GOLD NEAR UNION

A Four-Foot Ledge Rich in Gold and Silver.

HE CAUGHT THE FULL CURRENT

The Senate Committee's Job of White-washing About Done and They Are All Clean.

Free Silver Democrats.

OMAHA, June 21.—There were 1000 delegates in the democratic conference which opened today for the purpose of organizing a state free coinage league. After the election of W. R. Thompson, of Grand Island, as permanent chairman, and J. H. Galvin, of Ateshison as secretary, and the appointment of a committee on resolutions, the conference adjourned until evening. The report of the committee was as follows:

"We send greeting to our fellow democrats of Nebraska, and invite their earnest co-operation and aid in electing delegates from every county in the state to the democratic state convention of 1894 pledged to vote for the insertion in the democratic state platform of the following plank:

"We favor the immediate restoration of the free and unlimited coinage of gold and silver at the present ratio of 16 to 1, without waiting for the aid or consent of any other nation on earth."

"In the effort to obtain a fair expression of democratic sentiment, we urge upon every democrat who believes in the principle herein enunciated, to participate actively and vigorously in the selection of delegates to the state convention. We recommend that in every county of the state the democrats who oppose this proposed plank be invited to a thorough discussion of its merits to end that the democratic party may act intelligently and harmoniously upon this great question.

"We propose that this contest shall be fought out upon clean lines, and with intelligent methods, but, confident in the correctness of our position, we also propose that the fight shall be vigorous, and that no effort shall be spared to place in the platform of the democratic party the same emphasis, the same unmistakable utterance concerning the great question of finance, that has been lastingly imprinted upon our party platforms concerning the great question of tariff reform."

Supposed Wheat Pest.

The farmer of Douglas county are at present considerably exercised over the appearance of a very small green insect upon the wheat. A close inspection of the heads shows them to be very numerous between the rows of grain, and it is feared they are some species of destructive pest. They were first discovered on the lower Calapooia, but seem to be general over the county, and samples of infected heads were left at the Roseburg Review office Saturday from Looking Glass, and also from fields up the river east of town. As nothing of the kind was ever seen in the county before, the farmers are naturally very anxious to know just what the result will be, and what the little visitors propose to do. Some think them harmless and believe they will soon disappear without doing any damage. A. E. McGee, of Looking Glass, however, says that he is sure they are the same kind that he saw in Indiana in 1889, where they were known as the "wheat aphid," and totally destroyed thousands of acres of grain, rendering it unfit even for hay. We can only hope that he is mistaken—otherwise the loss to the farmers may be very heavy. Possibly the unusual amount of rain at this season of the year is responsible for the appearance of this insect.

A Lineman Killed.

ROCHESTER, N. Y., June 21.—Stephen Kirk, a lineman employed by the Bell Telephone Company, was working on a telephone line over which there was a network of telephone, electric light, telegraph and street car trolley wires. A fellow workman let the wire on which Kirk was working sag too much and it

touched the trolley wires. Kirk, who was grasping it, received the full force of the current from the trolley wires. Agonized screams broke from the man's lips as he endeavored to free himself from the wire. He struggled a moment, then toppled over, and was caught by the heels. The current was so strong that it held him fast to the wire almost by the heels. He hung head downwards fully five minutes, until his fellow workman located the wire among the network and cut it. The body was secured by ropes and lowered to the ground. Contrary to expectations of all who saw the accident, Kirk was alive when he reached the ground. He was placed in an ambulance, but died before the hospital was reached.

The Reports Submitted.

WASHINGTON, June 21.—When the tariff debate in the senate was concluded for the day the reports from the investigating committee occasioned considerable debate. Hill entered a motion not to receive the report. He contended that a minority report having been made as to the material character of the questions asked Havemeyer, Searles and McCartney, it was within the jurisdiction of the senate to decide whether the questions were material before having these witnesses certified under the statute as contumacious. Davis, a member of this committee, thought that since the newspaper men had been certified to the district attorney, the sugar magnates should be treated in the same way. The question was left undecided, and the senate at 6 o'clock went into executive session, and then soon adjourned.

The Texas Populists.

WACO, Tex., June 21.—The populists nominated John L. Nugent, of Fort Worth for governor. The platform advocates the abolition of all private banks; the construction, ownership and operation of railways by the government; the government ownership and operation of all telegraph and telephone lines; the free and unlimited coinage of gold and silver upon a ratio of 16 to 1; the issuance by the government of legal tender paper money and condemns the issue of gold bonds in times of peace to meet the current expenses of the government.

They Corroborated the Senator.

WASHINGTON, June 21.—The sugar trust investigation committee held a brief session today and examined Geo. Ransom, son of Senator Ransom, and clerk of the senate committee on commerce, in regard to their purchases of sugar stock. Their statements were corroborative of that made by Senator Ransom when he was before the investigating committee.

The Gold Reserve.

WASHINGTON, June 21.—Advices from New York state the city banks today deposited \$400,000 in gold in the treasury in exchange for United States notes. One million dollars in gold was today engaged for export, leaving the net gold reserve at the close of business today \$64,127,969, and the cash balance today \$115,155,404.

A Rich Find Near Union.

"It has cured others and will cure you" is true only of Ayer's Sarsaparilla. The motto suits the medicine and the medicine the motto. What better assurance could you have that a remedy will cure you, than the fact that it has cured such multitudes of others?

"My dear woman, don't give up. Cast your bread upon the waters, and it will return to you." "That's just why I don't dare to try it."

When the blood is loaded with impurities, the whole system becomes disordered. This condition of things cannot last long without serious results. In such cases, a powerful alternative is needed, such as Ayer's Sarsaparilla. It never fails, and has no equal.

Deafness Cannot be Cured.

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

He is an old sufferer from inflammatory rheumatism, but has not heretofore been troubled in this climate. Last winter he went up into Wisconsin, and in consequence has had another attack. "It came upon me very acute and severe," he said. "My joints swelled and became inflamed; sore to touch or almost to look at. Upon the urgent request of my mother-in-law I tried Chamberlain's Pain Balm to reduce the swelling and ease the pain, and to my agreeable surprise, it did both. I have used three fifty-cent bottles and believe it to be the finest thing for rheumatism, pains and swellings extant. For sale by Blakeley & Houghton, druggists.
