## HELD UP BY ROBBERS

An Express Train Wrecked on the Southern Pacific.

## CARS BLOWN UP WITH DYNAMITE

Poses are Out After the Robbers, but There is Little Hope of Their Capture.

LOS ANGELES, Cal., Feb. 16.—Southern Pacific No. 20 was robbed at Roscoe station this morning at about 1 o'clock. This is the same place that the same train was robbed about six weeks ago. The train was delayed in leaving and did not get away until about 11:30 last night. It was heavily loaded with passengers, and Wells, Fargo & Co.'s shipments were unusually heavy. The train reached Burbank, about six miles north of this city, and was reported back all right. At Roscoe, four miles north of Burbank there is no station, but a siding. As the train approached this switch, Engineer Thomas saw too late that the switch was misplaced, and vainly tried to stop the train. The engine and two fruit cars of oranges went into the ditch, the engine turning over and burying the engineer and fireman. The two fruit cars were a total wreck. As soon as the wreck occurred three masked men sprang up out of the bushes and commenced a fusillade and every one knew the mission of the desperadoes was robbery. A few seconds later a couple of dynamite bombs were placed under the express car. The messenger refused to open and the whole side was blown off. Brakeman Foster rose to the emergency as soon as he heard shots and made a run for a neighboring ranch house, where he saw a light. Here he got a team and drove back to Burbank and gave the alarm.

Within fifteen minutes of the time he received word of the robbery, Sheriff Cline had a posse of six men out on the road to the scene. The engine which conveyed the sheriff to the wreck was attached to the train and returned with it to this city, arriving at 4:30 this morning, bringing also the bodies of Masters and Granger, the tramp. Sheriff Cline was accompanied by James H. Pacey, one of the two men who were stealing a ride on the pilot of the engine, and on being interviewed said: "The first thing I saw before the train left Burbank was a torch flaring up a short distance ahead, and a man waving a flag. The engineer, however, did not stop, and as we passed the man with the torch he fired two shots, one in the air and the other at the engineer. Almost immediately I was hurled from the pilot as the engine left the track and fell over into the ditch. When I recovered I heard a dull roaring sound, which I subsequently learned was the explosion of dynamite in the express car. I at once returned to the train and helped to extricate the injured fireman from the wreck. I distinctly saw two of the robbers. One was a short, thick-set man of about five feet five or six inches in height, while the other was several inches taller and slim. Both wore black slouch hats and masks. The taller of the two was armed with a rifle, but the other had two pistols, one in each hand."

When the posse arrived at the scene everything was in confusion. The engine and two cars were wrecked on the siding. Fireman Arthur Masters and an unknown man, supposed to be a tramp, were dead. The fireman's body was horribly mangled, having been run over by the tender and two cars. It is claimed by Engineer Thomas that he was shot before falling under the wheels, but circumstances point to the belief that he had endeavored to jump from the tender, and had fallen and was crushed to death. The tramp was shot through the heart. The best evidence obtainable at this writing is that he was stealing a ride on the pilot, and was shot by a stray bullet while making for the brush. Engineer Thomas, seeing the fireman fall, jumped and was shot while running. The engine was at this time jumping the track and turning over, followed by two fast freight cars. Messenger Edgar can give but a meager description of the two men he saw. They forced him to give up the keys, and the rifling of the safes followed. The whole transaction did not take more than 15 minutes. As near as can be learned, the two men left on horseback in the direction of Cahuenga pass, a distance of about 12 miles. No tracks of them have been discovered, and the officers who arrived are practically in the dark as to clues. The robbery was so quickly accomplished that the chance for identification of the participants or their actual number is a

## NEWS NOTES.

Peckham's nomination was rejected in the senate by a vote of 31 to 41. Senator Dolph's bill to refund money to settlers who were overpaid on railroad lands was reported favorably by the senate committee on public lands. Up to date there has been received in Washington \$56,244,618 on account of the recent bond issue. Of this amount there was paid in gold coin \$52,018,955, and in gold certificates \$4,225,663.

Judge Brentano, who tried Prendergast, Mayor Harrison's assassin, received a letter threatening his life unless he was lenient with the prisoner. Officers guarded him while he was hearing argument for a new trial.

All of the late King Lobengula's regiment, except the Iniato regiment, which is guarding the king's grave, have surrendered. A dispatch from Bulawayo confirms the report of the death of Lobengula. He died of smallpox.

Tuesday night an ice floe broke adrift on the coast of Ingermanland, Russia, and carried off 500 fishermen, with their wives and children, who were on the ice at the time of the accident. Food, clothes and fuel are being sent and their rescue is probable.

Miss Ida Powell shot and probably fatally wounded her sister Hatty, aged 28, in Bandana, Ky. The two kept a millinery store. During the night Ida fired at a window, where she thought a burglar was trying to break in. With a shriek her sister fell on the floor with a bullet in her breast, near the heart.

A terrible accident occurred on board the German ironclad Brandenburg yesterday morning near Stollergrund, three miles from the Duell lighthouse, at the entrance of Kiel bay. Today was selected for a forced-draft trial. To get the ironclad in first-class condition for a test, forty artificers were sent aboard from the imperial dockyard. While eleven of the artificers were in the engine-room, a tremendous explosion took place, killing all but one of them. Thirty-nine were killed altogether.

Defaulter Brady Captured.  
Oregonian.

Frank C. Brady, who left Portland early in July, 1892, with \$15,000, mainly funds of the Sunnyside Land & Improvement Company, was arrested yesterday at Leavenworth, Kan. He was apprehended through the instrumentality of Henry W. Minster and Thomas G. Conklin, the respective superintendents of the Portland and Kansas City branches of the Pinkerton National Detective Agency.

The story of Brady's criminal career is an interesting one. He came to this city about six years ago, and took the position of bookkeeper and confidential clerk of THE OREGONIAN. He was a very competent man, and his diligence and attention to business soon gained for him the Sunnyside Land & Improvement Company. During his connection with this company he embezzled thousands of dollars, but so cleverly did he conduct his operations that not a shadow of suspicion was fastened upon him until after his departure for unknown pastures.

Dr. West Guilty as Charged.  
SAN FRANCISCO, Feb. 16.—The jury in the case of Dr. Eugene F. West, charged with having murdered Addie Gilmore, a young milliner, by mal-practice, and whose mutilated remains were found in the bay last September, rendered a verdict shortly after 10 o'clock this morning finding the defendant guilty as charged. The jury was out all night. The jury found the defendant guilty of murder in the second degree.

The verdict had no effect upon West, who when it was rendered stared blankly at the jury. Sentence will be pronounced next Saturday. Attorneys for the defense are confident that the case will be sent back for a new trial.
