

SOMETHING UNUSUAL, as a medicine, is Dr. Pierce's Golden Medical Discovery. And, because of that, there's something unusual the way of selling it. Where in every other medicine of its kind only promises, this is guaranteed. If it ever fails to benefit or cure, you have your money back.

It's the only guaranteed remedy for every disease caused by a disordered liver or impure blood. Dyspepsia, Biliousness, the most stubborn Skin, Scalp and Scrofulous affections, even Consumption (or Lung-scrofula) in its earliest stages, all are cured by it.

It purifies and enriches the blood, rouses every organ into healthful action, and restores strength and vigor. In building up both flesh and strength of pale, puny, Scrofu-lous children, or to invigorate and brace up the system after "Grippe," pneumonia, fevers, and other prostrating acute diseases, nothing can equal the "Discovery."

You pay only for the good you get.

FROM FALM TO BARROOM. The Journey and Gradual Increase in Price of a Bushel of Corn.

Illinois is the great corn state and Peoria is the center of its most prolific belt. Peorla is a great grain market and especially for corn. Vast quantities of the golden grain are shipped into that city for general distribution and loaded into its mammoth elevators by the hundreds of thousands of bushels. A great deal of corn is shipped from Peoria, but a vast quantity is used there. There is more corn used in Peoria than in any three cities in the union, even though these cities be New York, Philadelphia and Chicago. The reason is obvious, says the Peoria Herald. Peoria is not only the center of the great distilling interests, but there are located two of the greatest sugar houses in the country. Down the capacious maws of the great distilleries are poured every day 20,000 bushels of corn. The sugar houses use from 5,000 to 10,000 bushels more each day in the year. To supply the constant demand the product of 1,000 acres of rich corn lands is daily shipped into Peoria for home consumption. Aside from these there are fully 5,000 9,000,000 bushels of corn are used in that city annually for manufacturing and other purposes. The greater part of this is manufactured into spirits.

It is wonderful to consider the changes made by a bushel of corn in its transition from the owner's crib to the glass of the consumer. These changes are various and far-reaching. They are other than financial. But consider simply the mere element of value. Corn was sold the other day in Peoria for 35 cents per bushel. It came all the way from Nebraska, perhaps, where it brought but 25 cents. In transit two dealers received a commission of 1 cent each. The railroad company received 8 cents for its freight and other charges. The distiller paid 35 cents. He took and converted it into four and a half gallons of finished spirits and fed one of his steers on the refuse. The distiller sold the spirits to a local dealer for \$5.12, of which Uncle Sam received \$4.05 as a tax on the spir-72 cents after he had paid 35 cents for his corn. The spirits, after being well watered and compounded, are sold at a profit by the compounder and rectifier to the dealer, who sells out at 15 cents a drink. The four and one-half gallons have swelled to nine, and before it gets through it swells many a head and also the revenue of the city where its lines may be cast. So that, in its travels from the Nebraska crib to the Chicago saloon, that bushel of corn has increased in value from 25 cents to many dollars, and with its constant running mates has furnished employment to at least to fifty men or more and has contributed to both the national and municipal revenues. Such magic there is in the juice of the golden corn. Of the juice of that one bushel of corn, at least 100 persons, have imbibed, from the pious old lady who took it for "la grippe" to the jolly old

To resume, that bushel of corn was thus scattered on the highways of business and pleasure: Farmer, 25 cents; railroads, 88 cents; commission men, 3 cents; distillers, 72 cents, 72 cents; feeder, 10 cents; Uncle Sam, \$4.05; compounder and rectifier, 25 cents; retail dealer, \$10; city, \$3. The consumer got whateve spirits, each according to his strength gists. or weakness.

The fight was in a public place and in a pit that was surrounded by an iron grating. There was a big crowd out to see the fight. Of course, everybody thought the dog would chew up the monkey. After a few minutes, however, the audience was surprised at the sagacity displayed by the monkey. The bulldog would make a rush at the monkey, and the latter would jump aside and allow the bulld og to hit his head against the iron gratings. This was kept up for twenty minutes or more, and then the dog began to get tired. The monkey began to fight. He would let the dog make a rush and then jump on the dog's back and strike him several times with the baton. This was kept up for an hour or more, and finally the dog fell on the floor completely exhausted, and the monkey actually pounded him to death. The monkey would strike the dog several blows and then place his car to the canine to see if he still breathed.

Monkey Versus Buildog

A Lawyer's Self-Possession.

It is told of Henry W. Paine, the Boston lawyer, who recently died in that city and who more than once refused a seat on the Massachusetts supreme court bench, that while he wasarguing a case one day before Chief Justice Grav the latter interrupted the course of the argument with the impatient remark: "Mr. Paine, you know that is not law." The nature and manner of the interruption were of a kind to throw even the most self-possessed advocate off his balance. Mr. Paine, however, without any outward manifestation of annoyance or embarrassment, replied with simple dignity: "It was law until your honor spoke," proceeded with his argument. and

Ten days loss of time on account of sickness and a doctor bill to pay, is anything but pleasant for a man of a family to contemplate, whether he is a laborer, mechanic, merchant or publisher. Jas. O. Jones, publisher of the Leader, Mexia, Texas, was sick in bed for ten days with the grip during its prevalence is intended to encourage boat designa year or two ago. Later in the season he had a second attack. He says: "In its, leaving a balance to the distiller of the latter case I used Chamberlain's Cough Remedy with considersible success, I think, only being in bed a little over two days. The second attack I am satisfied would have been equally as bad as the first but for the use of the remedy." It should be borne in mind that the grip is much the same as a very severe cold and requires precisely the same treatment. When you wish to cure a cold quickly and effectually give this remedy a trial. 25 and 50 cent bottles for sale regular price of the WEEKLY OBEGONIAN by Blakeley & Houghton, druggists.

> DARK silk dresses, strange to say, are worn by young girls of school age at evening entertainments. Many lovely colors are chosen, such as violet, pansy, dark blue, all shades of red and dark green.

The experience of Geo. A. Apgar, of German Valley, N. J., is well worth remembering. He was troubled with chronic diarrhoea and doctored for five months and was treated by four different doctors without benefit. He then began using Chamberlain's Colic, Cholera and Diarrhœa Remedy, of which one bottle effected a complete cure. It is for sale by Blakeley & Houghton, drug

Pictured in Words.

The Bronx Valley, for many miles of its course, is a marvel of fog and cloud effects these winter mornings. When neighboring hills have long emerged into the clear sunlight the depths of the valley just along the stream are still clad in thick clouds, mixed with fog, and with smoke and steam from the hundreds of railway trains that ceaselessly speed up and down the valley. The deepest parts of the val-ley, as seen from near hillsides, seem D3. SANDEN'S ELECTRIC BELT level full with an almost snow-white fluid mist, and this trails in long strata across the face of wooded hillsides, with rifts here and there that give glimpses of bareheaded tree trunks. A few miles southward, where the valley broods in the cast, Bronx Park looms, fairy-like, through thinning mist, and the sun floats, round and pale, shorn of its keener rays, while, just below, the pieturesque grounds and buildings of St. John's college at Fordham take on a quaint and antique air that doubles their charm.

Beware of Ointments for Catarrh that Contain Mercury,

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten-fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufac-tured by F. J. Cheney & Co., Toledo, O., contains no mercary, and is taken in-ternally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. per bottle.

TRANSATLANTIC LINERS.

THE total value of the war material of the French army amounts to nearly five hundred million dollars. A YACHTING exhibition is to be held

at Norwichmext March. The exhibition ing, sailing and aquatic sports, many prizes being offered.

Mrs. Emily Thorne, who resides at Toledo, Washington, says she has never been able to procure any medicine for rheumatism that relieves the pain so quickly and effectually as Chamberlain's Pain Balm and that she has also used it for lame back with great success. COINS FROM PRIVATE MINTS. They Were Issued Up .o the Time of the

Civil War.

The constitution of the United States times.-Good Housekeeping. provides that no state shall coin money: but it seems that individuals might do so, up till about the time of the late eivil war. Of course' it has always been against the law to counterfeit or imitate the coinage of the United States, and so, necessarily, a coin issued by a private mint would have to be so distinctive in shape or markings

Mormons of Utah at about the same time, and the same thing had been done by parties in Georgia and North Carolina

Probably the latest of these private ver in the early sixties. It is said that cumference of 1,329,742,000.000 miles. the coinage of this establishment be ing brought to the attention of Secre tary Chase, that eminent financier was general of the United States declared they had the right to do so.

as money.

A Funny Superstition.

There are people who have a distinct antipathy to the screech owl and cannot listen to a single burst of its hilarity without shuddering. The. screech owl is supposed by the negroes ou southern plantations to be in dicommunication with all the "ghosts" and "giants" of the forests. He plays a great part in the more weird folklore story of the darkys. A funny superstition in regard to the screech owl is that if you will take your shoe or slipper off your left foot tively cures piles, or no pay required the first time you hear an owl laugh It is guaranteed to give perfect satisfacand turn the shoe sole upward on the tion, or money refunded. Price 25 cents THE CHRONICLE JOB floor and place your "stocking foot" on the bottom of the shoe's sole the owl will stop laughing and fly for ten miles without rest.
