- JUNE 19, 1894 TUESDAY,

WHEAT AND ITS MARKETS.

will be a little late in ripening, but the ground is full of moisture and the crop is reasonable safe. What the price will Regulator this morning to attend the be is therefore a pertinent question. grand lodge, Woodmen of the World. That it will be low seems as certain as that the crop will be large. We base the assertion on crop conditions in other countries. A few years ago we supplied but is all right again.

Deputy County City In Street appearance for two weeks. He has had a painful siege of inflammatory rheumatism, but is all right again. the world with wheat, our only competitor being Russia. Of late years India has taken the sale of from fifteen to twenty-five million bushels from us yearly.

Notwithstanding this, the increase of this date. population, both at home and abroad, kept up reasonably well with the increased supply, and so maintained fairly good prices. Within the past three that not only promises to cut us out, but is already doing so. Argentine five these warrants. Interest stopped May years ago shipped 500,000 bushels of 21st. wheat to Europe. Two years ago she shipped 15,000,000 bushels, and a year ago 34,000,000 bushels. Of her last crop, harvested in December and January, she has shipped in four months over 28,000,000, and will add nearly 20,-000,000 bushels more for the season. Her ability to raise wheat, and to raise it cheaply, has been demonstrated, Her broad prairies, like those of Illinois, are prolific and easily cultivated. Rail- at this office. roads are cheaply built, and, although it nearly broke the Barings, they furnished England a new source of supply for her breadstuffs.

She has taken a large slice of our market, yet she cannot hold it long, for another rival, and a powerful one is purposing to contest for the supremacy with her. The railroad from St. Petersburg to Vladivostock will soon be completed, running for 4000 miles through the steppes of Siberia, every mile of which is a natural wheat field. Labor there is cheap, and Argentine must look

The day of wheat raising in the United States, except for our own consumption, is drawing to a close. We can compete with the world in meat products, and our grain must find markets in that shape. Beef, mutton and pork must solve the question of surplus farm prodzets, aided by the dairy. Until this is Of Des Moines, Iowa, writes under date done, there will be hard times for the farmers. The market is gone, and unless there are famine conditions, the Gentlemen price of wheat will never again, even ander the beneficent reign of Grove, reach the dollar mark. We must raise something besides wheat, and the mooner we solve the problem as to what

sensible thing Saturday while the wool schedule was under discussion, in making an effort to put a tariff on shoddy. Under the present tariff laws a premium is placed on the manufacture of shoddy, and the poorer people, especially of the eastern states, are furnished this material instead of good honest woolens. Rags, the cast-off garments of all Europe, are imported, worked over, and made into cloth for American workmen, while American wool is selling at seven or eight cents a pound. Vest, although a democrat, could see the iniquity of this business, and that protection to the American wearer of woolen goods would be a good thing in spite of the fact that incidentally it would also protect the American wool-grower.

A prohibitive duty on shoddy will make a market for ten millions of dollars worth of wool, and it will give the American laborer good honest material for clothing. It is quite possible the administration democrats will insist upon keeping shoddy on the free list, just because it savors of protection to the wool-grower, but we doubt it. It is suggestive that the negative policy of the party creeps out even in this movement, for the tariff is proposed to be placed on shoddy just because it has heretofore been free.

La Grippe.

During the prevalence of the grippe the past seasons it was a noticeable fact that those who depended upon Dr. King's New Discovery, not only had a speedy recovery, but escaped ail of the troublesome after effects of the malady. This remedy seems to have a peculia power in effecting rapid cures not only in cases of la grippe, but in all diseases of throat, chest and lungs, and has cured cases of asthma and hay fever of long standing. Try it and be convinced. It won't disappoint. Free trial bottles at MINERAL WATER, CIDER, Snipes & Kinersly's drug store.

Great reduction in the price of graniteware. See our center window. Prices marked in plain figures.

Wasco County, -

The Gate City of the Inland Empire is situated at the head of navigation on the Middle Columbia, and is a thriving, prosperous city.

ITS TERRITORY.

It is the supply city for an extensive and rich agricultural and grazing country, its trade reaching as far south as Summer Lake, a distance of over two hundred miles.

The Largest Wool Market.

The rich grazing country along the eastern slope of the Cascades furnishes pasture for thousands of sheep, the wool from which finds market here.

The Dalles is the largest original wool shipping point in America, about 5,000,000 pounds being shipped last year.

ITS PRODUCTS.

The salmon fisheries are the finest on the Columbia, yielding this year a revenue of thousands of dollars, which will be more than doubled in the near future.

The products of the beautiful Klickitat valley find market here, and the country south and east has this year filled the warehouses, and all available storage places to overflowing with their products.

ITS WEALTH.

It is the richest city of its size on the coast and its money is scattered over and is being used to develop more farming country than is tributary to any other city in Eastern Oregon.

Its situation is unsurpassed. Its climate delightful. Its pos sibilities incalculable. Its resources unlimited. And on these corner stones she stands.

THE CELEBRATED COLUMBIA BREWERY, AUGUST BUCHLER, Prop'r.

This well-known Brewery is now turning out the best Beer and Porter east of the Cascades. The latest appliances for the manufacture of good health ful Beer have been introduced, and on v the first-class article will be p'aced on d be market.
