JULY JINGLINGS.

Leaves From the Notebook of Chronicle Reporters.

The county commissioners visited the poor house this afternoon.

Several wagon loads of wool came across from Klickitat county this morning.

Hagan, who was bound over to appear before the grand jury by Justice Davis, failing to find bondsmen, is confined in the jail.

The county commissioners today awarded the contract for printing the delinquent tax list to THE CHRONICLE.

Until through trains are running, the Regulator will make trips on Sunday. This will be a great accommodation to the traveling public.

Do you want today's news today? Do you believe in protection and building up home industries? If so, subscribe for THE CHRONICLE and get the dispatches.

The teachers' county institute, which heretofore has been held in the summer time, for various reasons has been postponed. Superintendent Shelley informs us it will be held here some time in December.

The Regulator wharf is full of freight from one end to the other and the overflow is filling the street. Unless work is continued all day Sunday there will be a regular blockade.

The west bound train this morning got in time for the passengers to take the boat, the latter waiting nearly an hour beyond her time to accommodate them and also to get the mail.

There is an ordinance to the effect that children under 16 years of age shall not be allowed on the streets after 9 o'clock in the evening. It should be either enforced or taken from the statute books.

Three or four Coxeyites made a raft out of old railroad ties this morning and started for Portland. This shows that the ruling passion is strong even to death, in a tramp. They are so used to traveling on railroad ties, that they took that method even in navigating the Columbia.

A. M. Williams & Co. are knocking all previous prices on blankets. They have a counter full, no two alike, and ranging in prices from 75 cents to \$8.50. It doesn't look possible that a double blanket can be made and sold for six-bits, but that it can be done is proven

by the fact that A. M. Williams & Co. are doing it. Don't take our word for it, but call and see and be astonished.

From all points comes the news that the strikers are going back to work. In squads of from a dozen to two hundred they are breaking away and taking up their old jobs. The strike cannot stand this defection and will soon be a thing of the past.

Market Review.

FRIDAY, July 20.—The market conditions of the week just closed show a marked improvement over the last in activity. The transportation conditions that have prevailed for the past few weeks are greatly improved, and freights are moving quite freely.

In the provision line the supply is large and favors buyers. Flour has declined and is selling at \$2.50 per barrel in ton lots, and retailing at \$2.75 per barrel.

Vegetable are plentiful in every line. New potatoes have taken the place of old, and are selling at 1 cent per pound, or 60 cents per bushel.

The principle inquiry is for grain bags, which are said to be advancing in price daily, owing to the great demand on the coast.

There is nothing new in the wheat market, only that it is still flat and dull. Thirty-five to thirty-eight cents per bushel are the quotations.

The wool market is more buoyant. We hear that 8 cents has been paid for choice lots. Some holders are asking more, but we have not heard of any one selling at an advance.

Real Estate Movements.

The following deed was filed for record today:

William S. Divers to A. S. Blowers, 2 1/2 of 2 1/2, sec. 20, tp. 2 n. of r. 10 e; consideration \$500.

When Baby was sick, we gave her Castoria. When she was a Child, she cried for Castoria. When she became Miss, she clung to Castoria. When she had Children, she gave them Castoria.

Noteworthy Forthcoming Discussions

In the forthcoming (August) number of The Forum, there will be three striking articles treating of the three recent startling manifestations of crime—the Great Railroad Strike and its causes; the Assassination of Carnot; and the Police Revelations in New York.

Another subject that will be treated in the August Forum by two writers is "Laboratory Mind-study; the Beginnings of a New Science." President G. Stanley Hall explains why the new psychology, or mind-study, is the necessary and entirely revolutionary basis of the education of the future.

In the August number of The Forum will appear an article showing "How the Bills of Socialism will be Paid," by Mr. Sylvester Baxter, in reply to the article in a recent number of The Forum on "Who will Pay the Bills of Socialism?"

Almost a Fatal Accident.

Mr. R. H. Lyon of Dot met with a very serious accident on last Sunday evening. He was hauling a harvester on a wagon, and on coming down a steep place in the road the horses must have become unmanageable.

Death Of George Hansen.

George Hansen, an employee of the O. R. & N., was instantly killed by the cars at Celilo yesterday afternoon about 5:30 o'clock. Coroner Butts went out this morning. From the testimony of the witnesses it appears Hansen was sitting with some others on the rear end of a flat car.

forward suddenly and Hansen fell between them, the car passing over him.

Deceased was a native of Denmark, aged 26 years. We learn from his friends that he had recently sent money to a young lady in Denmark to whom he was engaged, and that she is now on her way to meet him.

County Court Proceedings.

At an adjourned meeting of the commissioners' court held today the following business was transacted and bills allowed:

Table of County Court Proceedings with columns for Name, Description, and Amount. Includes W. H. Lochhead, J. W. Blakeney, L. L. Branner, etc.

Bonds of justices of the peace were filed as follows: David Wishart, Baldwin; Thos. H. Williams, Falls; A. Keaton, Antelope; A. J. Brigham, Dufur; Fred Chandler, Wauic, and John T. Porter, constable, Oak Grove.

Deserved Praise.

Mr. George Summers writing of a trip to Portland during the high water has the following kind words in the Prineville News for the D. P. & A. N. Co.:

The freight situation at that time was bad, indeed. To unload the steamer from Portland it was run up under a high bank of the river and a block tied to a tree above and one end of a rope hooked to a truck and the other end around a steam capstan on the boat.

"Be sure you get Ayer's" is an important caution to all in search of a thoroughly reliable blood-purifier. Ayer's Sarsaparilla being the one on which there can be no manner of doubt.
