To Arbitrate Today.

CRIPPLE CREEK, May 27.—The delegation from Colorado Springs, consisting of Dr. Slocum, president of the Colorado college; C. C. Colais, president of the trades assembly; L. W. Bates, president, and Charles Geissler, secretary, of the carpenters' union; D. H. Hogan, of the carpenters' union, and the Rev. E. E. Van Surrington, all of Colorado Springs—came to the city this morning, with the hope that something might be done to settle the controversy that has arisen in connection with the strike. The gentlemen reached this city at 9 o'clock and soon after left for Altman for a conference with the miners. They were very courteously received by President Calderwood and other representatives of the union. A conference was held, at which it was stated the delegation, entirely of its own responsibility, had come in the interest of peace and the arbitration of all differences. After a conference all the miners in the vicinity congregated about the building in which the meeting was held, and Dr. Slocum addressed them, stating the conditions upon which arbitration could be brought about. He was cordially received by the crowd, and loudly applauded. He was followed by Mr. Van Surrington, who further explained the reasons which had brought the delegation, and then Mr. Colais addressed the audience. A meeting of the miners' union has been called for 10 o'clock tomorrow morning, and there is every reason for thinking that a committee will be appointed which will attempt to arbitrate and settle the whole trouble. The principle of arbitration is one of the fundamental ideas of the union, and it is believed that an understanding can be reached.

Altgeld for Help.

SPRINGFIELD, Ill., May 27.—The sheriff of Woodford county telegraphed Governor Altgeld this evening from Minonk that a mob of strikers are obstructing coal traffic on the Illinois Central road. He said that he and the municipal authorities have done all they could, and called for help. The governor ordered two companies of the Fourth regiment to start for Minonk at once to aid the sheriff. All is quiet tonight, but the miners refuse to allow coal trains to leave. Colonel Bennett, at La Salle, wires that all has been quiet there today and this evening. Assistant Adjutant-General Baile, at Pana, wires that everything is peaceful. Two companies of troops were withdrawn from Pana this afternoon. Those left, it is thought, will be sufficient to preserve order.

THEY COULD NOT SPEAK ENGLISH.

LA SALLE, Ill., May 27.—After a conference between Sheriff Taylor and his military staff, it was decided to head the striking miners off in Peru, and five companies of militia were ordered to fall in. The mob was encountered near the Peru line, and was ordered to throw up their hands. Being strangers to the English language, they failed to comply, and started to run in all directions. The troops were sent in pursuit, and although there were several hand-to-hand encounters, nothing serious ensued. A large number of strikers were arrested.

The Railroads Suffer Greatly.

TERRE HAUTE, May 27.—It is said here tonight the Chicago & Eastern railroad, by advice of its counsel, has decided to appeal to Governor Matthews to order out the militia in order to move the coal train captured by the strikers at Clinton Locks, which the railroad wanted to take to Danville for its own use. The local counsel of the road considered the situation grave, so much so that an appeal for troops will be made. All trains from the Evansville & Terre Haute were held up at Shelburn, south

of this city, and examined today by the strikers. When coal was found the cars were sidetracked. On the Big Four the trains were also held up and examined. The miners' wives are still in charge of the Big Four coal chutes, and refuse to let the company put fuel on its engines.

Now a Coxeyite.

TOPEKA, May 27.—H. U. Artz, who was removed from the adjutant-generalship of Kansas by Governor Lewelling, will lead the Topeka contingent of the commonwealth army to Washington. Gen. Sanders received a company of thirty-eight men here tonight, and Artz was elected captain, C. J. Foster first lieutenant and C. W. Simpson second lieutenant. The company leaves here Tuesday for Leavenworth, arriving there in time to board the "Commonwealer," which, General Sanders says, will start for St. Louis that day. Captain Artz says he wants to make the trip, so that he can discuss the Coxey movement intelligently before the people in the fall campaign.

Down in Alabama.

BIRMINGHAM, Ala., May 27.—Four more companies of state troops arrived here this morning and went into camp at Enslly City, because of threats by the striking miners. Nearly 1,000 soldiers are now encamped at Enslly within a mile of the Pratt mines, the abode of 3,000 strikers. The strikers do not seem to be overawed in the least by the presence of so many troops, as is shown by two manifestations of violence. Late last night a party of strikers, lurking in the woods, were fired upon by the guards. About 80 shots were exchanged when the strikers fled. So far as known no one was hurt.

A Row Over Religion.

PALATKA, Fla., May 27.—This afternoon John Kane was shot in the head and dangerously wounded by Ernest Wolf. Wolfe is a German and a member of the American Protective Association, while Kane is an Irish Catholic. Wolf is under arrest and Kane may die. About a month ago Dnnford and Nix, American Protective Association agents, who were trying to organize a lodge of the society at Palatka, were nearly beaten to death for saying that all Catholic women and priests were immoral. The shooting today was the outgrowth of that affair.

Says He Will Import Negroes.

PITTSBURG, May 27.—W. P. Rend, of Chicago, operator of the Jumbo mines, in the Panhandle district, has given his miners a week to return to work or submit to having their places filled by imported negroes. He has stacks of Winchester and boxes of ammunition in his mine offices to enforce the resumption. The miners are realizing that if Rend could get these mines in successful operation it would practically break the strike, and many of the men swear they will shoot the negroes if they are brought in.

A Heavy Gale on Lake Superior.

DEER PARK, Mich., May 27.—A heavy northwest gale is raging on Lake Superior tonight, accompanied by a snowstorm. The tug Albert B. Smith, because of the cold, was obliged to abandon her fleet of many million feet of lumber in the middle of the lake today. The Thompson dropped her raft also, and came in for shelter.

Sale of Bonds.

I will sell on the 31st day of May, 1894, \$8,000 in bonds of Hood River school district, bearing 7 per cent interest, payable semi-annually. They will either be sold in parts of \$1,000 each, or the entire \$8,000 at one time, or any number of the eight bonds of \$1,000 each, to the highest bidder for cash. These bonds are redeemable in twenty years or after ten years if convenient for the district.

HER FATHER'S DINNER.

A Pretty Sight Witnessed on a New York Street Car.

Car No. 193 went rattling up Fourth avenue the other noon at a great rate. A breakdown in the Bowery had blocked the track and delayed travel nearly half an hour. To make up the lost time the horse tore along and the car bobbed up and down like a sun-baked dug-out dancing on the bay.

No stop was made to take on passengers, nor did the driver slacken speed until he reached Twenty-seventh street. Then he began to whistle softly and study the people along the west side of the avenue. He was a slightly-built man about forty years of age, but weather-beaten, bent and wrinkled from exposure and unremitting toil.

As the car approached Twenty-ninth street it slowed up and the tune became merrier and louder, says the New York Evening World. Then both stopped for a moment and a little girl in a gingham dress and a Tam O'Shanter, with dancing brown hair and apple-red cheeks, came up to the front platform and, with a "hello, papa!" that made her blue eyes twinkle and her red cheeks dimple, laid a lunch basket at the driver's feet. A passenger who stepped aside looked at the child with admiration and at the man with envy, then gave a sigh and continued smoking.

Like a deer she flew across the cobblestones, the sun and wind gilding and tangling her beautiful hair, and reaching the sidewalk she waited with her little hand pressed to her mouth. She watched the car with childish eagerness until a figure leaned over the step and a bronzed face turned smilingly toward her, and then she threw the kiss that sweetened the noonday and seasoned the dinner of a happy man.

OLD BURIAL CUSTOMS.

The Way Funerals Are Conducted by Different Races.

The Mohammedans always, whether in their own country or one of adoption, bury without coffin or casket of any kind.

The Greeks sometimes buried their dead in the ground, but more generally cremated them, in imitation of the Romans.

In India, up to within the last few years, either according to her wishes or otherwise, was cremated on the same funeral pyre that converted her husband's remains into ashes.

When a child dies in Greenland, says the Chicago Mail, the natives bury a live dog with it, the dog to be used by the child as a guide to the other world. When questioned in regard to this peculiar superstition, they will answer: "A dog can find his way anywhere."

The natives of Australia tie the hands of their dead together and pull out the nails; this is for fear that the corpse may scratch its way out of the grave and become a vampire.

The primitive Russians place a certificate of character in the dead person's hands, which is to be given to St. Peter at the gates of Heaven.

Limits on Natural Vision.

The limit of natural vision varies with elevation, condition of the atmosphere, intensity of illumination and other modifying elements. On a clear day an object one foot above a level plain may be seen at a distance of 1.31 miles; one 10 feet in height, 4.15 miles; one 20 feet high, 5.86 miles; one 100 feet high, 13.1 miles; one a mile high (as the top of a mountain), 95.25 miles. This allows 7 inches, or to be more exact, 6.99 inches to the mile for the curvature of the earth, and assumes that the size and illumination of the object is sufficient to produce an image.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me." H. A. ANGER, M. D., 111 South Oxford St., Brooklyn, N. Y.

"For several years I have recommended your 'Castoria,' and shall always continue to do so, as it has invariably produced beneficial results." EDWIN F. FARRAR, M. D., 125th Street and 7th Ave., New York City.

"The use of 'Castoria' is so universal and its merits so well known that it seems a work of supererogation to endorse it. Few are the intelligent families who do not keep Castoria within easy reach." CARLOS MARTY, D. D., New York City.
