Congressman Wilson is improving. So is his bill.

The next campaign will not be a "campaign of education." The people are getting their education this year.

Mr. Cleveland and Mr. Gresham take a duck-hunting trip on the government vessel—at public expense. About half the people are at the same time hunting—for work at any price.

Multnomah county has organized sixty-nine republican clubs. This augurs well for success, and is a precedent which should be adopted in every county in the state.

The democratic and republican parties were slapped about equally hard at the Pendleton people's party convention. When they commence talking fusion with the democrats, wonder how they will reconcile their talk.

The populists have got in and gone to work in season and out of season. The convention held in Pendleton last Saturday nominated a full legislative and county ticket on a scorching platform, and endorsed Sylvester Pennoyer for United States senator and Nathan Pierce of Milton for governor.

Lord Roseberry, England's new premier, is 47 years of age, and is immensely rich, having married the only child of Baron Rothschild, who brought him a splendid dowry, and was a crack football player in his youthful days, but he has never developed the ability that would indicate he is capable of stepping into the shoes of the man he succeeds.

When Galusha A. Grow took his seat in congress the other day, he found only one man in either the senate or house who was in congress when Mr. Grow first took his seat in 1851—Senator Harris, who was then a member of the house. Holman of Indiana and Sickles of New York entered congress during Mr. Grow's previous service.—Telegram.

W. C. P. Breckinridge ought to be expelled from congress. He is utterly unfit to hold a seat among decent and honorable men. The testimony showing his conduct toward Miss Pollard—testimony of a character that cannot be impeached—is the blackest record proven against any public man within many years. A resolution for his expulsion from the house ought to pass without a dissenting vote. It is incredible that the people of his district should ever think of returning him to congress—Oregonian.

This anecdote of the late General Early is told in Southern journals: "Captain Surrey" had been dispatched as an orderly from General Jackson, ordering General Early to hold a certain position at all hazards. General Early, who was not then the polished and courtly gentleman he afterward became, looked at the position referred to and said: "I'll be— if it can be done." "Then," said Captain Surrey, "I am to report to General Jackson that this order cannot be obeyed?" "Oh, no," said the general; "by saying it can't be done I don't mean to say I am't going to hold it. Not by a h—ll of a sight."

Hon. Thos. B. Reed, in a recent speech, gives his reasons why times are hard. He said: "There is no way to put money in circulation except through wages paid. Issuing government bonds doesn't make circulation. The laborers must earn it and spend it, and that will make it flush. The statisticians say the 20,000,000 laboring people in this country earn when they are at work from \$30,000,000 to \$40,000,000 a day. The Wilson tariff bill will cut these wages from 10 to 25 per cent. The 10 per cent cut on \$4,000,000 a day to laboring men, or \$1,200,000,000 in a year. A 25 per cent cut in wages will take \$3,000,000,000 out of circulation. One-third of our labor is idle now. The idleness is costing us probably \$10,000,000 a day. I do not wonder that the times are hard and that money is tight. There is money enough in the banks. They are glutted, but labor isn't getting it. It will stay there till labor gets it out."

WAPINITIA.

Hurrah for the glorious chinook. A great deal of rain and some little snow.

Fall grain looks well. Wapinitia is hard to beat, you bet.

The street railway companies of Wapinitia have reduced wages.

Oh my, but Vene Lewis feels frisky. Twin boys at his house Sunday.

There has been about eight inches of snow here, but stock are doing finely.

A grand ball was lately given at the Farris hall. About fifty couple were present.

Mr. D. Boynton is visiting friends here and don't you forget it, Dump is a judge of pie and pretty girls.

John C. says he now weighs 220 pounds, thanks to Dr. Anderson. But Dr. Evick is a dead shot for the grip.

By the way politics, as well as sheep ticks, are making their appearance. The Warm Springs, Wapinitia and Wamic slate is full and not enough offices to go around. The demijohns (I mean democrats) will get their paint on soon, then listen for the war whoop.

There was a social hop at S. E. Ferris' residence Tuesday evening. Dancing was the order of the evening. About 11 o'clock the ladies, having brought their baskets filled with the good things which they so well know how to prepare, spread a bountiful lunch. Then dancing again until old Sol showed himself in the ineffable glory of a spring morning.

Say now, don't you think so much ado about sheep is getting wearisome? Give the farmers and other stock raisers a chance to kick a little. Let's do away with electricity. It kills the horse market. Let's harvest our grain by hand. Improved machinery does away with laborers. Dispense with railroads, so as to give the freight teams a chance.

In fact, retrograde about one hundred years and have good times. This country was a prosperous country before sheep came and destroyed the range, driving every other class of stock out of the country. Oh ye gods, just live in a sheep country and try to be a Christian.

If you don't fail you are sure of heaven. As to their help it has been a rule with shepherds to hire foreigners for years and just as cheap as they could be got. Now don't you think instead of perverting the good old scriptures into political lore and crying over a class of stock raisers who don't need any sympathy, 'twould be better to tell the people how Wasco county comes to be such an expensive government to maintain?

MITCHELL.

Chinooking since 10 o'clock and snow going very fast.

This morning broke with heavy wind and snow, but the result is as above stated.

On the 2d snow fell to the depth of four inches low on the hills, but at the foot of the mountains eight or ten inches fell.

Hamlet is still at large. He makes a circuit to the sheep camps when he gets in need of provisions and helps himself, but keeps well out of sight. He moves from place to place along the John Day rimrocks.

Last Friday night Mr. Provens and wife were surprised, I hope happily, by a bevy of merry-makers, intent on a little hop for "health's sake," and it was not until daylight that they reluctantly went their way homeward.

Last week Wade Shrum, while repairing a revolver, accidentally let it go off, shooting his wife through the calf of the leg, inflicting a slight wound, but enough to give him a terrible fright and teach him a very valuable lesson.

By letter we learn that the snow at Horseshoe, in the Beaver creek country, is eight feet deep, and in our mountains I learn it is from three to five feet deep. Since the 1st of March snow has fallen about two feet in the mountains.

Mothers, and especially nursing mothers, need the strengthening support and help that comes with Dr. Pierce's Favorite Prescription. It lessens the pains and burdens of child-bearing, insures healthy, vigorous offspring and promotes an abundant secretion of nourishment on the part of the mother. It is an invigorating tonic, made especially for women, perfectly harmless in any condition of the female system, as it regulates and promotes all the natural functions and never conflicts with them.

The "Prescription" builds up, strengthens, and cures. In all the chronic weaknesses and disorders that afflict women, it is guaranteed to benefit or cure or the money is refunded.

For every case of Catarrh which they cannot cure, the proprietors of Dr. Sage's Catarrh Remedy agree to pay \$500 in cash. You're cured by its mild, soothing, cleansing and healing properties, or you're paid.

City Warrants. All those holding city warrants of date prior to September 1st, 1891, will be paid on presentation at my office. Interest on same ceases after this date.

Marriage in England.

Some curious marriage statistics of England and Wales have recently been made public. Taking all persons above 15 years of age, there are 8,716,365 unmarried males, 4,851,548 married males, and 484,990 widowers, against 8,908,045 unmarried females, 4,916,649 married females, and 1,124,310 widows. English scientists have these rather puzzling questions to answer: Why does the number of widows so greatly exceed that of the widowers? And again, how can there be 4,916,649 married females and only 4,851,548 married males, unless some 100,000 or so persons have been guilty of bigamy?

Long Reigns.

According to the "Gotha Almanac," which has just been issued for 1894, the queen of England has reigned longer than any other ruler in the world, having ascended the throne in 1837. Next to her in point of time are Emperor Francis Joseph of Austria and Frederick, the grand duke of Baden. The monarchs who have reigned the shortest time are Prince Frederick of Waldeck and Duke Alfred of Saxe-Coburg-Gotha. The oldest monarch, according to the "Almanac," is the pope, who is more than eighty-three years of age. The grand duke of Luxembourg and the king of Denmark, respectively seventy-six and seventy-five years of age, stand next to him in this regard. Grand Duke Karl Alexander, who lives in Weimar, is fourth in point of age, and Queen Victoria, with her seventy-four years, is the fifth oldest monarch. The youngest crowned heads are the little queen of the Netherlands, who is thirteen, and the king of Spain, who is seven and a half years old.

DULL Times makes it all the more necessary to advertise. That is what the most progressive of our business men think, and these same business men are the most prosperous at all times. If you wish to reach all the people in this neighborhood you can't do better than talk to them through the columns of the DAILY CHRONICLE. It has more than double the circulation of any other paper, and advertising in it pays big.

THE DALLES

Wasco County, - - - Oregon,

The Gate City of the Inland Empire is situated at the head of navigation on the Middle Columbia, and is a thriving, prosperous city.

ITS TERRITORY. It is the supply city for an extensive and rich agricultural and grazing country, its trade reaching as far south as Summer Lake, a distance of over two hundred miles.

The Largest Wool Market. The rich grazing country along the eastern slope of the Cascades furnishes pasture for thousands of sheep, the wool from which finds market here.

The Dalles is the largest original wool shipping point in America, about 5,000,000 pounds being shipped last year.

ITS PRODUCTS. The salmon fisheries are the finest on the Columbia, yielding this year a revenue of thousands of dollars, which will be more than doubled in the near future.

The products of the beautiful Klickitat valley find market here, and the country south and east has this year filled the warehouses, and all available storage places to overflowing with their products.

ITS WEALTH. It is the richest city of its size on the coast and its money is scattered over and is being used to develop more farming country than is tributary to any other city in Eastern Oregon.

Its situation is unsurpassed. Its climate delightful. Its possibilities incalculable. Its resources unlimited. And on these corner-stones she stands.

The Dalles Daily and Weekly Chronicle.

THE CHRONICLE was established for the express purpose of faithfully representing The Dalles and the surrounding country, and the satisfying effect of its mission is everywhere apparent. It now leads all other publications in Wasco, Sherman, Gilliam, a large part of Crook, Morrow and Grant counties, as well as Klickitat and other regions north of The Dalles, hence it is the best medium for advertisers in the Inland Empire. The DAILY CHRONICLE is published every evening in the week Sundays excepted at \$6.00 per annum. The WEEKLY CHRONICLE on Fridays of each week at \$1.50 per annum.
