A Neglected Congregation in The Dalles.

Upon the streets of our city may be seen nearly every evening, a large congregation of quiet and attentive listeners including people from the surrounding country, as well as residents here, many of whom evidently seldom, if ever, attend divine service in any regularly appointed place of worship.

Brethren, let us stand in the breach. Does not your commission read "into the highways?" And do we not need and shall we not have the Gatling guns and great ordnance as well as blowing of bugle, marching and rattling of a few musketry?

On our way up to the temple of worship, where so many empty pews await us, in this our Jerusalem, suppose we stop just long enough on the street to pour in a volley into the enemy's rank. On our way up to the temple to worship Almighty God, let us stop just long enough, at least, to pour a little of our abundance of the oil of the Gospel into the wounds of our fallen brethren.

A good part of the past year I have resided in this city and been a regular attendant upon divine service; and during the brief time the Salvation Army have labored here I have seen more people seeking for pardon of sin and the gift of the Holy Spirit, than in all the rest of the time. Then help the good work.

JASON B. GORHAM.

The Dalles, Aug. 16, 1894.

The City Council.

The city council met last night but transacted but little business. The city recorder left for a week's outing early this morning and as he takes his minutes in shorthand and had not written them up it is impossible to give them in detail.

Among other things that were done, however, was the election of a street commissioner. The first ballot resulted as follows: Maddron 2, blank 1, Butts 3. The second—Maddron 1, blank 1, Klein 1, Butts 3. The third—Maddron 1, blank 1, Butts 4, and Mr. Butts was declared elected.

A petition was presented from the I. O. G. T. concerning the liquor business. On motion the city marshal was instructed to enforce city ordinance 273. This is the ordinance concerning saloons requiring that they be closed Sundays, that no minors be allowed in them and that no gambling be permitted.

Where Ocean Cables Are Thickest.

The cable map of the world, prepared by the United States navy department, shows that the Mediterranean is thickly netted with cables west of Malta. So is the North Atlantic between the thirty-eighth and fifty-fifth parallels. The North sea, the Red sea and the Arabian sea have many cables. The only great unbridged spaces are the Pacific, the South Atlantic and the great stretch of the Indian ocean between Madagascar and Australia.
