STILL FAR APART

The Senate and House Have Locked Horns.

A FATAL RAILROAD WRECK

The Track Torn up and a Passenger Train Ditched, Twelve Persons Burned to Death.

A Dismal Wreck.

LINCOLN, Neb., Aug. 10.—A fearful wreck, involving the loss of 12 or more lives, occurred on the Chicago Rock Island & Pacific railroad, where it crosses on a high trestle the tracks of the Union Pacific and Burlington & Missouri River, at 10 o'clock last night. The Fort Worth accommodation is due to leave here at 9:40 P. m. It was about 10 minutes late, and was making up time when it struck a trestle crossing Salt Lake. The rails spread and the engine, drawing two cars after it, went thumping along over the cross-ties about 50 feet, and then with a crash fell 40 feet to the bed of the creek below. The engine burst and the glowing coals ignited, the wooden supports and the coaches behind. In a few moments the bridge, dry as tinder from long exposure to the sun, was one mass of flames. Coals falling upon the coaches set them afire. The flames mounted high in the heavens, coloring the entire southern sky a brilliant carmine, while the moonbeams fell upon the glowing mass below, from which mortal shrieks of agony were heard to issue. Willing hands were there to help, but little could be done. The engine had fallen first, then the combination smoker and express coach fell partially upon the engine, and the rear coach following telescoped that car, pinioning the unfortunates in the smoker so that it was impossible to save them or for them to escape.

J. W. Glover, section man, today said he saw three well-dressed men jump the freight and go west. He said the men each carried a long, brand-new satchel. This gives rise to the suspicion that some of the Round Pond (Oklahoma) enemies of the Rock Island may have caused the wreck. The marks made by a wrench on the loosened rail were plainly visible, and there were marks of a crowbar on the cross-ties. The wood of the ties was deeply dented where the crowbars had been inserted, and the rails lifted clear off the ties and the spikes pulled out were lying loose around the bridge.

C. H. Cherry, the injured mail clerk, was to have been married in a month. The loss to the railroad company alone will amount to \$300,000. How much money may have been lost through the mails and otherwise is not known.

Conferees are Wider Apart Than Ever.

WASHINGTON, Aug. 10.—It is stated on the authority of a conservative senator the republican senators will be called in today and the senators will make a proposition to report a disagreement on the tariff bill. If the house will not accept this, a resolution is to be presented in the senate recalling the senate conferees. It did not take the conferees long today to find they could come to no agreement on the basis of free sugar.

Within half an hour after the conference began the senate conferees left the room and met Gorman. Other conservatives were sent for and it was said the point has been reached where a decision one way or the other must be reached.

The difference between democratic conferees on the tariff are as great as ever today. The senate conferees offered the house members either free coal or free iron, with a 40 per cent duty on the remaining articles. When the house conferees accepted this and agreed on free coal the senate withdrew the offer. The house members say the senate members are trifling with them, and the house members have decided to maintain their position. They say the offers by the senators are inspired by the sugar trust with the hope of killing the bill. If the bill is essentially changed from the shape in which it passed the senate, Quay has declared his intention of attacking the bill in a speech that will, he says, take 40 days to deliver. He adds that he will deliver the speech

without regard to what his senatorial associates may do. It is said the conferees will report a disagreement today, and a motion to discharge them will be made.

In The Senate.

WASHINGTON, Aug. 10.—Chandler today, in the senate, offered a resolution directing the committee on elections to investigate the recent elections in Alabama and ascertain if frauds were committed. At Hill's request the resolution went over until tomorrow. Hill tried to obtain recognition to offer a resolution calling for information as to the status of the tariff conference, but it was temporarily crowded out and went over until tomorrow.

Vest declared that when the resolution is considered tomorrow he will speak of the infamous lies invented and circulated as to the work of the conferees on the part of the senate.

The senate immediately after going into executive session today took up the Chinese treaty. There is a great desire on the part of the senators favoring the treaty to have it disposed of before adjournment.

Mr. Pullman Returning Home.

PITTSBURG, Pa., Aug. 10.—George M. Pullman was a passenger last night on the Pennsylvania limited for Chicago. This will be his first visit to Pullman since the great strike ended. He was close-mouthed on the affairs of the strike, saying that he had been away so long that he was not conversant with the situation. His advices were that the trouble was settled, and that no outbreak was probable. He said that the strike had cost everybody connected with it a heap of money, but he had no figures with which to make an estimate. Mr. Pullman was accompanied by Robert T. Lincoln, ex-minister to England. Mr. Lincoln said he was interested mainly in the Japan-China war, and he thought that the mikado's subjects would win.

France and Russia to Co-Operate.

BERLIN, Aug. 10.—A dispatch to the Tageblatt from St. Petersburg says: "In addition to the eight Russian warships which sailed recently from Vladivostok, under sealed orders, for Corea, the commander-in-chief of Eastern Siberia has been instructed to hold troops in readiness to march at any moment. Russia wishes to maintain a strictly neutral position, but as soon as the constitutional change occurs in Corea, she will resolutely protect her interests." The dispatch says France has declared her readiness to co-operate with the Russian fleet in the far east.

Japanese Leaving Shanghai.

LONDON, Aug. 10.—A Shanghai dispatch says the final exodus of Japanese residents has begun. Some 600 Japanese will leave Shanghai tomorrow for home. The Japanese postoffice has been shut. Every precaution has been taken to prevent any hostile demonstration of the natives against the emigrants.

Captain Galsworthy, of the Kow Shing, has arrived in Shanghai. The American and Norwegian consuls at Shanghai are refusing clearances to ships carrying rice.

In the House.

WASHINGTON, Aug. 10.—The senate bill granting the Northern Pacific Railroad company the right of way through Indian reservations in Minnesota was passed by the house today. Chairman Sayres, of the appropriations committee, reported the disagreement of the conferees on the sundry civil bill, as to the senate amendments involving \$621,021. The house ratified the agreements agreed to, and discussed the amendment upon which there was still disagreement.

Oil Tempered Nickel Steel.

WASHINGTON, Aug. 10.—Captain Sampson, chief of the ordinance bureau, told the armor investigating committee today how armor must be treated to give it the required ballistic resistance. He said he did not agree with Lieutenant Stone's statement that oil-tempered nickel steel was useless. He declared that the superiority of steel thus treated has been fully demonstrated by experiments.

For Sale.

One span of driving horses, one side-bar top buggy, one set double harness, one single carriage harness. Inquire of d&w2w. Mas. C. E. HAIGHT.

OUT OF THE FRYING PAN

Has come not a little knowledge as to cookery—what to do, as well as what not to do. Thus we have learned to use **COTTOLENE**, the most pure and perfect and popular cooking material for all frying and shortening purposes.

PROGRESSIVE COOKING

is the natural outcome of the age, and it teaches us not to use lard, but rather the new shortening, **COTTOLENE**, which is far cleaner, and more digestible than any lard can be.

The success of Cottolene has called out worthless imitations under similar names. Look out for these! Ask your Grocer for COTTOLENE, and be sure that you get it.

Made only by **N. K. FAIRBANK & CO., ST. LOUIS and CHICAGO, NEW YORK, BOSTON.**

THE STUDY.

Miss HARRYDELE HALLMARK is a Georgia young woman who is said to be doing good literary work in the east.

PROF. GOLDWIN SMITH intends to leave for England in a few days to spend the winter. He will return to Canada and devote the rest of his life to literary work long postponed.

MR. GLADSTONE has just written an article for the Youth's Companion, the Boston weekly for boys and girls, which contains four thousand words, every word in his own handwriting.

W. D. HOWELLS is said to have enough literary work mapped out and contracted for for the next year to assure him, with the royalties on his published books, an income of thirty thousand dollars.

JULES VERNE, the famous author, is said to have earned more money by his pen than any other living author. He has taken up his abode in plain apartments in the old cathedral town of Amiens.

WILL ALLEN DRUMGOOLE, who has been for eight years clerk of the Tennessee senate, recently lost his job because he would write dialect stories which "riled" the mountaineers.

Above Everything Else

Dr. Pierce's Golden Medical Discovery purifies the blood. By this means, it reaches, builds up and invigorates every part of the system. For every blood taint and disorder, and for every disease that comes from an inactive liver or impure blood, it is the only remedy so sure and effective that it can be guaranteed.

If it fails to benefit or cure, you have your money back.

These diseases are many. They're different in form, but they're like in treatment. Rouse up the torpid liver into healthful action, thoroughly purify and enrich the blood, and there's a positive cure. The "Discovery" does this, as nothing else can. Dyspepsia, indigestion, Biliouness; all Bronchial, Throat and Lung Affections; every form of Scrofula even Consumption (or Lung-scrofula) in its earlier stages; and the most stubborn Skin and Scalp Diseases are completely cured by it.

Mild, gentle, soothing and healing is Dr. Sage's Catarrh Remedy. Only 50 cents; by druggists.

HASH AND REHASH.

A RUSSIAN is not of age until he is twenty-six.

A DEER farm is one of the attractions at Bangor, Me.

The thread of a silkworm is 1-1,000th of an inch thick.

Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Castoria

For Infants and Children.

Castoria promotes Digestion, and overcomes Flatulency, Constipation, Sour Stomach, Diarrhoea, and Feverishness. Thus the child is rendered healthy and its sleep natural. Castoria contains ac Morphine or other narcotic property.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."
H. A. ARCHER, M. D.,
111 South Oxford St., Brooklyn, N. Y.

"For several years I have recommended your 'Castoria,' and shall always continue to do so, as it has invariably produced beneficial results."
EDWIN F. PARKER, M. D.,
125th Street and 7th Ave., New York City.

"The use of 'Castoria' is so universal and its merits so well known that it seems a work of supererogation to endorse it. Few are the intelligent families who do not keep Castoria within easy reach."
CARLOS MARTIN, D. D.,
New York City.
