A GOOD INSURANCE RULING

The Oregon Navigation to Have a Separate Receiver, and McNeil the Man.

Oregon Navigation.

An order was received at the Union Pacific office yesterday from headquarters in Omaha directing that all motive power belonging to the Union Pacific be returned to the East, and stating that the engines owned by the Oregon Railway & Navigation Company would be returned to this division. This change, it is understood, has been contemplated for some time. To many railroad men the order lends color to the belief, which has prevailed for several months, that the Oregon Railway & Navigation will soon apply for a separate receivership. E. McNeil, who, it is said, will be appointed receiver, is now on his way to Portland and is due here tomorrow morning. Up to the present time, no one in the city appears to have a very definite idea of what is to be done in the matter, and consequently all kinds of rumors are afloat. There is more or less apprehension in some quarters, too, that the prospective change will not be beneficial to the men in all the departments. However, the personnel of the Union Pacific is practically the same as it was when Mr. McNeil was here before, the only important change being in the office of superintendent of water lines, and it is not thought likely that any of the officials will be disturbed. Besides if the Oregon road is separated from the Union Pacific, a number of new offices will be created, treasurer, auditor, etc., and if Mr. McNeil has any friends that he wants to provide for, there will be plenty of places for them.

It is believed by many that Russell Sage has secured a controlling amount of Oregon Railway & Navigation stock, and that he was instrumental in having Mr. McNeil named for receiver. In this event the arrangement between the Union Pacific and the Oregon road will no doubt be maintained, owing to Mr. Sage's connection with the former road. As the Union Pacific has great interests in the northwest, it looks very much as though Major McNeil was being sent out here to protect those interests. In spite of all the rumors flying about, there are persons who believe that the Oregon Railway & Navigation will not apply for a separation, and it is evident that until Mr. McNeil arrives and states his business, the outcome of the matter will not be known.

Ended in Indiana.

INDIANAPOLIS, June 22.—The miners' strike, so far as it relates to Indiana, was formally declared off tonight at the called state convention of block and bituminous miners. The delegates represented 5000 miners of this state. The motion was to accept the Columbus scale of 60 cents for bituminous and 70 cents for block, and was carried by a vote of 28 to 14. Notwithstanding the acceptance of this scale, the sentiment was strong against the officers who signed it. The Massillon, O., coal operators have announced their intention of resuming work in the mines through the district with old men, if possible, and, if not, with new. Sixty cents will be paid. At Streator, Ill., the convention of miners of the Northern Illinois district, after a two days' session, passed a resolution denouncing President McBride, and moved to hold out for last year's prices. Operators were invited to meet the delegates, but refused, saying they would abide by the Columbus scale.

DECATUR, Ill., June 22.—The Miners' Union voted to return to work as individuals. Officers of the company refused to say what the men will receive. At Hollisdale, Pa., notices were posted today by the United States Colliers Company that the Mount Vernon colliers would start Monday, at the rate of

50 cents a gross ton. The notices were a pleasant surprise to the miners, for the companies seemed determined to pay no more than 40 cents.

Resolutions to continue the strike were adopted by the miners' convention at Scottsdale. At Walston, near Punxsutawney, Pa., the Bell, Lewis & Yates Company has given out that it intends to start its mines immediately. It has offered English-speaking men 35 cents net, five cents below the price offered last week. The miners held a meeting and unanimously resolved to stay out and starve, rather than to accept the 35-cent rate, and adopted another resolution to stand for 45 cents, being five cents more than they agreed to on compromise.

Quiet Now at Walston.

PUNXSUTAWNEY, Pa., June 22.—The Fifth and Sixteenth regiments and Sheridan troops under command of Brigadier-General John A. Wiley, reached here this morning at 7 o'clock. The troops were marched at once to Walston, and surrounded it without a shot being fired. The arrival of the troops put a stop to the rash schemes of the foreigners, and it is quiet there tonight.

The New Wheat Pest.

CORVALLIS, June 22.—The new wheat pest, first reported, a few days ago from Roseburg, has been also reported within the past few days to Professor Washburn, entomologist at the experiment station, by observers at Salem, Roseburg, Grant's Pass, Elk Head, Douglas county, Eugene, Albany and Harrisburg. Concerning it, Professor Washburn makes the following statement:

"The insect referred to is the grain aphid (aphis avenae), which has been at times so destructive in the Eastern states. It may become equally destructive here though the minute parasites which are at work on it will possibly keep it in check.

"No really practicable remedy can be applied while the wheat is standing. It is true kerosene emulsion will kill the aphid, but for various reasons this treatment is hardly to be considered where the acreage is large. As soon as the wheat or other grain is harvested, burn the stubble and all straw, weeds, litter and waste on or about the field. If the grain is not worth harvesting and is not too green, it should be burned while standing. The presence of fences is against this procedure, but it is the best, in fact the only remedy known to entomologists."

A Point in Insurance.

CHEYENNE, June 22.—An important ruling was made by Judge Riner in the United States court today on an insurance case. A company refused to pay the claim of Mrs. George B. Henderson, whose husband was murdered in 1891 near Lander, on the ground that the policy excepted death from intentional cause. It was shown that Henderson, who was manager of a cattle outfit, expected to be killed, and took insurance especially to provide for his family in case of his meeting death by violence. He did not read his policy, but relied upon the statement of the agent that the policy was all right and the insurance would be paid, should he be murdered. Judge Riner ruled that the agent's statement constituted the contract, and that the policy shall be performed accordingly. The amount involved is \$15,000.

Lively at Whiteson.

McMINNVILLE, June 22.—The liveliest place in this county now is Whiteson. Eighteen carloads of steel rails were unloaded there yesterday to make car yards and Y's. The ties being used are processed with some non-decaying substance. The company has just completed one of the finest little depots in the state.

The Hon. R. R. Laughlin was buried near Carlton today. He was a pioneer of 1847, a captain in the Cayuse war of 1848, and was several times elected to the legislature from this county, as a republican.

Condition of the Northern Pacific. TACOMA, June 22.—Superintendent Dickinson, of the Northern Pacific, announced today that the repairs to flooded portions of the road had so nearly completed that the line to Portland, south of Goble, will be placed

in operation Sunday, and the main line around Lake Pend d'Oreille, in Idaho, Monday. For the first time in several weeks the road began moving freight Eastward from Spokane today, sending it over the Coeur d'Alene branch. For a week, at least, freight traffic both ways will be very lively, as loaded cars Eastbound are standing on nearly every track west of Spokane, and east of the break the side-tracks are filled with Westbound freight.

The Spectators Shocked.

WASHINGTON, June 22.—While Kyle was making a speech in favor of an income tax in the senate today, Call of Florida shocked the spectators in the galleries by removing his shoes and elevating his "sky blue" stockings to a neighboring desk, while he fanned himself with a palmleaf fan.

La Grippe.

During the prevalence of the grippe the past seasons it was a noticeable fact that those who depended upon Dr. King's New Discovery, not only had a speedy recovery, but escaped all of the troubles after effects of the malady. This remedy seems to have a peculiar power in effecting rapid cures not only in cases of la grippe, but in all diseases of throat, chest and lungs, and has cured cases of asthma and hay fever of long standing. Try it and be convinced. It won't disappoint. Free trial bottles at Snipes & Kinersly's drug store.

THE production of oranges in Florida this year is estimated at 4,500,000 boxes, and as the Florida fruit is fast displacing the Sicilian, it is predicted that in a few years 10,000,000 boxes will represent an average crop of the southern state.

"It has cured others and will cure you" is true only of Ayer's Sarsaparilla. The motto suits the medicine and the medicine the motto. What better assurance could you have that a remedy will cure you, than the fact that it has cured such multitudes of others?

THE very idea of the power and right of the people to establish government presupposes the duty of every individual to obey the established government.—Washington.

When the blood is loaded with impurities, the whole system becomes disordered. This condition of things cannot last long without serious results. In such cases, a powerful alternative is needed, such as Ayer's Sarsaparilla. It never fails, and has no equal.

Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & Co., Toledo, O. Sold by Druggists, 75c.

"Many of the citizens of Rainsville, Indiana, are never without a bottle of Chamberlain's Cough Remedy in the house," says Jacob Brown, the leading merchant of the place. This remedy has proven of so much value for colds, croup and whooping cough in children that few mothers who know its worth are willing to be without it. For sale by Blakeley & Houghton druggists.

Persons who sympathize with the

afflicted will rejoice with D. E. Carr of 1235 Harrison street, Kansas City. He is an old sufferer from inflammatory rheumatism, but has not heretofore been troubled in this climate. Last winter he went up into Wisconsin, and in consequence has had another attack. "It came upon me very acute and severe," he said. "My joints swelled and became inflamed; sore to touch or almost to look at. Upon the urgent request of my mother-in-law I tried Chamberlain's Pain Balm to reduce the swelling and ease the pain, and to my agreeable surprise, it did both. I have used three fifty-cent bottles and believe it to be the finest thing for rheumatism, pains and swellings extant. For sale by Blakeley & Houghton, druggists.

THE INSTITUTION OF HOME.

THE hope of America is the homes of America. MARRIAGE is the legitimate basis of a genuine home.

Dr. S. F. Scott, Blue Ridge, Harrison Co., Mo., says: "For whooping cough Chamberlain's Cough Remedy is excellent." By using it freely the disease is deprived of all dangerous consequences. There is no danger in giving the Remedy to babies, as it contains nothing injurious. 50 cent bottles for sale by Blakeley & Houghton, druggists.

A CAT belonging to Mrs. Mary Brownwell, of Wilmington, Del., has a habit of ringing the bell whenever it wants to be let out of the cellar.

A lady at Tooleys, La., was very sick with bilious colic when M. C. Tisler, a prominent merchant of the town gave her a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. He says she was well in forty minutes after taking the first dose. For sale by Blakeley & Houghton, druggists.
