WAITING HIS COMING

Coxey's Supporters Refused a Permit For Open Air Meetings.

GEORGE FRANCIS TRAIN ARRIVES

Quivering on a Revolution, to Which the Jeff Davis Matter Will Be an Item in Comparison.

WASHINGTON, April 26.—The district commissioners cast a damper over the local supporters of the Coxey movement today by refusing them permission to hold open air meetings. It has been expected by the enthusiasts that these meetings would draw converts and cash contributions to the cause. The Coxeyites are angered at this refusal. The event of the day, however, was the advent of Citizen George Francis Train, who predicts that we are quivering on the biggest revolution the world has ever seen, and that the "Jeff Davis matter" won't be an item in comparison. The authorities in charge of the capital buildings are now considering the advisability of formally surrendering their authority to the District of Columbia, and asking that sufficient protection be given by the police force of the city. An Odd Fellows' procession attempted to march through the capitol grounds today, but was turned back by the capitol force. The Odd Fellows made some remonstrance, but when assured the law permitted no exceptions, they quietly acquiesced. The incident will doubtless prove a precedent if Coxey intends to invade the grounds as he says is his intention.

WILL KNOW THE CROOKS.

The authorities at Washington have requested the chiefs of police in all cities to detail their most experienced detectives to either follow the armies or go to Washington and assist the police department of the capital to manage the great crowd that are certain to assemble. Chief of Detectives O'Shea, of Chicago, will send several of his best men, who are familiar with the crooks who infest his part of the country. The authorities at the capital believe that criminal characters from all over the country will flock to that city, thinking that during the confusion Washington will be a good place for thieving and swindling. By massing the detectives, recruited from all parts of the United States, at the capital, these characters can be spotted and locked up. The authorities at Washington will pay all expenses of the officers supplied, and intend to keep them there a month or two, until all the trouble is passed.

General Kelley's Men.

ADAIR, Ia., April 27.—One hundred and twenty-one of the Sacramento men were missing today when Kelley massed the industrial army for march. The men asserted last night that they would walk no further, and after breakfast tried to steal rides. Rain began falling soon after dawn, and there were scarcely sufficient wagons to haul the baggage. Grumbling among the men was loud and deep. Kelley ordered the army forward, telling the men to take the railroad instead of the wagon road if they wished. "But do not interfere with the trains," he commanded. "If you do you cannot go further with me." The eight-mile tramp to Casey was very slow, but a hot meal and coffee revived the men's courage, and the remainder of the trip better time was made. One of the Council Bluffs advance committee, R. O. Graham, became convinced today that further efforts to secure wagons for transportation for the army was useless, and returned home.

The regular subscription price of the WEEKLY CHRONICLE is \$1.50 and the regular price of the WEEKLY OREGONIAN is \$1.50. Any one subscribing for THE CHRONICLE and paying for one year in advance can get both THE CHRONICLE and WEEKLY OREGONIAN for \$2.00. All old subscribers paying their subscriptions for one year in advance will be entitled to the same offer.

RANK AND FILE.

Where the Different Contingents are Located and Their Condition.

Coxey and his followers continue in Maryland and are marching in the neighborhood of Hyattstown.

The Butte contingent, under "General" Hogan are in the toils of the law. They stopped with their stolen train at Forsythe, Mont., intending to stop for the night. U. S. troops, comprising 500 men under Col. Page, arrived soon after, and lined up on the platform beside the Coxey train and the Montana contingent was ordered to surrender. It was scarcely a necessary command, and it was promptly obeyed. The commonwealth train consisted of 14 cars. One was well filled with provisions and one with railway tools, one with coal and the other 11 cars carried men. Each carried from 30 to 40 men, together with their baggage, camp equipage, etc., making a total of 400 men. The train was side-tracked and put under guard and "General" Hogan, Conductor Willy and Engineer Cleveland were put in a box-car by themselves.

Kelly and his mob are in Anita, Ia., and are said to have settled all their differences. Kelly, who is said to have been a professional ball player, is organizing a baseball club to play at the various towns on the march. The Sacramento division announced that they would walk no further and would have a train. The Rock Island officials printed a circular and distributed it throughout the camp, saying if the army captured a train that the track would be obstructed and the usual danger signals displayed, and they would proceed at their peril. Kelly was highly incensed at the action of the company.

General Fry reached Indianapolis with his command on the train they seized at Brazil.

Gavin's 215 commonwealthers were ordered out of Washington Court House, O., by the mayor and sheriff, and are now marching to Columbus. They expected to pass the night at Mount Sterling.

The Oklahoma territory outfit has at last reached El Reno. At that place yesterday and the day before 700 men were organized to move on Washington.

The industrial army at Tacoma is now six miles out of town. There is a great deal of grumbling over the scant commissary, and one of the captains has been suspended for getting drunk on army funds.

Dauphin's brigade of the industrial army lingers at Spokane, hoping for something to turn up. The county and city authorities have positively refused to feed them or secure transportation, and they depend for supplies upon the charity of individuals, and that is rapidly waning.

Calvin and his four captains at Washington, Ohio, have deserted their industrial army, disavowing all responsibility with that body. The men are camped two miles east of there waiting for the Baltimore train, which they propose to capture.

A new industrial army started on the march at Spring Valley, Ill., and before it reaches its destination, the outlook is that it will be larger than all the commonwealth and industrial of Coxey and Kelly put together. They are principally miners out of employment, and will number 3,000 men.

A Coxey army is organizing in the Cour d'Alene mining district.

It covers a good deal of ground—Dr. Pierce's Golden Medical Discovery. And when you hear that it cures so many diseases, perhaps you think "it's too good to be true."

But it's only reasonable. As a blood-cleanser, flesh-builder, and strength restorer, nothing like "Discovery" is known to medical science. The diseases that it cures come from a torpid liver, or from impure blood. For everything of this nature, it is the only guaranteed remedy. In dyspepsia, biliousness, all bronchial, throat and lung affections; every form of scrofula, even consumption (or lung-scrofula) in its earlier stages, and in the most stubborn skin and scalp diseases—if it ever fails to benefit or cure, you have your money back.

Chronic nasal catarrh positively cured by Dr. Sage's Remedy. 50 cents; by druggists.

MITCHELL.

Wednesday, Thursday and Friday of last week were three of the warmest days of this spring.

Fruit trees of many kinds are loaded with bloom. The prospects are we will have a plentiful supply of fruit this year, unless we should have late frosts.

Last night we had a warm rain that lasted until almost morning, causing withering vegetation to rear their drooping heads in an ecstasy of gladness, for they were very much in need of a good shower bath. Although it has been such a short time since our hills were so very wet, there did not seem a possibility they would ever need water again, but we welcomed this shower as a thing much needed.

Reports from John Day river are that it is once more filling its banks to overflowing.

D. B. Kelly of Oakland, Cal., and his son Ed Kelly, passed through town one day last week, on their way to their ranch in Summit Prairie. Ed Kelly has been caring for his father's interests in that place for a number of years, but I believe Ben Kelly means to transfer the care and interest to his younger son, Fred. Ed Kelly and wife will move to Oakland where they will make their future home.

Mr. Roberts, who has been interested in buying and marketing beef from Shoo Fly, suddenly found it to his interest to seek a more agreeable clime. After he had disposed of his cattle he departed to parts unknown, leaving his help in a state of financial brevity. One of the men writes here that it is necessary for him to work for wages in order to return. He was left entirely broke.

I see by "the Living Issue" of John Day, the fossil remains of a mammoth mastodon has been found about one mile from the John Day river and near four miles from John Day city. Although the head and tusks were so badly decomposed that it crumbled on exposure, they took a measurement that shows the enormous size of the animal in life. The head "measured 34 inches wide and 46 inches high from face of teeth to extreme top of head." The trunk at the largest point measured 26 inches in circumference and 21 inches at the smallest point, and is hollow. The jaw bone measured 15 inches long and one side tooth measured 8x4 inches in diameter and 19 inches in circumference. There is no brain cavity other than a porous honey-comb bone throughout the head, the bone showing that the tusks were attached to the upper part of the head, is still solid. The head measured 38 inches from back to front. But one shoulder blade was found, which measured 41 inches in length, one shin-bone 48 inches in length in very good condition. Shoulder blade joint measured 8x4 inches. The tail bone was 15 inches long, and the first joint of the tail measured 8 inches in diameter. The hip bone was almost perfect and measured just 62 inches from point to point. This find gives us further evidence

CASTORIA

for Infants and Children.

THIRTY years' observation of Castoria with the patronage of millions of persons, permit us to speak of it without guessing. It is unquestionably the best remedy for Infants and Children the world has ever known. It is harmless. Children like it. It gives them health. It will save their lives. In it Mothers have something which is absolutely safe and practically perfect as a child's medicine.

Castoria destroys Worms.

Castoria allays Feverishness.

Castoria prevents vomiting Sour Curd.

Castoria cures Diarrhoea and Wind Colic.

Castoria relieves Teething Troubles.

Castoria cures Constipation and Flatulency.

Castoria neutralizes the effects of carbonic acid gas or poisonous air. Castoria does not contain morphine, opium, or other narcotic property. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep.

Castoria is put up in one-size bottles only. It is not sold in bulk. Don't allow any one to sell you anything else on the plea or promise that it is "just as good" and "will answer every purpose."

For that you get C-A-S-T-O-R-I-A.

The fac-simile signature of

Chas. H. Pitcher.

is on every wrapper.

Children Cry for Pitcher's Castoria.

THIS SALE is no puff, merely for the sake of bringing in a few dollars, but a genuine clearing sale at such prices as will quickly distribute the goods into possession of other hands. Those that come early will get the best assortment from which to make their selection.
