The Coal Miners.

SPRINGFIELD, Ill., May 26.—Governor Altgeld today received many calls for arms, ammunition and troops. Rifles and ammunition were sent to the sheriff of La Salle county for use at Marseilles, also to Danville for use at the Mission Field mine. The sheriff of Christian county, at Pana, wired for troops late this evening, stating that several thousand miners were gathering there and that trouble is imminent. The governor at 6 o'clock ordered Colonel Culver, of the Fifth infantry, to proceed at once to Pana with five companies of his command. At 11 o'clock Colonel Culver left here with the following command: Companies C of Springfield, H of Decatur, I of Jacksonville and E of Petersburg, on a special train, over the Baltimore & Ohio Southwestern. They were joined at Taylorville by company B. The National Guard of Illinois, outside of Chicago, is pretty well occupied and will have all the business they can well attend to. Adjutant-General Orendorff has received a telegram from La Salle saying a mob of 200 from Ladd captured a train to come to La Salle. The regiment met them and captured 40, marched them to the county line and released them. Six were armed, and are held now as prisoners in camp. He does not expect any trouble tonight. General Orendorff and Lieutenant David J. Baker, jr., of the United States regular army, left for Pana at 11 o'clock tonight.

an injunction to restrain the strikers from interfering with the property and its employees. The court held that it is not in the power of the federal courts to protect the property of citizens of another state, and that by the constitutions of the country and state police power alone rests with the state authorities. In making this decision, which is at variance with the decision of another district court in the Coeur d'Alene case, the court holds that he regretted that he had to differ thus, and added: "If the government of this state has fallen into the hands of socialists, which is true, or of imbeciles, which is also probably true, it is most unfortunate for the state, but it cannot be held as a reason for this court to exercise police power."

Before the Bar of the Senate. WASHINGTON, May 26.—It is said that the recalcitrant newspaper men, who have refused to testify with regard to the alleged sugar trust influences in the matter of legislation, will probably be cited to appear before the bar of the senate Monday, on the instance of the senate investigating committee. If they still refuse to give the information desired they will be committed for contempt.

Ornel Man and Modera Woman. EL PASO, May 26.—The city council has decreed that no woman shall be allowed to walk or ride in the streets of El Paso wearing divided skirts. The councilmen declared the practice, which has threatened to become epidemic in certain circles, to be indecent and demoralizing. An ordinance was passed embodying these views.

Situation Growing Serious at Pana. PANA, Ill., May 26.—The situation is growing more serious every hour. The latest dispatches say mobs are en route from every section. The troops ordered here by the governor have arrived. Everything at this hour (midnight) is quiet. The troops have camped and placed separate companies at each shaft.

Militia in Camp in Alabama. BIRMINGHAM, Ala., May 26.—Four military companies went into camp at Ensey, near Pratt City, today at the order of Governor Jones, to maintain the peace in the strike region and guard property. The situation is more strained than ever.

In the Houtsdale District. CLEARFIELD, Pa., May 26.—Five hundred miners visited Woodland this morning to stop Overley's men from working. The situation in the Houtsdale district is grave.

How sad to our hearts are some scenes of our childhood. As our recollections present them to view: The use of the switch that was brought from the wildwood, And various punishments most of us knew. But saddest of all is the thought of the pill-box, that mother brought out then she thought we were ill; Of the griping, the aching, the twisting and torment Wrapped up in the horrible old-fashioned pill. But that's all done away with. To regulate the stomach, liver and bowels Dr. Pierce's Tablets excel. You'll experience no pain, no discomfort, no bad results. Children take them as readily as peppermint drops.

Malaria in any of its Forms. Chills and fever, congestive chills, can be prevented or cured by the use of Simmons Liver Regulator, a purely vegetable medicine, superior to calomel and quinine.

SPROUTS OF EXPERIENCE. THE artichoke a weed? Yes, more or less, we think. GIVE us barn cellar manure rather than barnyard manure. NARROW LONDON STREETS. A proposed law that any new building erected in London shall have its front not less than twenty feet from the middle of the street has brought out the fact that there are in the heart of the city thirty-two miles of streets less than forty feet broad. If the principle were generally applied, on a plan of reconstruction of streets, land to the value of about forty million dollars would be sacrificed.

A "DAMP-DETECTOR" is the latest invention to make miserable the traveler's life. It is a silver trinket, not unlike a compass in appearance. At the back are small holes in the silver, through which the damp passes and moves the needle until it points to the word "damp." By the aid of this un-aired sheet can be detected.

MADAGASCAR HAS a palm called the "Traveler's Tree." The footstalks of its leaves clasp round the trunk, and are filled with water, which flows out readily when the stalk is pierced with a knife. Each receptacle yields from a pint to a gallon.

LOFTY ATLANTIC WAVES. Heavy Ocean Waters That Swept Over a Steamer's Crow's Nest.

The New York daily papers all recorded the facts that the steamship Majestic, on her eastern trip, caught a sea that demolished her crow's-nest lookout, and that the Teutonic, which caught the same gale coming west, had one sea which combed over the crew's nest and carried away her forward port lifeboat as it went over the rail. But none of the daily papers took the trouble to mention just how the crew's nest on these ships is situated, and consequently how high that sea was. Inquiry by a Marine Journal representative discovered that while in men-of-war and many other ships the custom is to have the crew's nest in the foretop or a trifle above, the White Star ships have it at an altitude of twenty-five feet above the main deck on the foremast, reached by an iron ladder from the forward hurricane deck. In such a ship as the Majestic or Teutonic the height of the main deck at the fore-rigging is about forty feet above the level of the sea, which would make the height of the wave that carried away the crew's nest in this instance about seventy feet. This is a pretty big roller for the north Atlantic, but in other parts of the ocean such waves are often encountered in a storm. Supposing the ship to have been in the trough of the sea at the time this wave swept her the mean height of the wave might be calculated as not greater than forty feet, but it was certainly a body of water nearly seventy feet high from where the ship floated.

Dr. S. F. Scott, Blue Ridge, Harrison Co., Mo., says: "For whooping cough Chamberlain's Cough Remedy is excellent." By using it freely the disease is deprived of all dangerous consequences. There is no danger in giving the Remedy to babies, as it contains nothing injurious. 50 cent bottles for sale by Blakeley & Houghton, druggists.

THE CHRONICLE prints all the news.

A RUDE AWAKENING. It Generally Came to the Noddies During the Old-Time Church Service.

In the olden time church services were so long—prayers, hymns and sermons—that it is no wonder that many of the hard-worked people in the congregations could not keep awake. Both in the old world and in the new various devices were resorted to for the purpose of lulling sleep from the church. Among these was not the modern one of making the services short and interesting. Our English fathers tried several methods of breaking up the offensive practice. One method was that known as "bobbing," a term they explained by a writer in Notes and Queries: "My mother can remember Betty Finch, a very masculine sort of woman, being the 'bobber' at Holy Trinity church in the year 1810. She walked very majestically along the aisles during Divine service, armed with a great long stick like a fishing rod, which had a bob fastened to the end of it, and when she caught any sleeping or talking, they got a 'nudge.'" Dr. Thirlwall, bishop of St. David's, gives in one of his "Letters" an amusing account of a Kerry curate for awakening sleepers in church: "It is by ancient custom a part of the sexton's duty to perambulate the church during service time with a bell in his hand, to look carefully into every pew, and wherever he finds anyone dozing to ring the bell."

"He discharges this duty, it is said, with great vigilance, intrepidity and impartiality, and consequently with the happiest effect on the congregation, for as everybody is certain that if he or she gives way to drowsiness the fact will be forthwith made known through the church by a peal which will direct all eyes to the sleeper, the fear of such a visitation is almost always sufficient to keep everyone on the alert."

Castoria

For Infants and Children.

Castoria promotes Digestion, and overcomes Flatulency, Constipation, Sour Stomach, Diarrhoea, and Feverishness. Thus the child is rendered healthy and its sleep natural. Castoria contains no Morphine or other narcotic poisons.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me." H. A. ARCEMAN, M. D., 111 South Oxford St., Brooklyn, N. Y.

"For several years I have recommended your 'Castoria,' and shall always continue to do so, as it has invariably produced beneficial results." EDWIN F. PARSONS, M. D., 120th Street and 7th Ave., New York City.

"The use of 'Castoria' is so universal and its merits so well known that it needs a work of supererogation to endorse it. Few are the intelligent families who do not keep Castoria within easy reach." CARLOS MARTIN, D. D., New York City.
