FEBRUARY FARRAGO.

Minor Events of Town and Country Briefly Stated.

This world is all a fleeting show For man's infatuation: A little rain, a little snow; You plod along, and reap and sow; Life's journey done—away you go To swell the conflagration.

Soiree tonight at Wingate hall. The McKinley club meets tonight over THE CHRONICLE office.

Mr. W. A. Kirby has adorned his store front with a bright red awning.

Misses Frazier and Michell are being examined today for state diplomas.

The weather forecast for today and tomorrow is occasional snow and slight temperature changes.

An auction sale of Sam Klein's goods has been going on today. The goods go pretty well, proving that there is considerable money in circulation.

The Klickitat county board is considering the feasibility of the immediate reconstruction of the Klickitat bridge recently carried away by a freshet.

C. W. Gilhouse, the photographer, exhibits some very handsome photographs at Pease & Mays' store. These will be changed frequently for others.

Next to snow, mud is the best medium for sleigh runners. There were one or two farmers in this morning on sleds, who said there was plenty of snow within a few hundred yards of the city.

We had the pleasure today of being shown by Mr. H. J. Maier a curiosity in the shape of some very antiquated Indian relics, which are well worth seeing. They will for a few days be on exhibition at the store of Maier & Benton.

Editor Cradlebaugh cannot forego a joke, even in mournful events. Speaking of the death of Charles Mercer, who in his lifetime handled ice, he concludes an eulogy as follows: "Peace to your spirit, old friend, and may it find abiding place where your old calling need not be pursued."

Mr. M. M. Waterman, a prosperous farmer of 8-Mile, called on this office today. Mr. Waterman is of the opinion that there will be a much larger acreage of grain in Wasco county this year than ever before. His experience in wheat raising for the market has not been one that has been remunerative. His idea is that the farmer should look more to diversified farming, and not depend so much on wheat.

Discharged all the Boys.

Mr. W. Lord returned from the Cascade Locks last night. He confirms the reports as to the expedition going on and says they are working with might and main and accomplishing great results. Thursday night an incendiary fire occurred at the shed over the air compressor. It was extinguished after some difficulty, but for a time endangered the large shed over the stonecutters which is 300 feet long and fifty feet high and rigged with trolleys.

Since the Day Brothers have lost their suit for damages, they have discharged everyone on the works less than 21 years of age. They feel aggrieved at the verdict, believing they were in no way responsible for the accident. The action of discharging all minors has proven a hardship to many families living at the Locks.

Surprise Party.

A very pleasant surprise party was given the Misses Grace and Bertha Willerton, last evening at their home in honor of their 14th and 12th birthdays respectively. Games and refreshments were the order of the evening. At a late hour the friends departed to their different homes, feeling satisfied that they could enjoy themselves regardless of "hard times." Those present were: Misses Grace and Bertha Willerton, Sadie Allen, Francis Parrot, Bessie Snipes, Grace Hobson, Sadie Fowler, Addie Payne, and Ninon Oaks, Masters Ivan Oaks, George Chandler, John and James Cooper, Lawrence Fowler and Earnest Willerton.

Car Load of Apples.

Last week W. S. Offner shipped a carload of apples to St. Joe, Missouri. The apples, about 15 tons, were not boxed but shipped in bulk over the Union Pacific at the cost of a cent a pound. Agent Bissell is advised by telegraph that the apples were received at St. Joe in fine condition. This is the first shipment in bulk made from Walla Walla, and as it proved successful there is good reason to suppose that many more shipments of the same kind will be made.

Just full of improvements—Dr. Pierce's Pleasant Pellets. To begin with, they're the smallest and the easiest to take. They're tiny, sugar-coated anti-bilious granules, scarcely larger than mustard seeds. Every child is ready for them. Then, after they're taken, instead of disturbing and shocking the system, they act in a mild, easy and natural way. There's no chance for any reaction afterward. Their help lasts. Constipation, indigestion, bilious attacks, Sick or Bilious Headaches, and all derangements of the liver, stomach and bowels, are promptly relieved and permanently cured.

They're put up in glass vials, which keep them always fresh and reliable, unlike the ordinary pills in wooden or pasteboard boxes. And they're the cheapest pills you can buy, for they're guaranteed to give satisfaction, or your money is returned. You pay only for the good you get.

CIRCUIT COURT.

In Heald vs. Chandler Plaintiff Wins—Ed. Henderson's Case.

After a three days trial of the case of Heald vs. Chandler, it was finally given to the jury. The latter returned a verdict for plaintiff, giving her possession of the farm, and awarding her damages in the sum of \$41.08.

Ed. Henderson came up after dinner on the charge of resisting arrest. Henderson is a young man, and this afternoon there sat beside him his wife and little daughter, about 3 years old, and Henderson's sister. The child was restless enough, but the ladies were as intent upon the trial as the defendant himself. The first witness called was J. H. Jackson, the officer whom he resisted. This was several months since near Dufur. While Jackson was reading the warrant, Henderson leaned over on his saddle and presented a pistol at Jackson's head. He thus escaped, though some shots were sent after his retreating horse. Jackson was allowed to proceed with his testimony until the warrant was produced which he read to Henderson. It was passed to Attorney Bennett, who after reading it, pronounced it invalid, illegal and of no bearing before the present jury. He therefore petitioned that its contents be not submitted to the jury. After lengthy arguments by himself and the prosecuting attorney, it was finally decided to be admissible, and was read before the jury. The warrant was issued in Waterville, Wash., by Justice of the Peace C. L. Davis.

PERSONAL MENTION.

Hon. F. P. Mays is in the city. Capt. McNulty is in the city today. Ex-Governor Moody came up last night.

Miss Ida Waffle came down from Pendleton on the morning train, and is the guest of Miss Minnie Michell.

Mr. John Filloon writes to a friend in the city that he and family would return home from his extended visit with his parents at Mechanicsville, Iowa, in a couple of weeks.

Northwest Apples.

At the fruitgrowers convention in Spokane yesterday Mr. Barnett was asked regarding the best fruits for the eastern markets. He said: "Your apples here are such an improvement on the eastern varieties that I cannot give you the information. Almost any sample shown here would be good sellers in the eastern market. The apple bringing the highest price in the Chicago market is the Northern Spy and the next is the Baldwin; that is for January. For December the first best is the Rhode Island Greening and the Spitzenberg and apples of that class. You want something that will please the eye and is of the best quality possible with it, besides that it have good size. Of course you must be interested in the producing quality. But remember the eye dictates very largely as to what the customer will buy. All, or nearly all, of your fruits will be sold from the fruit stands by the Italians or the Greeks. It is from their greasy nickels that you get your crisp bank notes. Send us the best apples you can, and if you can give us good first-class Spitzenbergs—oh my! We want them. The only Spitzenbergs I have seen lately that looked like the Spitzenberg of my youth I have seen here today."

The readers of this paper will be much pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly on the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer \$100 for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & Co., Toledo, O. FARMER LEGISLATION.

During the coming year there will be an immense number of matters of the most vital interest to farmers dealt with by Congress and the Executive Departments at Washington. They will find in it constantly a great amount of valuable information that they can get in no other paper.

THE AMERICAN FARMER and THE CHRONICLE will be sent one year for \$1.75.
