No Contests at the Democratic State Convention.

COMPSON QUICKLY TURNED DOWN.

He Was Not Acceptable to the Administration Wing of the Party, Which Captured the Convention.

ASTORIA, April 17.—The democratic state convention was called to order at 10 A. M. by D. R. Murphy, chairman of the state central committee, who called for nominations for temporary chairman.

Miller, of Linn, nominated J. K. Weatherford, of Albany.

Thayer, of Multnomah, nominated F. V. Holman, of Portland.

Charles Nickell, of Jackson, nominated P. A. D'Arcy, of Salem.

Captain George H. Moffett, of Portland, seconded the nomination of Weatherford, not, he stated, for personal but political reasons. He said Holman was a gold man, and was here as the representative of Portland banking interests.

Cox, of Multnomah, called Moffett to order, and asked him to withdraw his statement. Moffett explained that he did not mean any offense to Holman, but he was an attorney for some of the banks, and that he (Moffett) wanted a silver man in the chair.

Weatherford was finally elected temporary chairman by acclamation. Weatherford in a brief speech counseled harmony.

Nominations for governor was the next order of business and Compson was nominated by Worthington of Klamath, Huston nominated Wm. Galloway. Galloway was the successful candidate by a vote of 130 to 88.

For secretary of state, Chas. Nickell, of Jacksonville, was nominated by acclamation.

For treasurer, Thomas L. Davidson of Marion county, by acclamation.

For supreme judge, A. S. Bennett of The Dalles, nominated by Wright of Polk county, and went through by acclamation.

For attorney-general, W. H. Holmes, of Salem, was nominated by Cox, of Multnomah, and elected by acclamation.

For superintendent of public instruction, D. V. S. Reid, of Eugene, was nominated by a Linn county delegate, and was voted the nominee by acclamation.

For state printer Capt. John O'Brien was unanimously elected.

E. B. Dufur of The Dalles got the nomination for district attorney.

V. C. Brock of Moro and M. V. Harrison of Hood River received the nomination for members of the legislature from the Sixth district.

J. H. Raley of the Second congressional district received the nomination for congress.

William Galloway, the nominee for governor, has resided in Yamhill since pioneer times, and is now about 45 years of age. He first entered politics in the early '70s, and represented his county for two terms in the legislature. During his first term he gained considerable notoriety as a member of the committee appointed to inquire into certain alleged irregularities in the building of the new penitentiary. After retiring again to private life he spent the greater portion of his time on his ranch, and was quite noted as a raiser of fine stock. He was for many years president of the state agricultural society, and took considerable interest in horse racing. Four years ago Mr. Galloway was elected county judge of Yamhill county, which position he now holds.

POINTS IN THE PLATFORM.

The following are three of the most important planks in the platform:

We have an abiding faith and implicit confidence in the integrity, good faith and patriotism of President Cleveland, and believe that he will accomplish, so far as in his power, before the close of his term of office, all the pledges of the democratic party contained in the national platform, adopted at Chicago in 1892.

We reaffirm the position that has ever

been maintained by the democratic party, that gold and silver are equally the people's money. We are opposed to all measures of discrimination against silver, and demand free coinage to supply the demand of business, and that all money issued by the government be made a legal tender for all debts, both public and private.

We denounce the act of the last legislature whereby was repealed what is known as "The Mortgage Tax Law," and we demand its re-enactment at the next session.

TERRIBLE RIOTING.

Foreigners Killing Those Who Oppose Them in the Coke Regions.

PITTSBURGH, April 18.—[Special to THE CHRONICLE]—There is terrible rioting in the coke regions. Hungarians, Poles, Italians and the foreign element generally are out in force and are using weapons indiscriminately. Many were killed this morning and it is impossible to quell the disturbance, which bids fair to amount to an insurrection. Local officers are powerless, and the governor has been urgently requested to call out the militia of the state.

NEWS NOTES.

Ernest Knabe, the piano manufacturer, died at Baltimore Tuesday.

Edward Adams, an American, will be shot in Mexico City for the murder of Carlos Larquet in 1890.

Washington City is puzzled over what to do with the commonwealers, whose numbers are increasing at the capital daily.

Representative Storer, of Ohio, has introduced in the house the Nicaragua canal bill, as presented by Senator Morgan to the senate.

The steamship Peru, which arrived at San Francisco from China and Japan, brought 537 Chinese passengers. The unusual number is due to the fact that the date for registration is drawing to a close.

ATE ITS OWN TAIL.

The Absurd Trick of One of the Central American Chameleons.

A traveler from Central America recently told rather an amusing story. "Down in my country," he said, "one of the first things you get acquainted with is a small, bright green lizard. They are quite tame, harmless and very lively. When caught by the tail they have a peculiar fashion of slipping away, leaving that appendage behind them.

"One afternoon I was sitting on my doorstep watching one of these little creatures darting about for flies. It became quite bold, and in one of its quick movements jumped on my foot. I made a sudden grab and caught it by the tail. With a wriggle it was off, leaving that portion of its body still in my hand.

"As I had no particular use for it, I threw it on the ground. In a few minutes I noticed that a lot of ants had discovered the piece of tail, and were dragging it off as fast as they could to their hole close by. When they had arrived almost to their destination I noticed the lizard, a few inches away, intently watching the ants and his missing property.

"Just as the ants were making a final pull to their nest the lizard darted out among them, and, seizing his bit of tail, swallowed it with evident relish."

Now is the time to kill squirrels. Sure Shot at Snipes & Kinnersly's.

Progress and Cookery.

"The World Moves."

There is no better illustration of this old saying than the numerous schools now-a-days devoted to practical kitchen processes. These schools have been alert to find a reasonable substitute for lard, the use of which is so generally condemned. This want has been fully met by

COTTOLENE

the new vegetable lard. When science strikes the kitchen, it strikes home and everybody gets the benefit. Cottolene is a clean, delicate and economical substitute for lard—cleaner than the hog, delicate as the finest vegetable oil, economical from its low price and small quantity required to be used. Prove it for yourself by a trial.

VICTOR.

Lots of sunshine but no rain. Another Delor in this country arrived on the 8th.

Health of community generally good. Mrs. Evick is reported convalescent.

The nominees for office are now in the campaign field, even to our nominee for justice, Mr. Bentley.

The sheep shearers are preparing for work as their crews are mostly full now and only waiting for the time to come to start shearing.

Anyone wishing any instruction in the game of domino will find it to their interest to call on our young man commonly known as Sleigh Tongue, who is giving lessons at the residence of Mr. H. Kelley, on Juniper Flat.

The singing at Kelly church, under the supervision of Professor Sam Brown, is looking up fine now, as he has been importing some singers—one extra soprano from Washington agency and one bass from the sunny south.

Our horse jockey is afoot now sure enough, for his race horse has got crippled. He has loaned his horse and given away his dog to the former owner of the famous race horse, Gimlet Head. The jockey says he is going to quit the horse business and try for a position on Professor Brown's staff of singers.

Farmers generally are nearly through seeding. Mr. Sanford's team, which has been breaking sod on his ranch, is to return to Wamic this week and no doubt some of the young ladies there will be pleased to learn this fact, as two of them were over looking for the driver.

AUNT SUSIE.

ENDERSBY.

The cattle on a thousand hills are fat and the grouse are hooting on the hill-sides.

We are having fine spring weather and consequently farmers are in for a big crop, the fall and winter being unusually wet, with very little frost. Volunteer wheat has every appearance of making a big crop, while fall-sown never looked more promising for a big yield. Spring plowing never was better. So our farmers are taking time by the forelock and are daily adding spring-ploughed acres to the already green fields of volunteer and fall sown grain.

Our mountain streams are full of fish of the speckled variety, and our orchards have every appearance of a large crop. What wonder that we feel like the bulls of Bashan? The only drawback now is money enough to pay taxes, but, oh, what use in growing. The democrats of Wasco in convention assembled endorsed the present administration of Grover Cleveland up to the present time, with thousands of people out of employment and a vast army of unemployed marching for the capital, like the Israelites of old, barely finding subsistence enough to keep soul and body inside of a four bit shirt and a six bit dress suit with the farmers of Wasco county unable to pay their taxes after a bountiful harvest. Oh consistency, though art a jewel.
