STRIKES EVERYWHERE

Eighteen Thousand Men Are Out in Chicago.

THE MAILS MUST BE CARRIED

Both Sides Prepared for a Protracted Struggle, and Each Seems Confident of Winning.

Action by the Courts.

LOS ANGELES, June 29.—United States District Judge Ross today issued instructions to the grand jury, charging it to diligently inquire whether any of the laws of the United States have been violated by any person or persons by their refusal to handle trains on which United States mails had been deposited, and while he contends that every man has a legal right to stop work and quit his employment, whenever he chooses to do so, he has no legal or moral right, while continuing in the employment of another, to refuse to do work he is employed and engaged to do, and where such refusal goes to the extent of violating a law of the United States, it is the solemn duty of those charged with the administration to take every step requisite and necessary to its vindication.

Judge Woods Takes a Hand.

CHICAGO, June 29.—The deputies sent out to guard the Atchison & Topeka property were appointed under a new order, an injunction issued today by Judge Wm. A. Woods, of Indianapolis. Attorney Bancroft, representing the road, communicated with Judge Woods last night, and this morning the judge telegraphed instructions to the United States circuit court. Attorney Bancroft said it was the intention of the company to start its trains with new men, who will be hired to take the places of the strikers, and the deputy marshals are expected to protect the men from interference under the injunction of Judge Woods. Judge Woods left Indianapolis this morning for Chicago, and will be in readiness to enforce the order and issue other orders, if necessary.

Effect Upon the Mails.

SAN FRANCISCO, June 29.—Postoffice officials are in grave doubt as to the outcome of the situation. They have never before been called on to face similar conditions. Mail matter, both incoming and outgoing, continues to pile upon them, until at present writing, after 48 hours' experience with the strike, they are confronted with fifteen cars of mail on stalled trains. A peculiarity of the situation is that the mail authorities here are wholly at sea as to what they should do in the matter. Even United States Attorney Garter is in a quandary. Interviewed this afternoon, he said he would be guided entirely by the orders of Attorney-General Olney. Asked what recourse would be had in the event of the present embargo being maintained for an indefinite period, he replied that he is powerless to do anything until the refusal to carry mails is brought officially to his notice, as for instance by a complaint of the postoffice department, upon which complaint he would bring suit against the railway for breach of contract with the government. He had not decided to go so far as to consider that he could interfere with the railway employees unless they should take some physical action to prevent the movement of trains.

From Other Points.

A Denver Telegram says the Denver & Rio Grande will live up to the terms of its contract with Pullman, and that no trains will be moved unless Pullmans are attached. The American Railway Union at Cheyenne decided not to take part in the boycott. At Colorado Springs the Colorado Midland men were called out and the road is tied up, for the officials refuse to move trains unless Pullmans are attached. After a wait of 24 hours at Denver, an Atchison & Topeka train left last night, a fireman having been found who was willing to fill the deserted post. All the Atchison & Topeka men at Denver have stopped work in accordance with President Debs' order. At Minneapolis the union's representative held a conference with Receiver Truesdale, of the Minneapolis & St. Louis, at which he refused to reinstate the men who had been discharged for refusing to handle Pullman cars. He also told them that the road would continue to use Pullmans. This ultimatum was wired Debs, and he at once ordered out the men. The order was obeyed, but the Chicago train left tonight, the Pullman being chained and locked in addition to the regular coupling. The Chicago Great Western men at Minneapolis also went out on a strike. Orders were also sent calling out the men on the Wisconsin Central and the Omaha. The situation in the Northern Pacific strike at St. Paul remains unchanged.

These Will Support the Union.
SACRAMENTO, Cal., June 29.—The Brotherhood of Locomotive Firemen and the Order of Railway Trainmen have adopted resolutions endorsing the action of the American Railway Union. These organizations have promised their support to the union, and will do everything in their power to aid a successful strike. The action of the trainmen was by a unanimous vote. During their meeting a member proposed that their charter be turned toward the wall. This was carried with a whoop. A number of the members have resigned, and the order is in a fair way of dissolving.

No Grievance of Their Own.

WEST OAKLAND, Cal., June 29.—Late this afternoon the Oakland Lodge of the Brotherhood of Railway Trainmen, comprised of 115 conductors, brakemen, baggagemen and switchmen, held a meeting and decided not to join the strike. A committee from the union was present, but their arguments were unavailing. The railway trainmen expressed sympathy with the union, but said their by-laws forbade a strike unless they had a grievance of their own.

The Switchmen.

CHICAGO, June 29.—The switchmen will not go on a strike. This result was reached at midnight after a long and heated discussion on the part of 210 members of the Switchmen's Mutual Aid Association at the Great Northern hotel. Grand Master Barrett presided over the meeting and the vote was a close one, many of those present declining to vote for or against the resolution.

Last June, Dick Crawford brought his twelve months old child, suffering from infantile diarrhoea, to me. It had been weaned at four months old and being sickly everything ran through it like water through a sieve. I give it the usual treatment in such cases but without benefit. The child kept growing thinner until it weighed but little more than when born, or perhaps ten pounds. I then started the father to giving Chamberlain's Colic, Cholera and Diarrhoea Remedy. Before one bottle of the 25 cent size had been used, a marked improvement was seen and its continued use cured the child. Its weakness and puny constitution disappeared and its father and myself believe the child's life was saved by this remedy. J. T. MARLOW, M. THE INSTITUTION OF HOME.

THE hope of America is the homes of America.

MARRIAGE is the legitimate basis of a genuine home.

W. H. Nelson, who is in the drug business at Kingville, Mo., has so much confidence in Chamberlain's Colic, Cholera and Diarrhoea Remedy that he warrants every bottle and offers to refund the money to any customer who is not satisfied after using it. Mr. Nelson takes no risk in doing this because the remedy is a certain cure for the diseases for which it is intended and he knows it. It is for sale by Blakeley & Houghton.

How Russians Destroy Rats.

The following is said to be the Russian method of destroying rats, and as it appears to be an effectual one those who are annoyed with these animals are recommended to try it. Catch in a wire trap fifteen or twenty large rats (feed them in an extra trap or wire cage until you have the required number); then cease to feed them. They will soon become ferocious and fight, kill and feed upon one another. When only six or eight remain, turn them loose. Accustomed to feed upon their species they will hunt and destroy numbers.

Something Unusual.

As a medicine, is Dr. Pierce's Golden Medical Discovery. And, because of that, there's something unusual in the way of selling it. Where every other medicine of its kind only promises, this is guaranteed. If it ever fails to benefit or cure, you can have your money back. It's the only guaranteed remedy for every disease caused by a disordered liver or impure blood. Dyspepsia, Biliousness, the most stubborn Skin, Scalp and Scrofulous affections, even Consumption (or Lung-aeftion) in its earlier stages, are all cured by it. It purifies and enriches the blood, rouses every organ into healthful action, and restores strength and vigor. In building up both flesh and strength of pale, puny, Scrofulous children, or to invigorate and brace up the system after "Grippe," pneumonia, fevers, and other prostrating acute diseases, nothing can equal the "Discovery."

Catarth is positively cured by Dr. Sage's Remedy.

An Indiana divorcee was some years ago granted because "the defendant pulled all the covering off of this plaintiff's bed and she likewise ran a knitting needle four inches into his arm."

A Million Friends.

A friend in need is a friend indeed and not less than one million people have found just such a friend in Dr. King's New Discovery for Consumption, Coughs, and Colds.—If you have never used this Great Cough Medicine, one trial will convince you that it has wonderful curative powers in all diseases of Throat, Chest and Lungs. Each bottle is guaranteed to do all that is claimed or money will be refunded. Trial bottles free at Snipes & Kinersly's drug store. Large bottles 50c and \$1.

COMBURGATION—When he was going to have anything done to him, and if he could get anyone to say not innocent, he was let off.

Many a poor sufferer who submits to the surgeon's knife, in consequence of malignant sores and scrofulous swellings, might be cured without an operation, by taking Ayer's Sarsaparilla. This remedy expels from the blood all the impurities by which disease is generated.

ATOLE, which a Mexican physician prescribed for William L. Wilson, is said to be very nutritious. Corn is ground by hand, the meal is then parched and sifted into boiling water or milk, as mush is prepared in the United States.

WOOD'S PHOSPHODINE.

The Great English Remedy. Promptly and permanently cures all forms of Nervous Weakness, Emotions, Spermatorrhoea, Impotency and all effects of Abuse or Excess. Been prescribed over 25 years in thousands of cases. Is the only Reliable and Honest medicine known.
