

A QUEER COMBINATION.

The Breakfast of a Rounder After a Night Out.

An Institution of Uncertain Origin Yet Familiar to All Waiters—Opinions of Physicians on the Try-ing Mixture.

Take six men of the world—gentlemen. I mean, of an all round social experience, who have been unfortunate enough to stay too long with their liquor once in awhile—and probably five of them will tell you what is meant by the term "drunkard's breakfast," says the New York Herald.

For the enlightenment of the sixth member it may be explained that a "drunkard's breakfast," so called in many swell clubs and restaurants, consists of a salt mackerel, boiled, not broiled; a dish of milk toast, and a pot of strong, hot tea. This is a repast which is supposed to be peculiarly adapted to the stomach of a man who permitted himself to be tempted to look too promiscuously upon the wine the night before.

My wife's absence from home compelled me to take my meals at the restaurants recently. For my first breakfast I went to one of the fine hotels in the immediate neighborhood. The restaurant was chilly, and that, added to a severe cold in my head, must have given a watery appearance to my eyes and a nervous tremor to my hand as I took a seat and picked up a bill of fare. An obsequious waiter stood at hand to receive my order. I ran over the list of meats a second time, pausing, mentally, midway 'twixt a steak and a chop. The waiter, noting my indecision, but utterly mistaking the spirit behind it all, stepped to my side and with perfect politeness said: "Ef I may be permit, I recom-men't ze salt mackerel, wis ze meelk toast and ze tea—ver' nice. It ez ze breakfast populair wis gentlemen after ze excitement of ze long night."

The fellow had actually recommended a drunkard's breakfast for my condition, although as a matter of fact I hadn't taken a drink in a year and a half!

Next morning I went into another restaurant near by—not exactly a first-class place, but an extraordinarily good second-class one—where the business is enormous, the cooking excellent and the service generally satisfactory. My eyes were bloodshot and watery still, the result of a neuralgic attack. The waiter, a decorous, handsome German-American, handed me the bill of fare, eyed me suspiciously, but not rudely, for an instant and then remarked in an undertone: "How would a nice salt mackerel, boiled, a plate of milk toast and a pot of tea suit you this morning?" That is what many of our patrons order for breakfast after they have been out late. Much better than cocktails, I assure you.

There was no impertinence in the man's voice or manner. He didn't dream of being intrusive. He merely thought he was doing me a friendly service in suggesting a regular bracing "drunkard's breakfast."

The same suggestion will be offered in many first-class restaurants to any man whose appearance or manner in any way excites the suspicion that he drank too much the night before. The hint is always offered politely and quietly, and only after the waiter has convinced himself that his purpose in making the suggestion will not be misunderstood.

And thus, in some mysterious way, it has come to be believed among restaurant waiters that for a man who has had a long drinking bout the correct breakfast should consist of salt mackerel, milk toast and tea! It is an extraordinary combination, surely, and why it is peculiarly adapted to the condition of a man recovering from a spree is as mysterious as the identity of the genius who first proposed it.

A popular physician who was spoken to with reference to this fad said: "Yes, I know what a 'drunkard's breakfast' is, but why any man suffering from over-indulgence in drink should eat such a meal is more than I can tell. Salt mackerel is harsh, acrid, hot and irritating to an already congested stomach. I can think of no article of food more likely to increase the digestive disorders due to drink than salt mackerel."

Another physician of long practice and wide observation said: "It would be interesting to know how and with whom the 'drunkard's breakfast' originated. It is a ridiculous idea. None but a normal stomach in healthy condition can digest a salt mackerel without discomfort, or at least unpleasant reminders of its presence. It is a fish that I am very fond of, but if I eat of it even after drinking moderately it causes an attack of indigestion. My only theory of its supposed popularity as a breakfast dish for one who has taken a drop too much is this: Its saltiness excites thirst for great quantities of cold water, which is, in my opinion, of real benefit to a stomach fevered with alcoholic irritation. It enables him to drink water copiously until the stomach is cleaned and cooled, and the alcohol in his tissues becomes so diluted that it is the more easily eliminated from his system. As for its alimentary value in such cases, I can't see that it has any. The milk toast would be all right, but salt mackerel and tea—what an insult and crime it is to force them upon a stomach already smarting and burning under the abuses of alcohol!"

Nevertheless the "drunkard's breakfast" is an institution, and a fixture. If you don't believe it just go into an up-town restaurant some morning when you do not feel on particularly good terms with yourself and allow the waiter to infer from your manner that you were somewhat off the coast the night before. If that waiter is up to date and estimates you as one of kindly spirit, he will discreetly suggest a breakfast consisting of salt mackerel, milk toast and tea.

DON'T BE FOOLED by the dealer who brings out something else, that pays him better, and says that it is "just as good." Dr. Pierce's Golden Medical Discovery is guaranteed. If it don't benefit or cure, you have your money back. No other medicine of its kind is so certain and effective that it can be sold so. Is any other likely to be "just as good"?

As a blood-cleanser, flesh-builder, and strength-restorer, nothing can equal the "Discovery." It's not like the sarsaparillas, or ordinary "spring medicines." At all seasons, and in all cases, it purifies, invigorates, and builds up the whole system. For every blood-taint and disorder, from a common blotch or eruption, to the worst scrofula, it is a perfect, permanent, guaranteed remedy.

Dr. Sage's Catarrh Remedy cures Catarrh in the Head.

While coon hunting, John Rider, of Dutchtown, Mo., lost an eye in a very peculiar way. He was going up a tree, in search of a coon, when an owl flew down and tore out his eyeball with its claw.

Kenneth Bazemore had the good fortune to receive a small bottle of Chamberlain's Colic, Cholera, and Diarrhoea Remedy when three members of his family were sick with dysentery. This one small bottle cured them all and he had some left which he gave to Geo. W. Baker, a prominent merchant of the place, Lewiston, N. C., and it cured him of the same complaint. When troubled with dysentery, diarrhoea, colic or cholera morbus, give this remedy a trial and you will be more than pleased with the result. The praise that naturally follows its introduction and use has made it very popular. 25 and 50 cent bottles for sale by Blakely & Houghton, druggists.

My boy was taken with a disease resembling bloody flux. The first thing I thought of was Chamberlain's Colic, Cholera and Diarrhoea Remedy. Two doses of it settled the matter and cured him sound and well. I heartily recommend this remedy to all persons suffering from a like complaint. I will answer any inquiries regarding it when stamp is inclosed. Write to any county official as to my reliability. Wm. Roach, J. P., Primroy, Campbell, Co., Tenn. "I know an old soldier who had chronic diarrhoea of long standing to have been permanently cured by taking Chamberlain's Colic, Cholera and Diarrhoea Remedy," says Edward Shumpik, a prominent druggist of Minneapolis, Minn. "I have sold the remedy in this city for seven years and consider it superior to any other medicine now on the market for bowel complaints." 25 and 50 cent bottles of this remedy for sale by Blakely & Houghton druggists.

A QUIET custom, which has been practiced for centuries, still prevails in Holborn, England. The time of night is hourly shouted by the watchman, somewhat in this style: "Past one o'clock, and a cold, wet morning."
