Coal Miners in Illinois Declare the Strike Off.

HAWAII FORMALLY RECOGNIZED

Boutelle Kicks Up a Row Over Hawaii—The Butchers' Strike in Omaha About to Fail.

The Republic of Hawaii.

WASHINGTON, Aug. 9.—The republic of Hawaii has been formally recognized by the United States through the secretary of state. The republican government in Hawaii, it will be remembered, was set up July 4th. The following day Willis extended recognition, so far as was within his power, to the new republic. Mr. Willis' action has been discussed, but no decision was reached until yesterday, when Secretary Gresham, under direction of the president, sent a formal note to the minister approving his course. Although the text of Gresham's letter has not been made public, it is understood the president extended to the new republic the hearty good wishes of the United States. Representatives of the dethroned queen started for Washington as soon as the new republic was proclaimed, and they have been here several days endeavoring to induce the state department to withhold recognition, and to insist that Liliuokalani be extended the assistance of the government in her efforts to regain power. Yesterday's action disposes of the whole question and closes the unfortunate diplomatic "incident."

Secretary Gresham visited the capitol and informed Senator Gray, of the senate foreign relations committee, and Chairman McCreary, of the house committee on foreign affairs, that the president had formally recognized the Hawaiian republic. No official announcement was given out for publication, and for this reason neither Senator Gray nor McCreary would discuss the subject.

Frank P. Hastings, who, in the absence of Minister Thurston, is charge d'affaires at the Hawaiian legation here, has been formally recognized as the representative of the new government. Chairman McCreary, of the house committee on foreign affairs, says it is not customary to give publicity to diplomatic correspondence until it has reached its destination. Consequently the letter to President Dole will not be made public until sufficient time has passed for its reception. The fact publicly to diplomatic correspondence has become known may induce the president to make it public.

Tariff Conference Have Practically Agreed.

WASHINGTON, Aug. 9.—The tariff conference remained in session until a few minutes after 12, and when they adjourned the senate conferees proceeded to their room, where they held a private consultation. Early reports were to the effect that the conferees had encouraged new obstacles and an agreement was unlikely. Later it was reported an agreement had been absolutely arrived at on the lines of the understanding reached last night that iron ore would be made free, coal dutiable at 40 cents a ton, and the compromise sugar schedule would stand. Indications point to a verification of this report. Republican members in conference at 12:35 received an intimation a full conference would be held this afternoon and immediately began consultations with the leaders on that side with a view of preparing themselves for the final conflict which they believe to be at hand.

Representatives McMillin, one of the house conferees, stated he believed an agreement was in sight. Coal and iron ore had not yet been settled, but the main features of the bill would be agreed upon so that the republicans could be called in tomorrow. During the recess of the conferees there were conferences between the leading conservative senators. A petition was today circulated among members of the house urging the conferees to stand by free sugar and the permanent income tax. Representative Bland started the petition, and it was numerously signed. The senate conferees encountered obstacles in the metal, woolen and other

schedules of such a character that they did not feel justified in proceeding further without consulting the conservative senators, Gorman, Brice and Smith. The house members demanded very liberal concessions on many articles in the metal and woolen schedules, and also earthenware and glassware.

Boutelle Kicks Up a Row Over His Hawaiian Resolution.

WASHINGTON, Aug. 9.—In the house today Boutelle, speaking to a question of personal privilege, denied the published imputation that he had introduced for political purposes the resolutions recognizing the new Hawaiian republic. Referring to the president's recognition of the republic, he began describing how Mr. Gresham had "sneaked up to the capitol yesterday to inform Chairman McCreary of the administration's purpose," when he was called to order by Outhwaite and warned by the speaker. Boutelle denounced the conduct of the administration on Hawaiian affairs as "peanut politics." He asked the house to repudiate the whole turbulent and malodorous affair, and to express to the new republic cordial congratulations. The speaker decided Boutelle had gone outside the question of personal privilege, and as he would not desist, ordered him to take his seat. McCreary protested that Boutelle, by his "manner and words," had charged improper motives to the committee. Boutelle interjected, "I withdraw the manner; the gentleman from Kentucky has enough for both of us." McCreary thereupon resumed his seat.

Invasion of Hudson's Bay.

OTTAWA, Ontario, Aug. 9.—For three years the Dominion government has been investigating the invasion of Hudson's bay by United States whaling vessels and the illicit trading of the crews of these vessels among the Indians. Inquiries were set afoot by the customs department, but in that remote territory it was found so difficult to obtain positive information of the contravention of Canadian customs and fishery laws that no formal complaint could be laid before the government at Washington, and so all that was done was to have formal notice sent out to the effect that fishing and trading in these waters by foreign vessels would not be tolerated by the Canadian authorities. A letter has just been received here, dated June 10, from Fort Hope, on the McKenzie river, which says: "We received letters lately from Peel's river post, in which we are told that about 150 miles from that post, down the McKenzie, seven ships had wintered there, hunting whales and trading furs, and during last fall they killed 110 whales. The nationality of the ships is not given, but they are supposed to be American vessels. These vessels have evidently made their catches in the estuaries of Hudson's bay."

In the Senate.

WASHINGTON, Aug. 9.—At 11:15 the senate went into executive session, the reason apparently being to relieve the tension over the tariff situation. An effort to dispose of the Chinese treaty in executive session failed. It was postponed until tomorrow, and the senate adjourned.

House bill, modifying the bill partly repealing the revised statutes requiring proof of subsequent loyalty before pensions or bounty lands are granted to Mexican war veterans, was discussed in the senate this morning. Hill asked if the bill was to remove the last vestige of disability against those veterans, and was answered in the affirmative by George. Platt opposed the bill on the ground that there were thousands of these old claims, and suggested that as the democrats complained of the present pension list this would be a good time to call a halt. The matter went over without action.

The Omaha Butchers.

OMAHA, Aug. 9.—Sheriff Drexel sent 100 deputies to South Omaha early this morning. The deputies broke the picket line of the strikers, and escorted the workmen to the houses in squads. The strikers hooted and jeered, but did not offer any violence. A number of old men returned to work under the protection of the officers. All the houses began killing in spite of the threats of the managers they would not do any work until the militia was called out. It is the general belief the strike is now practically broken.

The Britannia Won.

COWES, Isle of Wight, Aug. 9.—The Vigilant and Britannia started today in the race for the town prize of \$100, presented by the inhabitants of Cowes. The Britannia got slightly the best of the start, and was ahead rounding the first mark. It is a cloudy morning, with a stiff breeze. The Vigilant gained 24 seconds on her rival in a magnificent run out to Warner lightship, but the Britannia began to widen her lead during the beat back to Cowes, leaving the Vigilant half a mile astern at the end of the first round. In the second round the Britannia increased her lead to 3 minutes and 48 seconds.

The Britannia won by 2 minutes and 12 seconds, without counting her time allowance.

Committee on Foreign Affairs.

WASHINGTON, Aug. 9.—When the committee on foreign affairs met today Chairman McCreary announced the president had recognized the Hawaiian republic. The republican members maintained the Boutelle resolution was still in order and it was desirable for congress to send a greeting to the republic. A motion to adjourn was carried. McCreary, Hooker, Tucker, Price, Everett, Monroe and Dinsmore voted for it, and Blair, Hitt, Van Voorhis, Draper and Geary against it. No more meetings of the committee are expected this session.

Above Everything Else

Dr. Pierce's Golden Medical Discovery purifies the blood. By this means, it reaches, builds up and invigorates every part of the system. For every blood taint and disorder, and for every disease that comes from an inactive liver or impure blood, it is the only remedy so sure and effective that it can be guaranteed.

If it fails to benefit or cure, you have your money back. These diseases are many. They're different in form, but they're like in treatment. Rouse up the torpid liver into healthful action, thoroughly purify and enrich the blood, and there's a positive cure. The "Discovery" does this, as nothing else can. Dyspepsia, Indigestion, Biliousness; all Bronchial, Throat and Lung Affections; every form of Scrofula even Consumption (or Lung-scorfula) in its earlier stages; and the most stubborn Skin and Scalp Diseases are completely cured by it.

Mild, gentle, soothing and healing is Dr. Sage's Catarrh Remedy. Only 50 cents; by druggists.

Coal Strike Declared Off.

MOREYS, Ill., Aug. 9.—The coal strike, which began April 21 and has prevailed in Grundy county up to the present time, crippling all industries and branches of trade and driving thousands to the verge of starvation, was officially declared off today.

Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & Co., Toledo, O. Sold by Druggists, 75c.
