BATTLE STILL RAGING

War in the Coke Regions Grows Hotter.

ELEVEN REPORTED KILLED TODAY

Bodies of Ten Hungarians Found in the Woods—A Decision of Interest to Oregon.

CONNELLSVILLE, Pa., April 5.—A battle between strikers and deputies is reported at the Valley works. Twelve men were killed and many injured.

The sheriff has notified the governor that he is unable to quell the disturbance in the coke region. He is powerless against 10,000 lawless strikers in possession of the region.

Eight Dead Bodies Found.

UNIONTOWNS, Pa., April 5.—The bodies of eight Hungarians were found in the woods near Dawson today by boys going to school. All had bullet-holes through the bodies. It is supposed they were shot yesterday afternoon by deputies, during the attack on the Bradford works. The Hill farm mines were overrun by strikers today and the workmen driven from the grounds. The works are now closed down. All roads leading to the Moorwood and Alice mines are guarded, and the strikers cannot reach them except by way of the Mount Pleasant road, on which the famous battle of 1891 was fought and seven strikers killed. A mob is marching to Mount Pleasant.

Yesterday's tragic events had a sobering effect on the strikers, and a repetition of bloodletting is improbable. The bodies of two more strikers were found in the woods, making 10. The rioters at Scottdale are subdued by the arrest of President Davis. At 12:30 today District Attorney Jeffreys laid information against Secretary Darby, of the association, on a charge of murder. Darby was at the time attempting to get bail for Davis.

In the Coke Region.

SCOTSDALE, Pa., April 5.—The entire coke region is greatly excited, and fears of more bloodshed and destruction of property are entertained. Armed bodies of strikers are assembling to march on the works in operation. Workmen wish to continue, but are afraid. Sheriff Wilhelm is busy arresting men concerned in the riot in which Engineer Paddock was killed, and over 100 men have been arrested. It is reported the bodies of six men were found on the road over which the mob fled. Four hundred strikers started for Mount Pleasant this morning, but the region is well guarded. A mob of 600 is marching to Mount Braddock, and another 1,000 is going to Lemont and Oliver.

Of Interest to Oregon.

WASHINGTON, April 5.—A long line of department rulings in the administration of school indemnity laws are reversed by a decision rendered yesterday by Secretary Smith on the application of the state of Oregon to select double minimum lands for lost single minimum lands. The decision holds that the selection of the double minimum lands involved may and ought to be allowed to the school grant in lieu of single minimum lands lost.

UNION PACIFIC EMPLOYEES.

They Have Won Their Fight Against Reduction of Wages.

OMAHA, April 5.—Judge Caldwell's decision in the Union Pacific wage schedule case was rendered this morning. It is a complete victory for the employees.

The courtroom was thronged with railroad men, who listened intently to the reading of the opinion, comprising over 4,000 words. After stating the facts of the roads coming into the hands of the receivers, Judge Caldwell says the relations of these men to the company and the rate of wages was determined mainly by certain written rules, regulations and schedules which were the result of a free and voluntary conference between the managers of the railroad representatives and the men in different branches of the service, viz.:

Among the rules and regulations referred to was one to the effect that no change would be made in the rules or rate of wages without first giving the labor organization reasonable notice. Judge Caldwell then recites how the receivers were in court last January to force a reduction of wages, when an agreement was reached as to rules, regulations and schedules relating to train dispatchers and operators; yet at a conference held under the order of the circuit judges, the position assumed by the receivers in the petition was found untenable, and was abandoned, and rules and regulations governing telegraphers' wages were adopted. Judge Caldwell then says that when a court of equity takes upon itself the conducting of the business the operators of the road become employees of the court, and are subject to its orders. The court contends that the receivers have not offered satisfactory proof showing the schedule to be unreasonable, and believes the receivers made the request ignorantly, as only one is a practical railroad man. The court desired an economical administration, but to do this wages must not be below a just compensation. The recommendation of the receivers to adopt their schedule cannot be accepted because it was adopted without giving the men an opportunity to be heard, which is a violation of the agreement. Specific performances of contract to render personal service cannot be enforced by injunction under pain or penalties, or by any other means. No injunction ordered can make such interference any more of contempt than the law makes it without such orders.

After the decision was rendered the engineers adopted a resolution thanking Judge Caldwell for his firmness.

OF NATIONAL INTEREST.

Morton's Statement of the Visible and Invisible Supply of Wheat.

WASHINGTON, April 4.—The report of the secretary of agriculture, in reply to the resolution of Senator Pettigrew, calling for the statement of the visible and invisible supply of wheat, was submitted to the senate today. The total supply March 1, 1893, was 610,000,000 bushels. Amount in farmers' hands March 1, 1893, and the visible supply March 1, 1894, amounted to 729,000,000 bushels, which he gives as the total amount distributed and available for distribution. The apparent discrepancy is 119,000,000 bushels, the supply on hand March 1, 1894, was 190,000,000 bushels. The probable consumption from March 1 to July 1, 1894, he puts at 121,000,000 bushels, leaving 69,000,000 bushels available for export from March 1 to July 1, 1894.

Baker City Republicans.

BAKER CITY, Or., April 5.—The republican county convention was held in this city yesterday, and a full ticket nominated. The platform favors the free and unlimited coinage of silver at the ratio of 16 to 1, the abolition of the state railway commission, and favors the legislature passing a maximum freight and passenger law. It commends the stubborn resistance which their delegates have made to the Wilson bill; favors a constitutional convention.

The Benefit of Advertising.

HARRISBURG, Pa., April 15.—Miss Alice Lingst, of Sand Beach, Dauphin county, 26 years old, and weighing 338 pounds, started last night for Coeur d'Alene, Idaho, to marry Harry Crather whom she never saw. Crather advertised for a wife and the engagement resulted.

The Weakest Spot

In your whole system, perhaps is the liver. If that doesn't do its work of purifying the blood, more troubles come from it than you can remember.

Dr. Pierce's Golden Medical Discovery acts upon this weak spot as nothing else can. It rouses it up to healthy, natural action. By thoroughly purifying the blood, it reaches, builds up, and invigorates every part of the system.

For diseases that depend on the liver or the blood—dyspepsia, indigestion, biliousness; every form of scrofula, even consumption (or lung-scrofula) in its earlier stages; and the most stubborn skin and scalp diseases, the "Discovery" is the only remedy so unfailing and effective that it can be guaranteed.

If it doesn't benefit or cure, you have your money back.

No Use for Lard.

That's the happy and healthy condition of thousands of housekeepers who have been bright enough to try

Cottolene

THE NEW SHORTENING, which is a pure, perfect and popular substitute for lard for all cooking purposes.

The success of COTTOLENE has called out worthless imitations with similar color and similar names. Look out for these. "All that glitters is not gold," and all that's yellow is not COTTOLENE.

There is but one valuable new shortening, and that is COTTOLENE. It is healthful, delicate and economical as a single trial will prove.

THE POLLARD CASE.

The Fair Plaintiff Again on the Witness Stand.

WASHINGTON, April 5.—Judge Bradley's admonition of the night before reduced the attendance at the Breckinridge trial today to the thinnest audience yet gathered. The defense made an unexpected move, calling Miss Pollard to the stand and questioning her about the birth of her second child, which she said was born at noon February 3, 1888, "I only held it in my arms two hours, according to a promise to him," she said. Mr. Butterworth began warning Miss Pollard to confine herself to answering questions. Mr. Wilson also admonished her. She continued: "I gave it a little German name; I pinned a note on the clothing so they could name it. I was reading Carlyle and I named it from a character of his, Diest Carlyle, a name as far as possible from that of Colonel Breckinridge or my own." The second time she saw the child was the 3d of May at Wright's undertaking establishment before burial. Mrs. Parsons had looked after the funeral expenses. She supposed Colonel Breckinridge paid them. Miss Pollard was perfectly self-possessed while questioned about the child and spoke in a low, almost plaintive tone.

WAKING WHEN YOU LIKE.

Curious Power Many People Have, But as Yet Unexplained.

A discussion has been going on among the members of the English society for psychical research as to the existence and the nature of the power by which people manage to wake precisely at the hour at which they have resolved to wake themselves the previous night.

You may fix five minutes before the hour in a house in which no clock strikes the quarter, or even in a house where there is no striking clock within a couple of miles, and yet not one person only, but a great many—we might perhaps say the majority of persons past middle age—can wake themselves at the right hour if on the previous night they go to bed with the resolve to do so strong in their minds.

It is the power which belongs to all sorts of persons—not only persons who have been in the habit of getting up at given hours but to persons who have not.

Most nurses have it, most servants, most laborers, most professional men. Yet it is very difficult to account for this phenomenon, for when you wake you have no distinct, nor, indeed, indistinct, recognition of the time.

You only know what time you ought to have been awake, but you are not in the least conscious that this time has arrived, though when you look at your watch in a fright you find, as a matter of fact, that it has arrived, and only just arrived.

The curious thing is that, though you can arrest your own attention and wake at the required time, you never seem to have the least assurance that it is the right time without consulting your watch.

If you really do "divine" time you have no power of recognizing that you have "divined" it. You feel as if you had merely guessed it, and very probably guessed wrong, until your watch confirms the guess.

Governor Tillman Refused.

COLUMBIA, S. C., April 5.—It is said Governor Tillman had a rather stormy interview with a delegation of prominent citizens of Darlington yesterday. The story goes the delegation wanted the governor to withdraw the troops, saying they would be sponsors for peace. The governor refused and threatened to "knock the devil out of Dargan," an congressman, one of the delegation.

Arrests Made at Florence.

FLORENCE, S. C., April 5.—An order has been received from Governor Tillman directing the arrest of all citizens of this place who participated in taking the guns from the local armory last Friday. The order embraces the best citizens of the town. They are surrendering quietly, and are reporting to the courthouse. Habeas corpus proceedings will be commenced.
