VOL. VII.

THE DALLES, OREGON, FRIDAY, MAY 25, 1894.

NO. 134

## SITUATION IS SERIOUS

A Series of Lively Battles and a Mine Wrecked.

### ASTORIA FISHERMEN ARE HAPPY

Senators Exonerated for Not Taking a Bribe—Gladstone's Eye Operated On Successfully.

UNIONTOWN, Pa., May 24.—A riot occurred at Stickle Hollow, in the coke region, this morning. The exact number killed and wounded cannot be ascertained yet, as they were carried from the ground as though mowed down by Winchester. At least three are dead, and half a dozen are seriously wounded. Shortly before midnight 2,000 rioters assembled at the Stickle Hollow plants of the Washington company. Some were armed, but the majority were not. They went into camp near the plant. At 3 o'clock they adjourned to a public road over which the workmen would have to pass. They stopped the first delegation of miners, who after a little persuasion turned back. At that moment the deputies were ordered to shoot at a range of about fifty yards. At the first volley the strikers ran in every direction. The deputies fired two more volleys, and were shooting when the last striker disappeared. Officials of the company say four strikers were picked up dead, and about half a dozen wounded carried away by their comrades. Other reports say six were killed and sixteen wounded. The company officials say the strikers served notice on them that they expected to assault the works, and the deputies considered the interference with the workmen the beginning of the assault. The strikers had made a demonstration all night, even threatening to visit the houses of workmen and give them the choice to quit work or die.

The shooting was not all on one side. The workmen were about to comply with the command, "Go home!" when the deputies rushed into the midst of the strikers, got possession of the workmen and marched them to the pit. A deputy sheriff fired the shot which opened the battle. Volley after volley was fired by each side at close range. The strikers' ammunition gave out and they were forced to flee. It is said the strikers were advancing on the deputies when the latter fired the first shot.

A large number of the strikers were arrested today who had guns and ammunition. Five are known to be killed and eight wounded. The killed are all strikers. Three deputies are among the wounded. Rainey has ordered four Gatling guns for his plants.

#### Strikers Wreck a Mine.

CENTRALIA, Ill., May 24.—Five hundred striking miners from the Duquesne and St. John's mines arrived here today on a freight train, and at the Big Four mine, operated by Potenger & Davis, demolished the machinery, filled the shaft with about 16 feet of debris, and smashed all the glass and sash. The total damage is estimated at \$2,000. The Big Four mines have been running with about 30 men, who yesterday refused to come out at the request of the local committee. The strikers left the city on foot for Odin, eight miles north, to shut down a mine there. The sheriff swore in 50 deputies, who were equipped with Winchester from the army here and left for Odin on a special train. The miners are armed with pistols and have plenty of ammunition.

#### Among Astoria's Fishermen.

ASTORIA, May 24.—The gill-net fishermen continue to make good catches, but, on account of the muddy condition of the water, owing to the freshet, the trapmen and seiners are not so fortunate. Estimates of the pack to date, based on receipts at Kinney's cannery, which made the first shipment on the river, indicate that the figures are equal to those for last season at the same time. There have been a large number of small fish taken, owing to the greatly increased number of small-meshed nets in use. The disbursement of money for the manufacture of cans will be much more this season than last, for the reason that

the egg-shaped can, a device patented by M. J. Kinney, and the oval cans used by other packers, cannot be finished by machinery, a fact which renders necessary the employment of additional hands in this branch of the business.

#### Will Exonerate Kyle and Hutton.

WASHINGTON, May 24.—The senate bribery investigation committee has sent the testimony taken in the first part of its inquiry, relating to the attempted bribery of Senators Kyle and Hutton, to the printer and will report to the senate within a few days the result of its investigation. It is understood the report will entirely exonerate Senators Hutton and Kyle in the matter.

#### The New Line to Australia.

LONDON, May 24.—Huddart, promoter of the Canadian Pacific mail route to Australia, said today in an interview that the British government had not promised to grant a subsidy to the new line, but he was very hopeful it would. He expects to put ships on the new line as fast as built. He will sail June 1st for Ottawa.

#### Gladstone's Eye Operated On.

LONDON, May 24.—Gladstone's right eye was successfully operated on for cataract today by Drs. Nettleship and Harbershon. No anesthetic was used. Gladstone bore the pain with fortitude. He is resting in a darkened room, and has no feverish symptoms.

#### A Series of Battles.

LA LIBERTAD, May 24.—There has been very fierce fighting since the 15th. A series of desperate battles have been fought. More than 3,000 troops have been killed and many more wounded. Decisive battles are now being fought.

#### A Servian Conspiracy.

BELGRADE, May 24.—The authorities have discovered a secret cartridge factory, and that millions of cartridges have been sent to the interior of the kingdom. The radical leader, Ranko Tajsic, has been arrested.

#### Have Settled Their Differences.

BUENOS AYRES, May 24.—A correspondent at Rio telegraphs that President Peixoto has sent a message to congress announcing that the differences with Portugal have been amicably settled.

#### Russian Lace Making.

The manufacture of Russian lace, in which women and girls are exclusively engaged, occupies upward of ten thousand peasant households. The work is done in the isbas or small log cottages. The appliances are very simple, and girls begin to work lace at the age of eight to ten years. The women not only make lace from different materials, such as linen and woolen threads and cotton silk, but they also make larger pieces, as shawls and dresses. The necessary material is obtained from the middle women, to whom the finished lace is sold, and who peddle it all over Russia. The earnings of the Russian lacemakers are insignificant. Working eighteen hours per day, a woman earns not more than the five-five rubles, or about eighteen dollars for the whole season.

#### Frozen on Shipboard.

Freezing machinery is provided on the great steamships plying between Australia and England by means of which mutton, frozen, is preserved and delivered in London in good condition. Australian flowers preserved in ice are also carried to London. At a special meeting of the committees of the national chrysanthemum society, held in London, some frozen blooms of chrysanthemums exhibited had been sent from Sydney, New South Wales.

A CONNECTICUT man got a divorce because "the defendant would not get up in the morning, nor call this plaintiff, nor do anything she was told."

Keep your eye on this proposition. We will give free to every new cash subscriber to the WEEKLY CHRONICLE a year's subscription to the great New York Weekly Tribune. This offer will be open until the first of July. Don't forget it—You get THE CHRONICLE for one year for \$1.50 and the Tribune as a premium. Old subscribers can have both papers by paying up arrears and renewing subscription at \$1.75.

#### Look at This.

All county warrants registered prior to May 1, 1894, will be paid at my office. Interest ceases after the 21st inst. Wm. MICHELL, County Treas. Dated May 19, 1894. 2m.

Better Than Pills

Druggists in Liquid, or in Powder to be taken dry or made into a tea.

The King of Liver Medicines. "I have used your Simmons Liver Regulator and can conscientiously say it is the King of all liver medicines. I consider it a medicine chest in itself."—Geo. W. JACKSON, Tacoma, Washington.

EVERY PACKAGE HAS THE Z STAMP IN RED ON WRAPPER.

#### Dufur Doings.

"Frosty May" will soon bid farewell. These warm days though will very soon tell. The farmer straightens up from head to foot. He thinks this fall he'll buy a "six-bit" suit.

Fine growing weather and bicycles on the increase.

Crops are looking splendid, promising a bountiful harvest.

Freighters are busy handling wool.

Mr. C. P. Balch is preparing for a trip to Warm Springs to enjoy its scenery (?) and bathe in the waters.

Dr. Deitrich was called to Juniper Flat by Dr. Pounds of Tygh to hold consultation.

Geo. McManemy, of the firm of Wright & Co., was in town Monday. He reports business favorable notwithstanding the times.

The U. B. church is holding camp-meeting at Tygh Valley. We wish them every success in their efforts.

Mr. A. J. Brigham will give a lecture in the U. B. church Saturday evening on the subject of "Government." It will no doubt be very interesting.

Johnston Bros. have received their new safe, which is considerably larger than the old one. It is burglar-proof, having inside a small vault of chilled steel that is impossible to penetrate. We understand that there is only one other of the kind in the county.

Judge O'Dey of Portland delivered an address, which was enjoyed by all as to his ready wit, by which he kept his hearers convulsed with laughter. Although on the democratic ticket, we would accuse him of being two-thirds populist, of which his speech was mainly based.

The May picnic was attended by a large crowd of people, who all seemed to be happy and in good spirits. The grove is very prettily situated on 15-Mile, about one-half mile above Mr. Bolton's. The day was perfect, and Mother Nature had done all in her power to make the surroundings attractive. The exercises of the day opened by the crowning of the May-queen, who was personated by little Amy Johnston, after which the May pole was wound by twelve merry lads and lassies, who wove the bright colors in and out in perfect rhythm to the lively music of the band. The next order of the day was dinner, with which everyone was well supplied, and for some time the air was filled with merry laughter, accompanied by the clatter of dishes and the delightful aroma of coffee. The small boy was seen in all directions clutching in one hand a drumstick of some unfortunate fowl that had been slain for the occasion, while the other was occupied by an orange or other signs of his gala day. A march or flag drill, which was performed by two dozen girls or so, was an interesting feature of the day. They bore flags of the different nations of the world. They went through the figures of the drill with a correctness that told of the careful training for which Mr. E. S. Hinman deserves great credit. Messrs. Isenberg, Jayne, Adams and Shelley, Judge Bennett, Prof. Frazier and others made a few remarks to the crowd. Music was furnished by the Dufur Brass Band. All who went expressed themselves as well satisfied with the day's entertainment, which was a grand success, as is everything Prof. Frazier undertakes. In the evening the young people enjoyed a hop, which ended the May picnic that will be remembered as a joyful event by all who were present.

#### Notice.

All city warrants registered prior to December 3, 1891, are now due and payable at my office. Interest ceases after this date. I. I. BURGER, City Treas. Dated Dalles City, May 15, 1894.

"As old as the hills" and never excelled. "Tried and proven" is the verdict of millions. Simmons Liver Regulator is the only Liver and Kidney medicine to which you can pin your faith for a cure. A mild laxative, and purely vegetable, acting directly on the Liver and Kidneys. Try it. Sold by all Druggists in Liquid, or in Powder to be taken dry or made into a tea.

It Will Pay You

To look over our Stock of

Gentlemen's Summer Underwear.

We are showing this season

The Largest and Most Complete Line

\*\*\* IN THE CITY. \*\*\*

Something for Everybody, At Prices to Suit You.

See Our Special FIFTY-CENT LINE.

A. M. WILLIAMS & CO.

#### FOREIGN NOTES.

An international cat show, has just closed a very successful season in London.

A NATIONAL collection of figureheads of old ships of war is to be made by the British admiralty. Figureheads will be taken from all old ships sold out of service in future and efforts made to reclaim all such relics from junk shops and scrap piles.

THE hard times have been severely felt in religious circles in England. The Additional Curates society which furnished funds to provide curates for poor parishes where adequate clerical services are not available, has had greatly to curtail its grants, withdrawing 170 grants in a total of 1,162. This will deprive as many curates of a large part, if not the whole of their income. The society hopes for better times this year.

WHEN Joseph Keppler revisited Vienna, his native city, a few years ago an editor there offered him a salary of fifty thousand marks a year for his services, an amount deemed fabulous by the Viennese. The artist in declining the offer remarked that he was earning two hundred thousand marks a year in New York.

#### Sacklen's Aranea salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by Snipes & Kinersly.

#### Notice.

All city warrants registered prior to December 3, 1891, are now due and payable at my office. Interest ceases after this date. I. I. BURGER, City Treas. Dated Dalles City, May 15, 1894.

#### DEATH TO HORSES.

How the Animals Are Used on the Arid Plains of Australia.

Mr. Gilbert Parker, in his "Round the Compass in Australia," describes a journey across the plains of the Darling river country in time of drought. From this description we extract a paragraph, horribly graphic, picturing the suffering of the horses.

It is a white and dreary plain. There is a line of straggling gum trees beside a feeble water course.

Six wild horses—brombies, as they are called—have been driven down, corralled and caught. They have fed on the leaves of the myall and stray bits of salt bush. After a time they are got within the traces.

They are all young and they look not so bad. We start. They can scarcely be held in for the first few miles. Then they begin to soak in perspiration. Another five miles and they look drawn about the flanks, and what we thought was flesh is dripping from them.

Another five, and the flesh has gone. The ribs show, the shoulders protrude. Look! A joler's heels are knocking against the whiffletree. It is twenty miles now. There is a gulp in your throat as you see a wreck stagger out of the traces and stumble over the plain, head near the ground and death upon its back. There is no water in that direction, worn-out creature.

It comes upon you like a sudden blow. These horses are being driven to death. And why? Because it is cheaper to kill them on this stage of thirty miles than to feed them with chaff at two hundred and fifty dollars a ton.

And now another sways. Look at the throbbing sides, the quivering limbs. He falls.

"Driver, for heaven's sake, can't you see?"

"I do, so help me God. I do. But we've got to get there. I'll let them out at another mile."

And you are an Anglo-Saxon, and this is a Christian land.

THE CHRONICLE prints all the news.

# Castoria

For Infants and Children.

Castoria promotes Digestion, and overcomes Flatulency, Constipation, Sour Stomach, Diarrhoea, and Feverishness. Thus the child is rendered healthy and its sleep natural. Castoria contains no Morphine or other narcotic property.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me." H. A. ASCHEM, M. D., 111 South Oxford St., Brooklyn, N. Y.

"For several years I have recommended your 'Castoria,' and shall always continue to do so, as it has invariably produced beneficial results." EDWIN F. PANDER, M. D., 125th Street and 7th Ave., New York City.

"The use of 'Castoria' is so universal and its merits so well known that it seems a work of supererogation to endorse it. Few are the intelligent families who do not keep Castoria within easy reach." CARLOS MARTIN, D. D., New York City.

THE CENTAUR COMPANY, 77 Murray Street, N. Y.

# PATENTS

Caveats, and Trade-Marks obtained, and all Patent business conducted for MODERATE FEES. Our Office is Opposite U. S. PATENT OFFICE and we can secure patent in less time than those remote from Washington.

Send model, drawing or photo, with description. We advise, if patentable or not, free of charge. Our fee not due till patent is secured. A PAMPHLET, "How to Obtain Patents," with cost of same in the U. S. and foreign countries sent free. Address:

C. A. SNOW & CO., OFF. PATENT OFFICE, WASHINGTON, D. C.

MEN'S Tailor-Made SUITS, MEN'S HALF HOSE,  
MENS' Tailor-Made PANTS, MEN'S NECKWEAR,
