
and everything that appears in its columns is of the highest character. Every department of the farmer's business is discussed in an earnest, practical way, looking to the greatest profit and benefit to the farmer and his family.
It appears on the 1st and 15th of each month, and is furnished at the low price of
50 CENTS A YEAR
in advance. This makes it the cheapest agricultural paper in the country.
FARMER LEGISLATION.
During the coming year there will be an immense number of matters of the most vital interest to farmers dealt with by Congress and the Executive Departments at Washington. It is highly important that the farmers be kept promptly and fully informed as to what is being planned and done affecting them at the National Capital. They should all, therefore, take THE AMERICAN FARMER, which, being on the ground, has better facilities than any other papers for getting this information, and devotes itself to this duty. They will find in it constantly a great amount of valuable information that they can get in no other paper.
THE AMERICAN FARMER and THE CHRONICLE will be sent one year for \$1.75.
