JULY JINGLINGS.

Leaves From the Notebook of Chronicle Reporters.

Walter Rowe was taken below this morning by Deputy Sheriff Phirman.

J. F. Kress and thirteen men went to the locks this morning, to begin putting the telegraph lines in good condition.

A light east wind prevails today and consequently the mercury is roosting in the upper story of the thermometer.

The ladies of the Congregational church will give a lawn sociable at the grounds next Tuesday evening. A good time is promised.

The time checks for most of the men discharged by the railroad company, have arrived and are being paid off by French & Co.

Mr. Thomas Gilmore came over from Klickitat this afternoon. He tells us he will have the grade over the mountain finished in a day or so.

A fish-wheel at the Cascades was timed by parties the other day and while they were watching it, it took the salmon in at the rate of thirty-two a minute.

Some of our readers who want to know where the county money goes can get a pretty good idea by reading the item concerning that fact in this issue. Most of the money goes to running the business of the county and is put back in circulation among the people.

The Oregonian gives half a column notice to Mr. Homer C. Davenport, the newspaper illustrator, an Oregon boy who came up from San Francisco recently. His sketches are in great demand both by newspapers and magazines, and fame waits on his footsteps. He is a cousin of Mr. R. G. Davenport, THE CHRONICLE foreman.

The Markets.

FRIDAY, July 13.—The markets have been sluggish for the past week, although an improvement is noticeable since our last report. The low price of produce and the influence of the strikes is largely the cause. The crippled condition of transportation has checked to some degree the movement of freight. Prices are unchanged in nearly all lines of merchandise. In produce there are no changes reported in quotations. Eggs are in full supply and the market is weak. Poultry is dull on the market. We heard of spring chickens selling at \$1.20 per dozen yesterday.

The grain bag question is beginning to be interesting as the harvest season is fast approaching. At present it is a

difficult matter to make any statement on the supply or what the prices will be. It is safe to say that they will be no higher than last year.

From Sherman County.

Moro Observer. The old Love residence at Poplar Grove, was destroyed by fire on the morning of the 6th. Tramps.

A son of Frank Payne came near being killed on the 8th, having been thrown from a horse he was riding near Rutledge, his foot catching in the stirrup. His head was bruised and flesh cut, but he will soon recover. For a time death seemed certain.

W. H. and H. A. Moore of Moro, were at Deschutes on the 8th, and made arrangements for handling wheat on a big scale at that point this season. There is considerable talk of late about the best shipping point on the Columbia, in Sherman county, being at Deschutes. It is certainly a fine location for both shipping and manufacturers, as it has unlimited water power.

It Will Help Business.

The best news that has come over the wires for some time was the special to THE CHRONICLE this morning, saying that Debs had called the strike off. Since the final result was easily foreseen it is better that this be done. The matter had gotten to be between the strikers and the government and could have but one termination. The men here will now be released from any obligations and will no doubt gladly go to work again, as the fight was not originally against the O. R. & N. It will make business much better.

Choked to Death.

Earl the little son of Mr. and Mrs. L. Hill choked to death last night, while eating his supper. The little fellow was only 22 months old and was very delicate, having been sick for the past year. It is supposed that either a bread crumb or a small bit of onion got in his windpipe. The funeral will take place this evening in Sunset cemetery. Services at the house at 6 o'clock.

Real Estate Movements.

The following deeds were filed for record today:
United States to William Bennett, sw 1/4 sec. 10, tp 1 n, r 15 e—patent for timber culture.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.
