The crime of rape is one of the most revolting with which civilization has to deal, and it is well that it is considered second in the category of offenses against nature. The crime committed at Wamic a few days ago is particularly distressing, robbing by force the virtue of a little girl only 13 years old. No lawful punishment is too severe for the brute who is the cause of this deed.

The Union Pacific are paying their tracklayers only \$1.30 per day. In the case of married men with any considermaintain them. The work necessitates being absent from home and the payment of \$18 a month for board. Subtracting the hospital fee, extorted from them, this leaves \$15.40 to pay rent with and maintain the family at home, which cannot be done, notwithstanding the democratic theory that a reduction of wages is always accompanied by a reduction of the necessaries of life. If Americans are reduced to working for dess than it takes to maintain them, their condition is surely not so hopeful as the slave before 1860, who received a good supply of wholesome food, had his bodily wants supplied, and his health looked after, if only from a selfish standpoint. In case of sickness or death, \$15.40 to pay a doctor or buy a coffin, and charity must be called into requisietion. In this connection we observe that the officers of the road still receive princely salaries, and that the receivers of the road were greatly put out because they could not be paid \$10,000 a month.

What an administration!
