## CHRIS BUCKLEY'S LAMB

Jake Rudolph Out Gunning After Mike De Young.

HE TOOK A SHOT AT JOE ELLIOTT.

A Young Woman Brutally Assaulted by a Cowardly Villian—

News Notes.

SAN FRANCISCO, May 7.—Joseph B. Elliott, business manager of the Chronicle, was shot at shortly before noon today. The shooting was done by Jake Rudolph, a well known politician, and for many years Chris Buckley's right-hand man. Rudolph entered the business office of the Chronicle and excitedly asked for M. H. de Young, the proprietor. He was told that the latter was at the fair. Rudolph's excited manner drew Elliott from his office and he was admonished to be quiet, but, drawing a revolver, attempted to shoot Elliott. The latter fell upon Rudolph, and in the struggle the revolver was discharged, the bullet spending itself on some silver in the business manager's pocket, thus saving his life. Rudolph was arrested, and refuses to talk.

### Chase After a Villian.

IRONGATE, Va., May 7.—Miss Mary Pierson, a young woman who lived near Salt Peter Gap, Botetourt county, was letting her cows out of the pasture, when an unknown man stepped up behind her, grabbed her arm and shoved a pistol in her face. He told her if she spoke he would blow her brains out. Then he tied her hands behind her, and after a violent struggle forced her to swallow a pill that made her unconscious. When she recovered she staggered home and since then has been in intense agony. Before the man could be arrested he boarded a train bound for Clifton Forge. On arrival at Glen Wilton, Conductor Harris received a telegram, giving an imperfect description of the man. The conductor kept a close watch, but as the train slowed up the man jumped from the platform. Conductor Harris fired five shots as the man took to the bushes, pursued by the train crew and passengers, but in the thick undergrowth he escaped. The mountain passes are guarded by armed men, and if the girl's assailant is caught, lynching will follow.

### Wool Made to Suffer.

WASHINGTON, May 6.—While every other interest has been taken care of in the tariff bill, wool has been made to suffer, yet any one democrat from the three great wool producing states could have wool protected if they would make a stand. Brice of Ohio, White of California, or either of the Texas senators could, by insisting on protection, secure the change. Other votes have been secured for the bill by senators standing out declaring they would not support the bill unless they were granted what they asked. Western senators are very much surprised that White should stand idly by while all the other senators are grabbing what they want and allow the wool industry of the west to be sacrificed. This is made especially pronounced because White claims, as the only democrat west of Kansas, that the whole west is dependent upon him as its representative. It is known that Brice does not care for wool, and finds it profitable to attend to other matters. Dolph, Mitchell and other western republicans have been pleading with the democrats not to sacrifice wool while saving other things.

### The Coxe Trial.

WASHINGTON, May 7.—The trial of the commonwealers was resumed today. The counsel for defense said he would prove the arrest of defendants was most brutal and the police used unwarranted force in clubbing, not only the defendants, but also others. He also said he would offer evidence that a conspiracy existed to convict the defendants. Several witnesses then testified to the peaceful demeanor of the Coxeites at the capitol, and the violence of the police. Coxe testified in his own defense, and told of his efforts to get permission to speak

from the capitol steps, how he reached the steps and his being hustled from there without being permitted to speak. On cross-examination he said, as an American, he thought he had the constitutional right to speak.

### Frye Again on the March.

INDIANAPOLIS, May 7.—General Frye and an army of 200 fled out of camp today on the march to Washington. Frye said the roasting the local press had given him had put \$500 into his pocket. He will reach Washington, he thinks, with \$2000 in the treasury from the sale of his book.

### The Coxe Movement Condemned.

ST. PAUL, May 7.—In the chamber of commerce today General Andrews introduced resolutions condemning the individuals, committees and states that aid the Coxe movement, and urging the settlement of the unemployed upon the unoccupied government lands.

### Randall's Army Divided.

VALPARAISO, Ind., May 7.—Disaffection with Randall's methods resulted in the revolt of a portion of that division of the Coxe army today, and the men left Valparaiso as two armies.

### Kelleyites Got a Meal.

DES MOINES, May 7.—The Kelleyites had a good meal this morning. Kelley says he will start down the Des Moines tomorrow, to be in Washington July 4.

### NEWS NOTES.

Joseph Sullivan, better known as the "Brooklyn Giant," died in Oakland yesterday. He was 7 feet and 8 inches in height.

A Washington special says that the proposition of the woolen manufacturers to the senate committee on the wool tariff is as follows: "The McKinley tariff is to remain untouched till January 1, 1895, then a reduction of 10 per cent. is to be made, followed annually by a similar reduction, until absolute free-trade conditions are reached."

Representative Jerry Simpeon, of Kansas, is still confined to his room. He has not been forgotten, however, for his mail is heavier since his illness than ever before. He receives on an average 300 letters a day.

### They Want Names.

The Russel Art Publishing Co., of 923 Arch street, Philadelphia, desire the names and address of a few people in every town who are interested in the works of art, and to secure them they offer to send free, "Cupid Guides the Boat," a superbly executed water color picture, size 10x13 inches, suitable for framing, and sixteen other pictures about same size, in colors, to anyone sending them at once the names and address of ten persons (admirers of fine pictures) together with six two-cent stamps to cover expense of mailing, etc. The regular price of these pictures is \$1, but they can be secured free by any person forwarding the names and stamps promptly.

NOTE.—The editor of this paper has already received copies of above pictures and considers them really "Gems of art."

### Chronic Looseness of the Bowels.

Results from imperfect digestion. The cause lies in the torpidity of the liver, and the cure is take Simmon's Liver Regulator to aid digestion, to stimulate the dull and sluggish liver and to regulate the bowels.

It appears as if the people of the United States were steadily reducing their consumption of quinine and other cinchona alkaloids. Year after year since 1887 the importations of cinchona bark have been diminished. In 1893 the amount imported was less than half that of 1887.—Popular Science News.

WILL CARLETON says the total output of poetry in 1893 is nearly three million poems. Spring was the theme of two hundred and fifty thousand, despair one hundred thousand and discontent ten thousand.

When Baby was sick, we gave her Castoria.  
When she was a Child, she cried for Castoria.  
When she became Miss, she clung to Castoria.  
When she had Children, she gave them Castoria.

**OUT OF THE FRYING PAN**

Has come not a little knowledge as to cookery—what to do, as well as what *not* to do. Thus we have learned to use

**COTTOLENE,** the most pure and perfect and popular cooking material for all frying and shortening purposes.

**PROGRESSIVE COOKING** is the natural outcome of the age, and it teaches us *not* to use lard, but rather the new shortening,

**COTTOLENE,** which is far cleaner, and more digestible than any lard can be.

The success of Cottoleone has called out worthless imitations under similar names. Look out for these! Ask your Grocer for COTTOLENE, and be sure that you get it.

### The Agricultural College.

Joe Alexander, who graduated in 1891, has been visiting his numerous friends at the O. A. C.

The lecture at the college chapel last Friday night, subject "New Theory on Tides," by Dr. G. O. Rogers of Massachusetts, was excellent.

Prof. Coote says his asparagus and pieplant were ready for use more than three weeks ago.

Pres. Bloss delivered an address before the Loyal Legion, a society of old war veterans, at Portland.

Prof. Pernot is just finishing pictures of all the professors connected with the college.

Last week the senior class was given two receptions, one by Prof. H. T. French and the other by Prof. Pernot.

Prof. W. W. Bristow has been connected with the O. A. C. for eleven years and this term is the first time he has had a free hour during the course of regular recitations.

W. H. Buoy has recently traveled over the greater part of Eastern Oregon and Washington and has been over into Idaho. He is at present teaching school at Cleveland, Wash.

A returning game of baseball was played Saturday May 5th between Albany and the O. A. C., which resulted in Albany's favor 13 to 20.

The Shakespearean club that meets each Tuesday evening at the residence of Prof. Washburn's, are now enjoying the study of the tragedy "Othello."

"All human history attests that happiness for man,—the hungry sinner—since Eve ate apples, much depends on dinner." And a good liver is absolutely essential for appreciating a good dinner. Lord Byron knew that as well as anybody. One of his greatest regrets was for his weak stomach. "God, man!" his lordship would say, "why don't one of these infernal doctors invent a liver medicine."

Byron would never have asked that question were he now living. Why? Because he would have been using Dr. Pierce's Pleasant Pellets, an absolutely sure cure for constipation, indigestion, bilious attacks, and all derangements of liver, stomach and bowels. There is no gripping or violence about these pills, and they're guaranteed to give satisfaction, or your money is refunded. Don't live with the stomach weak, when the cure is within your reach for 25 cents.

Thousands of cures follow the use of Dr. Sage's catarrh remedy. It's \$500 reward for an incurable case.

### WARNED TO STAY AWAY.

How Our Forefathers Refrained from Assailing Responsibility.

"A man runs across some peculiar things when looking up his ancestry," said a traveler the other day, according to the St. Louis Globe-Democrat. "When investigating my own lineage in New Hampshire I discovered that my great-great-grandfather was warned by a town meeting not to come into the town. I wondered what he had done to make himself obnoxious, and when I learned that, notwithstanding the warning, he did move into the place, I admired his assurance, but thought him lacking in self-respect. The matter was explained to me by the secretary of state. It was the custom for anyone intending to remove into a town to give notice of such intention. At the next regular town meeting he was warned to stay away, because the law provided that if this was done the town would not be liable for his support in case he became a pauper. It was not a matter of disgrace or personal ill-will, but purely a precaution to cover possible future financial reverses."

The University of California register for 1893-94 is in press. It shows a total enrollment of 155 professors and instructors and 1,884 students. The increase in attendance over last year is 302, or 28 per cent. The number is distributed as follows: Graduate students, 55; undergraduates, 702; law, 132; medicine, 197; dentistry, 125; pharmacy, 113; art department, 90.

Dr. S. F. Scott, Blue Ridge, Harrison Co., Mo., says: "For whooping cough Chamberlain's Cough Remedy is excellent." By using it freely the disease is deprived of all dangerous consequences. There is no danger in giving the Remedy to babies, as it contains nothing injurious. 50 cent bottles for sale by Blakeley & Houghton, druggists.

## Castoria

For Infants and Children.

Castoria promotes Digestion, and overcomes Flatulency, Constipation, Sour Stomach, Diarrhoea, and Feverishness. Thus the child is rendered healthy and its sleep natural. Castoria contains no Morphine or other narcotic poisons.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me." H. A. ANCKER, M. D., 111 South Oxford St., Brooklyn, N. Y.

"For several years I have recommended your 'Castoria,' and shall always continue to do so, as it has invariably produced beneficial results." EDWIN F. FAHNER, M. D., 125th Street and 7th Ave., New York City.

"The use of 'Castoria' is so universal and its merits so well known that it seems a work of supererogation to endorse it. Few are the intelligent families who do not keep Castoria within easy reach." CARLOS MARTIN, D. D., New York City.
