DROWNED IN BED

A Clam Calamity Caused By the Columbia.

SUED BECAUSE THEY ARE DEAD

Hopkins and Crocker Sued by the Government-Huntington's Turn Will Come Next.

Suit Will Be Brought.

SAN FRANCISCO, June 14.—The Chronicle has a special from Washington which says the United States will bring suit for \$15,000,000 each against the Crocker and Hopkins estates for the recovery of the debt owed by them to the government, as stockholders in the Central Pacific Railroad company. Olney has placed the whole matter of governmental action with reference to the Central Pacific railroad's debt in the hands of Assistant Attorney-General Russell. Though Olney is friendly to the railroad corporations of the country, and has confessed no faith in such proceedings, he finds himself compelled, by the pressure brought to bear by the president and other members of the cabinet, to carry out the plan of suing the stockholders of the Central Pacific, as has been urged upon him for some time past. He prefers therefore to place the responsibility for a course for which he has no taste in the hands of Russell, a man who appears to receive the respect of all the interested parties. Under the law, suit cannot be brought against Huntington until he dies or the debts mature.

Dolph or Hermann.

WASHINGTON, June 14.—A paragraph appeared in the News tonight saying that Senator Dolph was not going to be allowed to make the race of the senate unhindered; that representative Hermann had many friends in the legislature who would push his claims. The article was very complimentary to Hermann, eulogizing his work in congress. Dolph says he don't know whether Hermann is a candidate or not, and Herman says he knows nothing about it; that he has given no consideration to the senatorship, and knows nothing about the preferences of the various members, or even how many representatives have been elected to the legislature. There is a possibility of Hermann being chairman of the committee on rivers and harbors in the next congress, and while he might not want to throw the senatorship over his shoulder, still he will be well fixed in the house.

The Panama Fire.

COLON, June 14.—Dispatches from Panama show that the fire in that city yesterday was much more destructive than was at first reported. The facilities for fighting the flames were limited. The water supply apparatus was useless, and the efforts of the fire department could only be used in keeping the fire in the smallest possible district. The property destroyed included several blocks of buildings. Many buildings were occupied as dwellings, and a great many persons are without homes. Measures are being taken to care for these. The losses will foot up \$2,000,000, but the confusion is so great that it is still early to give a positive estimate.

Salmon Receipts Light.

ASTORIA, June 14.—The freshest and fewest days of rough weather have been instrumental in again making salmon receipts light, and the boats for several days past have not averaged more than seven fish each. The largest hauls are almost invariably taken close to the breakers at Sand island, and in the shallow water alongside the jetty, but fishing at these points is exceedingly dangerous, unless the water is calm. A change for the better occurred Wednesday, however, and a good catch may be expected from this time on.

To Contest with Breckinridge.

LOUISVILLE, June 14.—Regarding the story from Lexington yesterday, General Basil Duke says it is true he had tacitly understood that Major McDowell would make the race for congress in the

Asbland district, should Breckinridge be renominated. He told Major McDowell that he ought not to run as a republican, but as a non-partisan. The major took the same view, adding he had become partially reconciled to the plan of making the race as the representative of those who believe Breckinridge's own confession should cause the latter's rejection.

Bridges Burned.

PITTSBURG, Pa., June 14.—Two hundred Monongahela strikers this morning hearing that new men were expected to arrive, assembled at the bridge on the Belle Vernon branch of the Pittsburgh, McKeesport & Youghiobgen railway, near Elkhorn, drove the watchman away and set fire to the structure. Traffic is suspended. The railway trestle at the Old Eagle mine, on the Pittsburgh & Lake Erie road, was also burned about daylight by incendiaries. The work is attributed to the strikers. Extra precautions have been taken on other trestles to prevent further stoppage of trains, and guards are ready to quell any indications of trouble.

Rough on the Clams.

ASTORIA, June 14.—Residents on Clatsop beach say that the supply of clams is likely to be almost exhausted in the course of a few weeks, on account of the vast volume of fresh water which is rushing down the Columbia. Already they are becoming scarce, and what have been dug during the past few days are very poor. After the great flood of 1876, similar conditions were noticeable, and the supply was light for over a year afterward.

Attacked the Militia.

BEACH CITY, O., July 14.—Miners fired upon the pickets one mile below here this morning, and the fire was returned. The first attack was made about midnight and the second at 3 o'clock this morning. An attack was made on company A at the second bridge below here, also an attempt was made to destroy the bridge, but was unsuccessful.

Honor to One of the First Patriots.

CHICAGO, June 14.—Chicago pioneers today erected a flag over the almost forgotten grave of David K. Kennison, the last to die of the members of the "Boston Tea Party." The patriot was buried in the old Chicago cemetery, now a part of Lincoln Park, in 1852, having died at the age of 115. A monument bearing a bronze bust of Kennison will be erected over his grave.

Nothing on the Dollar.

DENVER, June 14.—The assets of H. B. Chamberlain, having a face value of \$2,000,000, has been sold at auction for \$100. The assets of the Chamberlain Investment Company, consisting of shares and deeds, aggregating \$6,000,000, are likewise worthless. Assignee Ellsworth has not a dollar to pay proved claims of \$2,000,000.

Kelley's Bluff Didn't Go.

HENDERSON, Ky., June 14.—Kelley's army, 1200 strong, landed just below the city at noon today. Kelly called on Mayor Johnson and demanded aid, saying that if it were refused he would turn the entire herd loose. The mayor told him to do as he pleased, also adding that he would be controlled by the city authorities.

Captain Ainsworth's Estate.

SAN FRANCISCO, June 14.—A partial appraisal of the estate of the late Captain J. C. Ainsworth reveals that he was a very wealthy man. In Alameda county alone his estate is valued at \$460,000. The estate in Oregon is valued at \$600,000, but no appraisal has yet been made of his interests in Southern California and Idaho.

Those who have a

have little sympathy for the dyspeptic. They can eat everything that comes along. While they can eat rich food without fear of the dyspeptic's bad experiences, they nevertheless greatly appreciate a delicate flavor in their pastry.

Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & Co., Toledo, O. How sad to our hearts are some scenes of our childhood.

As our recollections present them to view: The use of the switch that was brought from the wildwood.

And various punishments most of us knew. But saddest of all is the thought of the pill box, that mother brought out then she thought we were ill. O! the gripping, the aching, the twisting and torment. Wrapped up in the horrible old fashioned pill. But that's all done away with. Persons who sympathize with the afflicted will rejoice with D. E. Carr of 1235 Harrison street, Kansas City. He is an old sufferer from inflammatory rheumatism, but has not heretofore been troubled in this climate. Last winter he went up into Wisconsin, and in consequence has had another attack. "It came upon me very acute and severe," he said. "My joints swelled and became inflamed; sore to touch or almost to look at. Upon the urgent request of my mother-in-law I tried Chamberlain's Pain Balm to reduce the swelling and ease the pain, and to my agreeable surprise, it did both. I have used three fifty-cent bottles and believe it to be the finest thing for rheumatism, pains and swellings extant. For sale by Blakeley & Houghton, druggists.
