## SHOT BY A CONSTABLE

### Colonel Paisley, a Californian 'Wealer, Killed.

#### HAD SEIZED A FREIGHT TRAIN.

##### Four of the Ellensburg Coxeyites Drowned Today--Trouble is Feared At Spokane.

SACRAMENTO, May 11.—Telephone advices to the Bee are that Constable Fleckinger shot and killed Colonel Paisley, of the industrial army, at Rocklin, Cal., early this morning. At 4 o'clock this morning the industrial army, under command of Lieutenant-General Smith, 700 strong, seized a freight train at Arcade station and went to Rocklin. Engineer Williams, a member of the party, was then placed under arrest by Constable Fleckinger. General Smith and Colonel Paisley protested. A quarrel ensued and Fleckinger drew a pistol and pointed it at Smith, who jumped to one side. The constable shot and killed Paisley. The industrial army became furious and started to lynch Fleckinger. General Smith, however, protected him and aided him to escape. He is now at large. Engineer Williams in the meantime had been locked up. The industrial army demanded his release, and the citizens fearing trouble restored him to liberty. The remains of Colonel Paisley were taken in charge by the coroner. A committee of industrialists will remain at Rocklin to attend the coroner's inquest. The army's commissary department is virtually depleted, and the one meal the men will have today will be crackers and water. General Smith, in an interview, says that Colonel Paisley fell a martyr to the grandest cause in the history of the New World, and he is satisfied that nothing but good can come out of the cruel matter. He claimed the killing of Colonel Paisley was unprovoked.

#### Another Scrimmage at Yakima.

NORTH YAKIMA, Wash., May 11.—Another collision occurred between the deputy marshals and the commonwealers about 4 o'clock this morning, and two more of the latter are now confined in the hospital, suffering from gunshot wounds. Word was received during the night that 125 men had captured two freight cars at Ellensburg, and were coming down to liberate the Coxeyites imprisoned in the county jail. The road is a gentle down grade all the way from Ellensburg to Yakima, and no engine was required. The marshals marched to meet the industrialists and stopped their cars by means of throwing a rail across the track at a point two miles from the city. The industrialists scrambled off the cars and started to run, but were brought to a halt by the whizzing bullets from the rifles of the marshals. Two of the men were wounded, but not seriously. The others to the number of 120 were then marched to the county jail and locked up. The marshals had been instructed not to fire without orders, but they claim the first shot came from the commonwealers. This is strongly denied, but two revolvers were taken from the prisoners, one of which had several chambers empty, and looked as though it had recently been fired. Fifty Coxeyites and a number of Yakima citizens, accused of inciting the army to resistance, were started on an early morning train under a heavy guard for Seattle. The train was a special, and on account of the trouble along the line of the Northern Pacific to the west, was moved over the Union Pacific via Wallula and Portland.

#### May Have Trouble at Spokane.

Spokane, May 11.—Colonel Phillips arrived in Spokane at 10 o'clock this morning with a trainload of 65 'wealers whom he arrested at Yakima, part of them for engaging in a riot and part for interfering with trains. They were brought here in order to escape from what might occur at Yakima and for better protection. After their arrival another engine was hitched on the train and it immediately started them back to Seattle under guard of a posse of

deputies. This action was taken under orders from the district court. E. J. Jeffreys, commander of the Seattle Coxeyites now in Spokane, secured a writ of habeas corpus from Judge Buck of the superior court for Spokane county to compel the marshal to return the prisoners to Spokane. The 'wealers are greatly excited, and have been gathering in groups of 10 to 50 all morning talking. When dispersed by the marshal they disappear, and soon assemble at other places. Jeffreys wired the Coxeyites at Tacoma and Seattle to meet the train on the road, and it is feared an effort will be made to stop it before it reaches the Sound. The industrialists complain they were kept in box cars 36 hours without food or water, and some of them are suffering from injuries received in the recent conflict. The officers deny any cruelty, and say they have been properly cared for, and as soon as the train reaches a safe place on the return trip they will be transferred to passenger coaches. Spokane is likely to be the chief battleground from now on.

#### Four of the Army Drowned.

ELLENSBURGH, Wash., May 11.—A report has just come from down the river that four of the men who started down the river this morning were drowned by the upsetting of their boat. Twenty-five of the 'wealers started and the boat got in an eddy and was capsized. One of the survivors, Wright, of Seattle, brought the news in. The accident occurred about two miles below town. Wright drifted two miles before he was able to land. There is no hope of recovering the bodies.

#### Dolph Happened to be Absent.

WASHINGTON, May 11.—Senator Dolph today stated in the senate that he would have been glad to have signed the cable to England's bimetallic conference, but it so happened that he was not around when the cable was presented to the other senators.

#### BOATS FOR WOMEN.

##### They Prefer One That Will Not Easily Capsize.

Women affect to prefer yachts. What they really like is a catboat. To go sailing in a catboat is like sailing in a wide piazza. One would as soon feel cramped in a drawing room. A catboat is as broad as it is long. Some catboats are broader than they are long. Such would be a catboat thirteen feet by twenty-four, which are the dimensions of a well-remembered catboat. That is a nautical estimate; the length by rights should be twice the breadth of beam, as in this case it was not. There is but one man; he handles the tiller with one hand, shifts the sail with the other and entertains you with talk of his craft. He pretends great indifference to yachts and says: "We don't think much of 'em." A catboat, says the New York Journal, not only is as broad as a room but has a centerboard. Literally it cannot capsize. On fine afternoons when catboats are available they look like floating nurseries. The most timid mothers will take their children out in a catboat if the children will promise not to throw themselves or one another into the water. There is no other possibility of their getting in. A well-built catboat will sail like a skimming dish by raising the center board or will behave the water like a cutter with its lowered center board. It is, however, had to becalmed in. It carries but one sail and its breadth offers a good deal of resistance. But a calm on the water is nothing to a calm on land. A belated sailing party on a quiet summer night will throw a household into consternation and break up the fountains of the deep that lie in woman's eyes.

"All human history attests Since Eve ate apples, much depends on dinner. And a good liver is absolutely essential for appreciating a good dinner." Lord Byron knew that as well as anybody. One of his greatest regrets was for his weak stomach. "God, man!" his lordship would say, "why don't one of these infernal doctors invent a liver medicine."

Byron would never have asked that question were he now living. Why? Because he would have been using Dr. Pierce's Pleasant Pellets, an absolutely sure cure for constipation, indigestion, bilious attacks, and all derangements of liver, stomach and bowels. There is no gripping or violence about these pills, and they're guaranteed to give satisfaction, or your money is refunded. Don't live with the stomach weak, when the cure is within your reach for 25 cents.

Thousands of cures follow the use of Dr. Sage's catarrh remedy. It's \$500 reward for an incurable case.

Weather cool enough to make a fire in the heating stoves a very agreeable necessity.

Two six-horse wool teams passed through town today.

Will Brown of Shoo Fly has been very sick, but is much improved under the care of Dr. Houck.

This is court week at Prineville, and somehow it has attracted many of our citizens. People will go courting no matter how hard the times.

Sheep shearing begins this week. It is thought there will be a splendid clip this year, just as it should be, wool is such a good price.

Stock is looking very well for this time of year, thanks to our abundant supply of grass.

Sheep are being sold, or given away, as I cannot find any one that knows what they are sold for.

Cattle are selling here at \$8 and \$10 a head for 3-year-olds.

Justice in Mitchell is the order of the day since E. E. Allen by appointment has taken the responsibility of that office.

A certain young law student, lately from The Dalles, has grown an inch or two since his arrival in the city of Mitchell. Why? Because, with the assistance of our justice, he has been able to give legal advice to some would-be advised.

Mr. and Mrs. Oaks have gone to Antelope to make Mrs. Wallace a visit and to bring Mrs. Winneck back with them for a several weeks' stay.

It is reported there are two feet of snow on the mountains between here and Prineville.

Other parts of the mammoth skeleton have been found within a few feet of where the parts were found as reported last week. The two hip bones intact and measuring 48 inches long. Just below the hip socket joint the bone measured 13 inches wide and at the hock it measured 8 1/2 inches. The bone extending from hock to foot measured 35 inches and 11 inches below joint. The foot was 18 inches wide and 13 inches long. Ribs were also found 58 inches long. Joseph Hodson and Charles Angel are the lucky finders of these remains. E. V. E.

### THE MOURNING DOVE.

#### Romantic Story of a Pair of Unfortunate Kentucky Lovers.

There is a peculiar belief existing in my county, said a resident of Barbourville, Ky., to a St. Louis Globe-Democrat reporter. Upon one of the creeks can be heard the cry of a mourning dove answered by its mate. It can, of course, be heard upon any creek, but always upon the one I named. The mountain people believe that these two doves are the spirits of a moonshiner and his sweetheart. It arose many years ago, and but the merest outlines can be given. There was a young girl who had been raised in Louisville with all of the advantages of a city life, and she came to our place after the death of her parents in order to be a solace to her old grandfather in his declining years. She taught him to read and was all that a granddaughter could possibly be. A young man at Barbourville was a son of a moonshiner, the most intelligent man in the county, and possessed of the most personal magnetism. It was not surprising that the two became lovers. He had agreed to destroy the still and study for a profession, when upon a raid the revenue officers found him in the act of destroying the still, a fact which, of course, they could not know, and his sweetheart, hearing their attack, rushed to her lover's arms, and both were buried together. Since that time the mourning doves have appeared every night upon the creek.

When Baby was sick, we gave her Castoria.

When she was a Child, she cried for Castoria.

When she became a Woman, she clung to Castoria.

When she had Children, she gave them Castoria.

### TRUE GENTLEMEN.

#### Rough Workingmen Who Are Respectful to Women.

It has been demonstrated on many occasions that it is not necessary for a man to have his clothes out in the latest fashion, to have diamonds sparkling on his shirt front and to wear silk underwear in order to come under the head of 'gentlemen.' An example of this is given daily on Plum street, near Twelfth, says the Cincinnati Times-Star. The thoroughfare above the last named street is used by the young ladies of the college of music, who live in the West end, for by using the rear entrance to the college they save themselves a walk of almost two squares. Just below the entrance to the college is located one of the large depots of the Cincinnati Ice company, and here daily there are from six to ten men employed loading the wagons of the company. In order to do this it is necessary to lay a chute from the house to the wagons, and in no case have the men failed to remove the chute in order to let the young ladies pass. In other ways, too, do these rough, honest fellows show their respect for the ladies, and it is an accepted fact at the college that it is much safer to go by the way of Plum street than to run the gauntlet of the medical students on Twelfth street. The ogling and the remarks that are usually made when a young lady passes a crowd of well bred (?) young men are entirely foreign to these men, and they show their deference for the fair sex by being discretely quiet and keeping their eyes to themselves.

Dr. S. F. Scott, Blue Ridge, Harrison Co., Mo., says: "For whooping cough Chamberlain's Cough Remedy is 'excellent.'" By using it freely the disease is deprived of all dangerous consequences. There is no danger in giving the Remedy to babies, as it contains nothing injurious. 50 cent bottles for sale by Blakeley & Houghton, druggists.

## Castoria

For Infants and Children.

Castoria promotes Digestion, and overcomes Flatulency, Constipation, Sour Stomach, Diarrhoea, and Feverishness. Thus the child is rendered healthy and its sleep natural. Castoria contains no Morphine or other narcotic property.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me." H. A. ANGLIER, M. D., 111 South Oxford St., Brooklyn, N. Y.

"For several years I have recommended your 'Castoria,' and shall always continue to do so, as it has invariably produced beneficial results." EDWIN F. FAHNER, M. D., 125th Street and 7th Ave., New York City.

"The use of 'Castoria' is so universal and its merits so well known that it seems a work of supererogation to endorse it. Few are the intelligent families who do not keep Castoria within easy reach." CARLOS MARTINEZ, D. D., New York City.
