PAYMENT OF TAXES.

There is a good deal of adverse comment relative to the intention of the sheriff to enforce tax collections this year of all others, when money is so terribly close. The sheriff has started in upon an odious duty, of course, but with the best of intentions, and knowing full well that he is about to make himself more or less unpopular, to the corresponding gain of the county.

For centuries wise men have realized the immense power of moving water. Could the power of the ocean waves and of falling streams be harnessed and sent over the land to furnish light, heat and motive power, the world would be made better and happier at once.

It has been discovered that the three members of the tariff committee who had direct charge of the Wilson tariff bill are all ex-confederates—Jones, Mills and Vest. While it is possible for this fact to be an accident, yet there is a sinister meaning in it.

O. W. O. Hardman, Sheriff of Tyrel Co., W. Va., appreciates a good thing and does not hesitate to say so. He was almost prostrated with a cold when he procured a bottle of Chamberlain's Cough Remedy.

CORRESPONDENCE.

Neighborhood News Contributed by Local Writers.

Dufur.

Regular Correspondence. Miss Lucy Staats is very sick, and is now at Dufur under treatment for consumption.

There is no danger of drought, as prospects are fine for a good crop of cereals as well as fruit.

Rev. Jenkins of The Dalles will preach at the U. B. church Sunday morning and evening, at the usual hours.

Wednesday Dufur was visited by the Chinook, and the snow is fast disappearing, making the roads almost impossible to travel.

The hills were dotted with buttercups, yellow lillies and other early flowers, harbingers of spring, but now are covered by the snowy mantle.

The negro minstrels of Wamic will give an entertainment here in the I. O. O. F. hall Friday evening, March 16th, to be followed by a ball. Tickets 25 cents.

Dr. Vanderpool has been confined to his house by some large carbuncles, but we see he is out for a sleigh ride, so suspect him to be better. (Too much sausage, "Doc.")

The voters of our town congregate in the drug store, where the coming election, Wilson bill, etc., are general topics for conversation, and office-seekers smile blandly on the leaders of politics.

The Delphian Literary Society will give a public entertainment Wednesday evening, March 14th, for which a good program has been prepared, consisting of essays, declamations, songs, dialogues, etc. All are invited.

Winter has returned. Monday there fell about five inches of snow, and sleighs were out once more, making the air musical with bells. The farmers were getting ready for spring work, and now this will put them back a week or so.

The Dufur school is progressing rapidly, thanks to Prof. Frazier, who spares no effort for the general good of his pupils. His night schools, which he holds twice a week, are especially beneficial to all who attend and are appreciated by the pupils and people generally.

Saturday Road Commissioner H. Pitman overlooked the fixing of the roads about town, and he did it well notwithstanding he left a pond in front of C. P. Balch's drug store, which sorely tried C. P.'s usually sweet temper. He hints of procuring a cheap boy to catch frogs for it, so as to have music in the spring time. But we hope it will be attended to.

A bevy of old and young men were busy, including T. H. Johnston, and for some reason they turned their attention to the road mostly in front of the store and up the street, which is now improved from its past condition. Monday was school meeting, at which were some lively discussions on certain points of school law. Mr. A. K. Dufur was elected director for three years and Geo. W. Johnston was re-elected school clerk by acclamation.

Some iron-clad rules were made, such as: First—No cigarette smoking allowed on the school grounds, or to and from school. Second—Pupils are not allowed to leave the school grounds during school hours without permission. These are good rules, we all think. Two or three of the anxious (?) fathers objected to the young gentlemen walking down the street with their—well, we won't say any more on the subject, but earnestly hope they will think better of the matter by this time; but an exchange of opinions sometimes results in good to the district and school.

Stockholders Meeting. Notice is hereby given that there will be an annual meeting of the stockholders of the Dalles, Portland & Astoria Navigation Company held in the Chronicle hall on Saturday, the 7th day of April, 1894, at the hour of 2 o'clock p. m., for the purpose of electing seven directors and transacting any other business that may properly come before said meeting. By order of the president.

SAM'L L. BROOKS, Secy. The Dalles, Feb. 28, 1894.

SEEDS. Alfalfa Seed, Clover Seed, Red Top Seed, Timothy Seed, Garden Seed, Hungarian Grass Seed, Orchard Grass Seed, Millet Seed, Seed Wheat, Seeds in Bulk, Seed Barley, Seed Potatoes, Seed Corn, Seed Oats.

THE MARKETS.

FRIDAY, March 9th.—Locally speaking, business during the past week has been very quiet. Bad roads and stormy weather has put a quietus on all branches of trade. Dealers are beginning to replenish their depleted stock, which is late for the season of the year.

Groceries and provisions are in good supply. Sugar is firm, with a tendency to advance in price. Coffee, while old quotations are maintained for the present, has a downward tendency on a weak market.

Eggs—Further increase in receipts of ranch eggs now coming to hand are noted, and though demand has been stimulated by a further decline of two cents in values, offerings are still liberal and the market favors buyers.

Fresh meats are ruling steady and a trifle quiet at former range of values. Live stock is more plentiful.

Poultry—Supplies of desirable stocks are not coming to hand in quantities fully sufficient for current requirements, and values are maintained firm.

Apples—Stocks of apples are growing infinitesimally less as the weeks advance, and there is practically nothing offering in the city in the way of first-class fruit. Values have gone up in proportion, as supplies decreased, and it is now practically impossible to touch even the poorest qualities of cooking at less than 50 cents per box.

There is no change in the potato market.

The grain markets present no new phases; are very quiet, and consequently the movement is light. English markets are reported firm, but not active.

The wool situation has not changed for the better. The senate finance committee, in reporting on changes made in the Wilson tariff bill, left wool on the free list.

AN AGE OF WONDERS.

Remarkable Things That Show How Great This Country Is.

This is a wonderful age we are living in—a wonderful age, and this is a wonderful country. It is doubtful if any of the effete old world dynasties can produce such things, bordering on the miraculous, as are becoming almost everyday occurrences in this land of the free, says the Erie Herald.

A few days ago the press dispatches announced that some fellow out in Missouri had discovered coal. There was nothing so remarkable about the fact that coal had been discovered. The remarkable feature of the case is that this particular quality of coal emits no smoke when burned.

But this truly strange case is perhaps outdone by one which is alleged to have recently occurred in the salubrious climate of California. The veracious chronicler states that some thirty years ago one John Bahler, then residing in Wisconsin, lost his eyesight and subsequently had both eyeballs taken out, the end of the optic nerve being left as a stub in each case.

Since that time his sight has gradually improved, until now he can shoot a rifle with considerable accuracy, and hopes soon to be able to see how the foreigners pay the tariff tax.

Indeed, this is a great country, and isn't anywhere near developed yet. Carp and hogs and steel chickens and green corn right here in Pennsylvania, but the boundless west contains still greater possibilities than the east, and if old Europe can produce any such wonders or special newspaper correspondents let her trot 'em out.

STATE OF OHIO, CITY OF TOLEDO, ss.

FRANK J. CHENEY makes oath that he is the senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, county and state aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of HALL'S CATARRH CURE.

Mrs. Phillips has just built a new green-house, much larger than her old one, and has bought all of the pots and plants of Mr. Varney, and is now well prepared to furnish both cut flowers and plants.

Look Over Your County Warrants. All county warrants registered prior to January 16th, 1890, will be paid if presented at my office, corner of Third and Washington streets. Interest ceases on and after this date.

Wm. MICHELL, Treasurer Wasco County, October 21st, 1893.

I hereby announce myself as a candidate for the office of county clerk, subject to the decision of the republican county convention. I. I. BURGET.

There are too many signs, "Closed at 4 o'clock," and "Closed on Saturdays," etc. This country needs to wake up from such slothfulness and push ahead. The calamity howlers have had their way too long depressing business when there should be prosperity. Let there be honesty and faithfulness in business, and confidence will soon be restored without regard to the McKinley bill, the Wilson bill, the silver bill, or anything else bill-ious which is readily dissipated by Simmons Liver Regulator.

La Grippe.

During the prevalence of the grippe the past seasons it was a noticeable fact that those who depended upon Dr. King's New Discovery, not only had a speedy recovery, but escaped all of the troublesome after effects of the malady. This remedy seems to have a peculiar power in effecting rapid cures not only in cases of la grippe, but in all diseases of throat, chest and lungs, and has cured cases of asthma and hay fever of long standing. Try it and be convinced. It won't disappoint. Free trial bottles at Snipes & Kinersly's drug store.

Taken Up.

THE DALLES

Wasco County, Oregon. The Gate City of the Inland Empire is situated at the head of navigation on the Middle Columbia, and is a thriving, prosperous city.

ITS TERRITORY. It is the supply city for an extensive and rich agricultural and grazing country, its trade reaching as far south as Summer Lake, a distance of over two hundred miles.

The Largest Wool Market. The rich grazing country along the eastern slope of the Cascades furnishes pasture for thousands of sheep, the wool from which finds market here. The Dalles is the largest original wool shipping point in America, about 5,000,000 pounds being shipped last year.

ITS PRODUCTS. The salmon fisheries are the finest on the Columbia, yielding this year a revenue of thousands of dollars, which will be more than doubled in the near future. The products of the beautiful Klickitat valley find market here, and the country south and east has this year filled the warehouses, and all available storage places to overflowing with their products.

ITS WEALTH. It is the richest city of its size on the coast and its money is scattered over and is being used to develop more farming country than is tributary to any other city in Eastern Oregon. Its situation is unsurpassed. Its climate delightful. Its possibilities incalculable. Its resources unlimited. And on these other stones she stands.
