THE DIAMONDS CUT

And They Cut the Rothschilds Family Badly.

THE NIGGER IN THE WOODPILE

The O. R. & N. to Have Its Own Receiver, and to Issue Bonds for Rebuilding.

A London Sensation.

New York, June 20.—The Press this morning prints the following: London, June 19.—Senator Teller's proposed high tariff on diamonds is causing a sensation here where the Rothschilds have recently bonded four and a half million sterling (nearly \$20,000,000) of bonds for the South African Diamond Trust. Besides bonds, the Rothschilds are known to be very largely interested in the stocks of the diamond trust. The proposed high tariff would produce a great fall in the value of the immense stock of unsold diamonds on hand, and greatly reduce the dividends to holders of the trust's stocks, which for years past has been 25 per cent. A cable received by the officials of the trust from Premier Rhodes, of Cape Colony, it is stated, declares that Secretary Carlisle promised last March that the senate would modify the high duty put on diamonds when the Wilson bill passed the house. Teller's amendment increasing the duty to 30 per cent is regarded as a blow aimed by the leader of the American free silver men at the Rothschilds, the leading bankers in the Europe, who have done so much to maintain the single gold monetary standard. The Colorado senator and ex-Speaker Reed have considered various forms of discriminating duties against those countries which oppose an international agreement for free use of silver.

Will be two Reports.

WASHINGTON, June 19.—George W. Silsby, broker, through whom the son of Senator Ransom had dealings in sugar stocks, was asked by the investigating committee today how the order slip containing Ransom's name became public. Silsby said the answer would probably involve a reference to criminal proceedings and he must decline to reply. He was temporarily excused. The inference is that the slip was stolen from his office. He said Senator Ransom had not speculated. John W. McCarthy, broker, declined to give the committee any information as to his private orders for sugar stock, or say whether senators had been among his customers.

Lester, the telegraph operator for Carson & McCarthy, declined to answer questions as to whether he had wired orders for sugar stocks, and was excused after a very brief examination. Senator Davis expected to make the report of the majority of the committee on Havemeyer and Searles to the district attorney tomorrow, but Gray and Lindsay desired to present a minority and that of the majority has been withheld, so it might all be done at once. Gray and Lindsay think the questions which Havemeyer and Searles refused to answer are not pertinent to the investigation.

A Town Flooded.

WICHITA, Kan., June 19.—A heavy storm visited this county last evening. At Mulvaney, 12 miles south, a cloudburst flooded the county. Water covered the Santa Fe railroad tracks so as to put out the fires in the engines. Mulvaney was under water to a depth of eight or ten feet and many houses were moved off their foundations. Boats were improvised from wagon beds and rafts made of lumber were launched and twenty families rescued by this means. There were no casualties, but the property loss is heavy. The water subsided rapidly.

Bonds for the Canal.

WASHINGTON, June 19.—The details of the Nicaragua canal bill, which will be reported to the house, were practically closed up at a meeting of the subcommittee today. There will be recommended a directorate of 11 members, eight being government directors, one representative of the company, one

from Nicaragua and one from Costa Rica. Three government engineers will have charge of the work. It will be provided that dividends shall not exceed five per cent, so that a sinking fund may be established. The government share of dividends will be credited to a sinking fund. Some members of the committee think the debt can be raised in 25 years on the lines laid down. Bonds were practically decided upon today for the whole amount, as the proposition to coin silver involved troublesome complications and opposition. However, that section of the bill is subject to change, so that if any plan involving the use of silver seems practicable, it can be adopted.

To Repair Damages.

OMAHA, June 19.—Today it was announced at Union Pacific headquarters that one of the first problems McNeil will have to solve will be the repairs to the road between Umatilla and Portland, a distance of 187 miles, which has been seriously damaged by the recent high waters in the Columbia. It is thought the receiver's first action will be to issue receiver's certificates for the repairs of the system, which it is estimated, will cost anywhere from \$1,000,000 to \$1,500,000, these certificates to become a first lien upon the property.

Struck by a Cloudburst.

LOCK HAVEN, Pa., June 19.—A cloudburst in Penna valley last night washed away entire fields of growing grain. The damage is greater than that inflicted by the recent flood. The downpour was accompanied by a severe electric storm. Three boys, William and Eddie Lore and Charles Hunter, who took refuge under a tree, were struck by lightning. Eddie Lore and Hunter were fatally injured.

To Make a Reduction.

OMAHA, June 19.—It was announced today at Union Pacific headquarters that the receivers would, about July 1, dispense with the services of twenty-five clerks, and, perhaps, abolish one or two departments, as the result of the reduced work. This is regarded as the first substantial evidence that the Oregon Railway & Navigation's affairs are to be run separately after July 1.

Are Importing Negroes.

SCOTTDALE, Pa., June 19.—While the old men are still holding out in the coke region, the importation of negroes is gradually breaking the strike. Many Slavs and Hungarians, disgusted at the long idleness, are leaving, never to return. Secretary Darby, of the miners union, has resigned. This has a depressing effect on the strikers.

Ten More Mines Resume.

PITTSBURG, June 19.—Ten more coal works in this district resumed today under the Columbus agreement, among them one in the thick vein region, where the operators refuse to pay more than 52 cents a ton. At Manown the miners decided to go to work when non-union men were dismissed. The operators refused to discharge them.

Ordered to Resume Work.

ST. LOUIS, June 19.—The receiver of the Loomis Coal Company, controlling the coal mines at Bevier, Mo., and other points, has been directed by the United States court to resume work at once, importing non-union miners if necessary. In consequence United States deputy marshals are being concentrated at Bevier.

Reserve Very Low Again.

WASHINGTON, June 19.—The cash balance in the treasury today is \$114,021,047, of which \$62,423,623 is gold reserve. Engagements for export already made, however, will reduce this reserve to \$66,923,424. This is within a small amount of the lowest point reached previous to the last bond issue.

Teller's Diamond Amendment.

WASHINGTON, June 19.—At the request of Senator Teller, his amendment to increase the duty on diamonds from 15 to 30 per cent ad valorem, which would restore the rate fixed by the house in the Wilson bill, was passed over. It will be considered again before the bill is reported.

MORE DEATHS THAN BIRTHS.

A Rapid and Ominous Decrease in the Population of France.

Statistics are very dull, and dullness is a thing to be shunned by all well-regulated persons, says a writer in the Philadelphia Telegraph, but an article has just appeared in the Journal Officiel which is not quite uninteresting to France and the French. During the year 1893 the deaths in France exceeded the births by over twenty thousand. Hitherto the population had been about stationary, but this national deficit is serious. The French, from the highest to the lowest, do not care for large families, alleging, justly enough, that children are expensive articles. Did not a cook the other day lay her woes over the death of her first born open to her sympathizing mistress? "That baby cost me first and last not less than three hundred dollars," quoth the bereaved mother, "and after all that expense it only lived three weeks!" The birth-rate is about as usual in France, at the ratio of twenty-two births for every thousand inhabitants, but the increase in mortality is frightful, and is attributed by the medical authorities entirely to grippe, which they state has made more victims than the great cholera epidemics ever killed in one year. It is also solemnly set forth that the children who were born at the time of the war of 1870 are adding to the mortality by expiring now; but as these great medical lights state that the children born during the siege generally died in their infancy, owing to their privations, it is difficult to see why the mortality among the "war babies," as they were called, should have ceased for twenty whole years to spring up again suddenly. However, there is the unpleasant fact that the population of France, if something is not done, will speedily resemble, in this large and pleasant land, the relative proportions preserved by a single huckleberry sailing gravely in a very large bowl of milk.

Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

WALTER BESANT, among other reasons for his opposition to woman suffrage, says that men have to do the conquering, the defending and the providing, and they ought to do the governing.

"Many of the citizens of Rainsville, Indiana, are never without a bottle of Chamberlain's Cough Remedy in the house," says Jacob Brown, the leading merchant of the place. This remedy has proven of so much value for colds, croup and whooping cough in children that few mothers who know its worth are willing to be without it. For sale by Blakeley & Houghton druggists.

Persons who sympathize with the afflicted will rejoice with D. E. Carr of 1235 Harrison street, Kansas City.

He is an old sufferer from inflammatory rheumatism, but has not heretofore been troubled in this climate. Last winter he went up into Wisconsin, and in consequence has had another attack. "It came upon me very acute and severe," he said. "My joints swelled and became inflamed; sore to touch or almost to look at. Upon the urgent request of my mother-in-law I tried Chamberlain's Pain Balm to reduce the swelling and ease the pain, and to my agreeable surprise, it did both. I have used three fifty-cent bottles and believe it to be the finest thing for rheumatism, pains and swellings extant. For sale by Blakeley & Houghton, druggists.

BUDA-PESTH avoids trolley accidents by having her electric railroad underground. VALUABLE opals, worth from \$5 to \$40 per carat, have been found in Owyhee county, Idaho.

Dr. S. F. Scott, Blue Ridge, Harrison Co., Mo., says: "For whooping cough Chamberlain's Cough Remedy is excellent." By using it freely the disease is deprived of all dangerous consequences. There is no danger in giving the Remedy to babies, as it contains nothing injurious. 50 cent bottles for sale by Blakeley & Houghton, druggists.

JACKSONVILLE has two hotels which, together, cost over \$5,000,000. LOUISVILLE is the Falls-City, from its position at the falls of the Ohio.

A lady at Tooleys, La., was very sick with bilious colic when M. C. Tisler, a prominent merchant of the town gave her a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. He says she was well in forty minutes after taking the first dose. For sale by Blakeley & Houghton, druggists.
