

THE WEAKEST SPOT your whole system, perhaps, is the liver. If that doesn't do its work of purifying the blood, more three months Mr. Hoffner was in the troubles come from it than you can remember.

Dr. Pierce's Golden Medical Discovery acts upon this weak spot as nothing else can. It rouses it up to healthy, natural action. By thoroughly purifying the blood, it reaches, builds up, and invigorates every part of the system.

For all diseases that depend on the liver or the blood-Dyspepsia, Indigestion, Biliousness ; every form ment has been doing all it could to supof Scrofula, even Consumption (or Lang-scrofula) in its earlier stages; and the most stubborn Skin and Scalp Diseases, the "Discovery" is the only remedy so unfailing and effective that it can be guaranteed.

If it doesn't benefit or cure, you have your money back.

On these terms, it's an insult to your intelligence to have something else offered as " just as good."

Dr. Sage's Catarrh Remedy by its mild, soothing, cleansing and healing properties, perfectly and permanently cures Catarrh in the Head.

Republican County Convention.

A Republican Convention for the County of Wasco, State of Oregon is called to meet in Dalles City, in said county, on Wednesday, April 4th, 1803 at 10 o'clock A. M., for the purpose of mominating candidates for the following county effects: One County Commissioner, County Cherk, County Sheriff, County Treasurer, County Carek, County School Superintendent, County Carek, County School Superintendent, County Coroner and county Surveyor; and also precinct officers for the several precincts, and eight dele-such convention. The convention will consist of G delegates chosen by the several precincts, and the several precincts of the county will be entitled to representation in said convention as follows:

KILLED BY OPIUM.

Islands of the Pacific Depopulated by the Drug. The French Government First Intro

duced the Evil and Is Now Vainly Trying to Stem Its Terrihle Ravages.

W. Hoffner, for two years manager of the Societe Commerciale, which owns large stores on the Marquesas and Dominique islands, recently visited San Francisco. Every two or habit of cruising in a boat around these islands, inaking numerous landings. This has made him exceedingly familiar with the islands and their inhabitants. He says that the natives are dying off very rapidly by reason of the use of opium, and that in a short time there will be none left. The past year has made fearful inroads on them.

"The deaths have been so frequent," said Mr. Hoffner to a Chronicle reporter, "that lately the French governpress the opium traffic, but with meager success. It hinders it in some ways, but in the main it is carried on as before. The French government introduced opium into the islands about twenty years ago, and now a vain effort is being made to stamp out the evil. It is, however, too late to remedy the wrong. The natives are dying off like flies. In ten years, if the present rate of mortality keeps up, there will not be one of them left. The last few years have been especially severe and made terrible inroads on the population. Where the natives cannot get opium

to satisfy their cravings they substitute bitters has gained rapidly in popular a brandy obtained from the cocoanut favor, until now it is clearly in the lead tree, which is even worse than the among pure medicinal tonics and alterproduct of the poppy juice. The liquor is nothing in fact but the atives-containing nothing which permits its use as a beverage or intoxicant, natural sap of the cocoanut tree. The islanders bore holes in the tree and it is recognized as the best and purest the sap almost immediately begins to medicine for all ailments of stomach, run. This process kills the tree, but 'liver or kidneys. It will cure sick head-they do not care for that. The liquor ache, indigestion, constipation and drive is stronger than opinm, and I have maleria from the system. Satisfaction seen the poor natives drunk on it and lying about like dead men for three or four days. They do not smoke the opium, but eat it, and in enormous per bottle. Sold by Snipes & Kinersly. quantities. They eat so much of it and have such abnormal cravings for it to the exclusion of almost every other desire that they do not buy the amount of general merchandise they ordinarily would. As a result business is bad in the islands. Trade, outside day and locked up until Monday morn-of opium, has fallen off a great deal ing, when he is again delivered over to and the people seem to have lost the energy and desire to advance that they once had. It is so quiet there now that I think I shall return to Chili, where I was before. When the native population is wiped out altogether, as now seems to be its fate, the islands will be an excellent field for immigra-tion. I am not sure that at present whole system when entering it through the mucous surfaces. Such articles should never be used except on pre-

the French government would encourage emigration."

age enhigration." Mr. Hoffner says there are now very few Americans on the islands. A Hopeless Case. Robert Collyer tells the story of a little- girl with a vivid imagination which constantly led her into amazing extravagances regarding things which she claimed to have seen. One day she claimed to have seen. One day, after an extraordinary exhibition of her inventive powers, her mother ex-claimed in despair: "O, my dear! my dear! my dear! Don't you know that dear! my dear! Don't you know that Ananias and Sapphira fell down dead on account of the lies they told? Don't you remember that terrible story?" "O. yes," responded the child, story?" "O. yes," responded the child, unabashed. "I saw them carried in after they fell down dead!"

SOME FACTS ABOUT HOSE. It Sometimes Causes Nausea to People with Delicate Noses. The Different Kinds That Are Required

EFFECT OF AIR IN CAVES.

In his account of the visit to the

Mammoth cave in Kentucky, Dr. Hovey

describes the peculiar physiological

effects experienced on emerging from

that locality-the sense of smell being intensified to such an extraordinary

degree that most common objects, such

as trees, plants, animals and even peo-

ple, had strong individual odors, most-

ly unpleasant, and some visitors are

known to suffer from nausea and head-

aches by reason of a too sudden change

from the remarkably pure air of the cave to that of the outside world. Ac-

cording to Dr. Horey's theory, this in-

tensification of olfactory perceptions is due to the rarity of olfactory stim-

uli in the cave, while on emergence, in

keeping with a physiological law, the

perceptive powers for these particular

stimuli, having rested, are intensified,

so that odors too delicate to make an

impression under ordinary circum-

stances are powerfully felt-by the

constant repetition of the ordinary

olfactory stimuli, this effect passing

off, so that soon only the stronger

odors are registered in consciousness;

that is, consciousness is mainly con-

cerned with the registration of the

contrast between the stimulus of the

moment and a background of confused

and undifferentiated impressions; and though, ordinarily, sensations are in-

creased by more intense stimulation,

they may also be increased-as in the

illustration just given-by varying the

background so as to bring ordinary

for Various Purposes. Rubber goods manufacturers generally make over a score of different grades of hose, says Hardware, some cheap, and which will satisfy certain needs, while others are more expen sive, and are really required for the purposes intended. It is not necessary, of course, to have a line of air-hose for use in the garden, and vice versa, the article for domestic use would be of little value elsewhere. A conducting hose of two-ply will answer every pur pose where only a slight pressure is used; but lift that to seventy-five pounds per square inch, and three-ply is at once demanded. Then the engine hose must be four, five and six ply, and; of course, much more expensive. Then some grades are perfected by the use of superior stock, both in rubber and duck. Florists require a heavy hose, as well as do brewers, tanners and those who force oil through it. An eight-ply is frequently used. For air drills, great care is used in both duck and rubber, and canvas, wire or marline is wrapped around this variety. For air brakes the genius of the rubber trade has been at work for years, and when it is understood that railway trains are lengthened from year to year, the conclusion can readily be reached that there is room yet at the top for this, an improvement in the quality that gives strength. In suctions there are many varieties used for fire, wrecking, dredg-ing sand, etc. Some of these are large enough in circumference to allow the crawling through of a fullsized man.

Never Fails.

No instauce of a failure on record when Simmons Liver Regulator has been properly taken. It removes bilions secretions, cures dyspepsia, constipation and sick headache, strengthens the kidneys and gently assists Nature.

Stockholders' Meeting.

Notice is hereby given that there will be an annual meeting of the stockguaranteed with each bottle or the holders of the Dalles, Portland & Astoguaranteed with each bottle or the money will be refunded. Price only 50c. per bottle. Sold by Snipes & Kinersly. The German Wite-Bester. Gentlemen :

March 28, 1893:

Gentlemen : On arriving home last week, I found all well and anxionsly awaiting. Our little girl, eight and one-hall years old, who had wasted away to 38 pounds, is now well, strong and vigorous, and well fleshed up. S. B. Cough Cure has done its work well. Both of the children like it. Your S. B. Cough Cure has cured and kept away all hoarseness from me. So give it to every one, with greetings for all. Wishing you prosperity, we are Yours, MB. & MBS.
