QUEEN OF THE WORLD

The Place Destined for the United States Battle-Ship Indiana.

PRELIMINARY TRIAL YESTERDAY

Everyone Was Well Pleased With the Behavior of the Ship and Her Machinery Worked Perfectly.

BREAKWATER, Del., March 7 .- The battle-ship Indiana, which left Cramps' shipyard in Philadelphia yesterday morning, dropped anchor off the breakwater late this afternoon after a most successful preliminary trip. She will be back at her dock in Philadelphia tomorrow afternoon. Early this morning the ship, which arrived here last night, put to sea and was given a hard run of four hours over the course usually chosen by the Cramps for the builders' trial. The course was 9 and 65-100 knots. Three trips were made over the course. The first, under a natural draft was accomplished at a speed of 14 and -10 knots; the second, under a half-forced draft, in a trifle less than 15 knots; and the third, under a forced draft, at 15 and 35-100 knots. The guaranteed speed of the Indiana is 15 knots.

The result of today's trip was so far ahead of expectations that Edwin Cramp, who has charge of the ship, gave orders this evening that she should return to the yard, instead of taking the their first trial. Everybody aboard was well pleased with the behavior of the Indiana. Her machinery works perbattleship of the world.

I ing the first Monday in March, consequently school meeting day, I wended my way to the Kingsley school house, and learned something there of more vital import to the rising generation than free trade and tariff combined; something which forced me to the conclusion that our educational system is all wrong, the standard being too high. My attention was directed to a discussion between two gentlemen, whom I understood were a director and the clerk. The subject was dissension in the community about engaging the services of a teacher who had taught successfully the three preceeding terms without any complaint being brought before the board of directors.
