

TWO KINDS OF WOMEN
need Dr. Pierce's Favorite Prescription—those who want to be made strong, and those who want to be made well. It builds up, invigorates, regulates, and cures.
It's for young girls just entering womanhood; for women who have reached the critical "change of life"; for women expecting to become mothers; for mothers who are nursing and exhausted; for every woman who is run-down, delicate, or overworked.
For all the disorders, diseases, and weaknesses of women, "Favorite Prescription" is the *only* remedy so unfailing that it can be *guaranteed*. If it doesn't benefit or cure, in every case, the money will be returned.
There's nothing likely to be "just as good."

VISITORS AT WASHINGTON.
How Strangers Pour Into the National Capital From Everywhere.
The national capital is the Mecca of sight-seers and they flock in hundreds to this city at all times of the year, says a writer in the Brooklyn Eagle. They come singly, in couples and squads of from a dozen to a hundred. They are from all sections of the country and represent all classes of society. The spunky newly married couple, the well-to-do farmer who has harvested his crops and is enjoying the fruits of his summer's labor, and excursionists from different parts of the country journey to Washington to the convening of each congress. They take in the old historical houses, government buildings and monuments and visit the home of Washington and the Arlington cemetery. But by far the most interesting object to them is the capitol building. Here they devote the most of their time and attention and roam at will through the rotunda, statuary hall and into the galleries of the house and senate. Their chief delight, however, is to go upon the floor of the senate and sit in the seats that were occupied by the illustrious Clay, Webster, Benton and other renowned orators long since numbered among the great majority, and to recline for a moment of bliss in the vice president's chair. A majority of these visitors seem possessed with a mania for collecting souvenirs, and are ever on the lookout for something to carry away as a memento. Not an object that is portable escapes their prying hands; they clip tassels from the costly damask portieres; chip bits of marble from the walls and pillars; take knobs from doors, and one fine short time ago had the audacity to cut a piece as large as the crown of a hat from the center of the twelve hundred-dollar Smyrna rug that covers the floor of the marble room of the senate. Anything in the way of pens, pencils and even inkstands that is found upon the desks of the senators is regarded as common property and as such are appropriated by the rapacious relic hunters.

MASCULINE AFFECTIONS.
The Idiotic Stare, the Walking Stick, Evening Tie and Nonchalance.
It is said on excellent authority that the idiotic stare is still in favor among the exotic youth of sweldon, and any fashionable young man who cannot learn how to abstract every atom of expression from the countenance and look on vacancy with an expression of imbecility, cannot belong to the select coterie or hold rank in the inner circle.
There are other important matters which must be carefully committed if one desires to be in the van of fashion. The first of these relates to the walking stick, and this involves perhaps the most serious responsibility. For the stick must be left at home when going to business, to church, or to make calls. The reason of the latter by-law is that in the language of the stick, to call upon a young lady while carrying a cane, implies that the caller is not sufficiently intimate terms to look in on her casually any time. What finer subtlety than this is to be found in the intricacies of feminine etiquette!
Then there is a fixed and immutable law governing the carrying of the cane. The correct style is to hold it at an angle of forty-five degrees, with the ferrule uppermost and forward. Of course, this is the sort of thing no man could possibly discover for himself, for the unsophisticated would naturally carry his stick with the point to the ground and in so doing stand revealed as untainted in the supreme refinement of etiquette.
No man with a particle of self-respect would wear a made-up evening tie, and as some men find it quite impossible to learn to tie the bow themselves there has sprung up a new industry for women. A young woman in London has taken up the unique calling of going from house to house tying the neckgear of distraught bachelors who cannot do it for themselves. The custom will probably be introduced on this side along with the other English quirks. Let no man in his conceit casquette that when Pandora opened her casket women monopolized all the vanity.
Besides it isn't good form to be so critical. A nonchalant benevolence, superior and patronizing, is the latest mode, and it is not good form to be caustic or pessimistic any more.

An innocent little fellow, to whom intoxication was an unknown evil, went out for a walk the other day and, as he was returning, saw before his own house a man whose curious lurches and staggering compelled an explanation from an accompanying nurse, and seeing at that moment a younger brother running to meet him, he waved him away into the hall door: "Go back, Harold," he cried excitedly, "go back. You might get drunk!"

It Should Be In Every House
J. B. Wilson, 371 Clay St., Sharpshooter, Pa., says he will not be without Dr. King's New Discovery for consumption, coughs and colds, that it cured his wife who was threatened with pneumonia after an attack of "la grippe," when various other remedies and several physicians had done her no good. Robert Barber, of Cooksport, Pa., claims Dr. King's New Discovery has done him more good than anything he ever used for lung trouble. Nothing like it. Try it. Free trial bottles at Snipes & Kinserly's. Large bottles, 50c. and \$1.00.

WE HAVE CURED THESE—WE CAN CURE YOU!
GENERAL DEBILITY CURED.
San Francisco, Cal., August 14, 1893.
Dr. A. T. Sanden, Dear Sir:—Before I used your belt I was troubled with loss of vigor, and almost a complete loss of power. I would get up with a very heavy feeling, being unable to do anything but what I have had a new lease of life. I now enjoy the best of health, and I have the most confidence in your treatment. You can publish this statement also have others write or call on me. Truly yours, **E. A. SWAN, 25 and 26 East St.**
RHEUMATISM AND LAMENESS CURED.
Portland, Oregon, April 12, 1894.
Dr. A. T. Sanden, Dear Sir:—I got one of your belts two weeks ago for rheumatism, from which I suffered for several years. For the past six months I had not been able to work. Your belt has placed me in almost perfect health in the two weeks I have used it. I can walk comfortably, and feel like a new man generally. **E. HUGHES, Proprietor International Hotel.**
NERVOUS DEBILITY—LOSS OF VIGOR.
Lucama, Wash., October 23, 1892.
Dr. A. T. Sanden, Dear Sir:—I have used your Electric Belt for general nervous debility, and to-day I feel as well as I have for five years. I have gained in vigor daily, and I am strong in every part. Yours gratefully, **OHAS. LUETKA.**

THE DR. SANDEN ELECTRIC BELT
is a complete galvanic battery, made into a belt so as to be easily worn during work or street, and it gives soothing, prolonged currents which are instantly felt throughout all weak parts, or we forfeit it. It has an improved Electric Suspensory, the most serious responsibility. For the stick must be left at home when going to business, to church, or to make calls. The reason of the latter by-law is that in the language of the stick, to call upon a young lady while carrying a cane, implies that the caller is not sufficiently intimate terms to look in on her casually any time. What finer subtlety than this is to be found in the intricacies of feminine etiquette!
