CITY COUNCIL.

The Arc Light Question Discussed and an Agreement Reached.

A special meeting of the city council was held last night to consider the arc light question and other matters. There were present Acting-Mayor Eshelman and Councilmen Butts, Lauer, Crowe, Joles and Hudson.

The matter of the arc lights was considered with the arrival of Mr. Virgil Bolton, manager for the company. He stated that a committee of councilmen had submitted a proposition to him of \$11 per light. This he was not inclined to concede because the margin of profit would be very small. It costs about \$9 to maintain each light, figuring upon a basis of regular expenditures, and when other details of expenses, constantly occurring, are considered, he could not figure upon a margin of \$2, which is a very small one, and stated that at \$11 there would be nothing in it for the company. He narrated that Mr. Roberts had tried to lessen the rates below \$12 some years ago and failed to make it a success. The last light placed by the company cost \$200 to put in and it would be a long time before the company got the mere cost back. He recognized, however, that times were hard and the city badly in debt, and was willing to make as fair a concession as he could. For this purpose he offered to furnish the lights for \$12 each, in any number required, provided the company could have a two years' contract from the city. Mr. Hudson thought the proposition a very fair one and moved for its acceptance. Mr. Butts wanted the question postponed until the regular meeting, but was opposed by Crowe and Hudson and the motion carried. The recorder was next instructed to draw up a contract with the company and present it at next meeting for approval.

Mr. Crandall submitted his estimates on the cost of repairing the jail. The improvements contemplated are very thorough. There is to be one large and two small cells, all on the south side of the hallway. Partitions to be of dressed 2x4's, spiked together. The iron door leaning to the jail yard will be closed. The water closet and wash bowl will be removed to the interior. The iron work is to be of boiler iron with half-inch holes punched through. The corridor will be 15x15 feet. The old walls are to be lined with 1 1/2-inch plank. The cost was stated to be about \$500. The report was accepted, and the recorder instructed to advertise for bids.

Mr. Butts then moved that bids be asked to lay 212 feet of sidewalk in the Union street cut, and recorder was instructed to so advertise. Mr. Joles wanted the sidewalk extended down to Fifth street, the city to bear all the expense, but Mr. Butts would not listen to it as part of his motion, saying it would delay the other. He believed there was a way of condemning bad sidewalks and fencing them out, but Mr. Joles' only reply was an ominous shake of the head. He has been through the sidewalk ordeal before.

Mr. Crandall then read a report concerning the "Elton" grade from Fourth street to the city limits, stating the number of cubic yards of cuts and fills that would have to be made, the grades, etc., but not the probable cost. The steepest grade was 12 1/4 per cent, or one inclined the same as the steepest part in the Union street cut. After considerable argument the recorder was instructed to

advertise said proposed improvement for fourteen days, the property-owners to be given to understand they were to pay for it entirely, the city to pay only for surveying.

The Lincoln street sewer ordinance was brought up in a new way by Mr. Hudson, stating that the assessment of Capt. McNulty for the same was illegal, as he would not be benefited thereby. This made a complicated state of affairs, since the ordinance has already been passed twice, the assessment made and the property owners notified, and the question was referred to a committee of the whole at next regular meeting.

The next question taken up was the dog ordinance. After some discussion, the recorder was instructed to notify owners of dogs that the taxes on them must be paid by the 12th of May, or the dogs would be impounded. Adjourned.

The Lecture Tonight.

Mr. Lydell Baker will address the citizens of The Dalles at the court house at 8 o'clock this evening. It is not a political lecture, and is purely historical. No admission fee is charged, and it is given merely out of courtesy to the many friends in The Dalles, who know the honorable gentleman and for whom he has a strong regard. This lecture is very fine and has been delivered but once before in Oregon. Those who know of the lecture and do not attend will regret it tomorrow. No cost is attached, Mr. Baker stating that railway transportation costs him nothing and he would rather lecture than not. The kindly spirit should be appreciated by a full house. The CHRONICLE is assured he has no ends to serve, other than a pardonable ambition to give the people the benefit of a good thing at his own hands.

Diphtheria in Portland.

The public schools of Holliday Addition, Portland, have been closed owing to diphtheria, and charges have been preferred against a physician there for reporting cases of diphtheria as tonsillitis. The Oregonian undoubtedly refers to Mr. E. B. McFarland in the following: "One case was that of a child who died, and the death certificate, signed by the attending physician and filed at the health office, alleged that death was due to tonsillitis. The body was shipped to The Dalles for burial, and the funeral was a public one. Dr. Wheeler visited another child in the same family, alleged to be suffering from tonsillitis, and found a serious case of diphtheria. He at once had the patient isolated, and took every precaution to prevent spread of the disease."

DIED.

In Spokane, Wash., March 16th, Albert, son of Thomas and Mary Lawler, aged 17 months.

Surprised.

Some of the young friends of Mrs. C. L. Phillips found out yesterday was her birthday, and, knowing where they are always welcome and have a jolly time, determined to surprise her. Accordingly last evening, while she and Mr. Phillips were enjoying a quiet chat, they heard the sound of voices coming nearer, which soon changed into a serenade. 'Twas not long before they were invited in and had possession of the house, which stands for a good time were such a jolly crowd is concerned. Mrs. Phillips declared that, like all men, C. L. "could not keep a secret," and by his actions she imagined something was going on, while he still insists she was surprised. But there's nothing so surprising as a genuine surprise.

The Independent Workers.

Probably the largest membership of any lodge of any order instituted in The Dalles was the new I. O. G. T. lodge of the Independent Workers which was duly instituted by State Deputy R. L. McIntosh of Frazier Lodge at 3-Mile. He was assisted in this work by representatives from Frazier and The Dalles lodges.

Yes, an enthusiastic lodge of sixty-eight members was instituted to do valiant work along the temperance line. The following excellent list of officers were elected to serve for the remainder of the term.

Thomas Joles, Lodge Deputy; C. H. Brown, Chief Templar; Mrs. C. Frazier, Vice Templar; Miss Marion Kennedy, Chaplain; A. A. Urquhart, Secretary; E. Korter, F. Secretary; B. G. Wagle, Treas.; Dave Lemmerson, Marshal; B. C. Millard, Guard; George Mann, Sentinel.

The members are delighted with this grand showing and we received many congratulations and best wishes for our success. Many more names are proposed and before the flowers bloom in May there is little doubt but the membership will have reached one hundred.

The installation of officers was deferred for one week owing to the lateness of the hour.

Come and join us and spend a pleasant evening once a week.

KNOW NOTHING.

A Queenly Head.

Can never rest on a body frail from disease any more than the lovely lily can grow in the sterile soil. When Consumption fastens its hold upon a victim, the whole physical structure commences its decay. At such a period, before the disease is too far advanced, Dr. Pierce's Golden Medical Discovery will arrest and cure it. So certain is this, that an offer is made to refund the money paid for it when a failure can be found under the condition of a fair trial.
