THURSDAY, - - - AUGUST 23, 1894
OFFICIAL ANARCHISTS.

We would be pleased indeed to note some indication somewhere that the corporations and wealth of the country are not above the reach of the law. We have diligently watched the course of congress, only to find that the trusts controlled it. Turning to the president we find that Havemeyer speaks, and his lips, once eloquent in defense of the common people, grow dumb. The United States courts are brought into prominence with questions in which the citizen and the corporations are both before it, and the citizen goes to the wall. As a last resort, a commission is appointed to examine into these same questions of labor and capital, both being charged with the same offense—boycotting; but the labor is tried, while the corporations are asked no questions. If there ever was an unholy conspiracy in this country, it was that of the American board of railway managers, yet none of these are tried. Corporations that have flagrantly violated every paragraph of the interstate commerce law, from the day it was promulgated, acknowledge the existence of that law only when it is invoked to protect them. We do not believe in anarchy; we do believe in the strict enforcement of the laws.

Let the railroads pause, and the United States courts and congress change their course. Let them be law-abiding before their example is followed and the people also become anarchists. The worst anarchy in the United States is that whose doctrines are promulgated by congress, the courts and the corporations. Let them beware when their example is followed by the people.

OF GREAT FAITH.

Professor Falb's predictions of earthquakes and tidal waves have their amusing side. We are reliably informed that many persons are leaving the seaside on this account, showing that some people are prone to believe. Without intended slight to the great professor's scientific attainments, we must confess to a spirit of unbelief in his dire prognostications. Of course it is a serious thing when Jupiter and the other big fellows get in conjunction with Uranus, but we don't see why this should give our good old mother earth the cholera morbus. We think the professor is wrong in his diagnosis. The situation reminds us of what an old miner said of the geologists. "That they reminded him of a gnat on the back of an elephant, formulating an opinion concerning the internal construction of the animal from the appearance of the hide." Jupiter with his moons, isn't going to affect us, and if Saturn goes fooling round too near, Havemeyer and the sugar ring will absorb him. The only damage that will be done by the professor's collection of stars will be to break the seaside hotels.

The dispatches announce the engagement of Miss Florence Pullman, daughter of the sleeping car highwayman, to the Prince of Isenburg-Birstein, "oldest son of Prince Charles of Isenburg-Birstein and the Archduchess Marie Louise of Austria," and cousin of the emperor of Austria. It may be possible that some of the elite of the effete East may be interested in such news as the above, but the great mass of the American people have no more interest in Miss Pullman's matches than they have in those of the coffee-colored descendants of better men than Pullman, down in the cotton belt. The fact that an American girl has used her father's ill-gotten wealth to purchase a title is not calculated to awaken any enthusiasm.

The curious old Latin phrase "Habet bovem in lingua," has puzzled many good Latin scholars. It is translated "He has a cow on his tongue." The expression originated with the late Senator Nesmith, who when he crossed the plains with an ox team, on losing one of his oxen yoked up a cow and worked her on the off wheel, and of course hitched to the tongue. On being asked concerning his outfit the great linguist used the quotation which we have noted, "Habet bovem in lingua."

The first thing the legislature should do next winter is to pass a bill increasing the salary of the assessor. The office is really the most important one in the county and the hardest to fill. Its duties are disagreeable, and its work difficult. The assessor should be paid as much or more than the clerk or sheriff.

Goldendale is to have a new paper—the Independent. It will make its appearance Saturday with W. J. Story as editor.

Down at the seaside the high breakers roll and the high rollers break on the hotel bars, oh sea!

Congress will probably adjourn next week. The tariff bill will be settled Monday afternoon, and the minor matters pending will be dropped as soon as that is done. It will be a relief to know that they are done, and to find something besides the dispatches from Washington, in the newspapers.

Took a Shot at Them.

The Troutdale couple who were married a few evenings ago had to adopt stronger measures with serenaders than did the Albina pair that called out the police department to tone down the boisterous crowd bent on extending congratulations. The newly married pair of Troutdale were so annoyed that the bridegroom took a shot at the night prowlers. Fortunately no one was hit, but the crowd all dispersed. The disappointed revelers then retaliated by moving on the town, where they roused every sleeping inhabitant by their noise, so says a correspondent. They wound up by killing a cat and stretching it up in front of a hostelry, together with an appropriate sign. The proprietor says he would like to meet the parties who did the work, under conditions which he prefers to name. Troutdale is a lively town.

The Most Gorgeous Treasures of Arabia.
What a splendid picture it brought before your mind! You read the glowing descriptions of the secret treasures which the geni of the ring spread before Aladdin's gaze. You perused this favorite story of yours in "Arabian Nights" when a boy, and your imagination pictured brilliantly for you everything that the words suggested.

That was when you were a boy. Today, possibly, you are unable to do it. Shall we tell you the reason why? Most probably because your liver is sluggish, and as a consequence you suffer from sick headache, dizziness, and constipation. Do you want to cure all these troubles permanently, make your liver active, your imagination lively, and in general enjoy things as you did when a boy? All you have to do is to use Dr. Pierce's Pleasant Pellets, purely vegetable, perfectly harmless, the smallest and easiest to take, and they are the cheapest because they are guaranteed to give satisfaction, or your money is returned. What more can you ask?

An Edinburgh life insurance man says that the largest mortality rate in indoor occupations is found among liquor sellers. Among 1,000 sellers he found the average mortality to be 29.2.

It Should Be in Every House
J. B. Wilson, 371 Clay St., Sharpshurg, Pa., says he will not be without Dr. King's New Discovery for consumption, coughs and colds, that it cured his wife who was threatened with pneumonia after an attack of "la grippie," when various other remedies and several physicians had done her no good. Robert Barber, of Cooksport, Pa., claims Dr. King's New Discovery has done him more good than anything he ever used for lung trouble. Nothing like it. Try it. Free trial bottles at Snipes & Kinersly's.

The Bell Telephone annual report for 1893 shows gross earnings, \$5,751,070—net, \$780,190; net, \$3,925,485—net, \$513,811.

Mrs. J. H. HOESNYDER, 152 Pacific Ave., Santa Cruz, Cal., writes:

"When a girl at school, in Reading, Ohio, I had a severe attack of brain fever. On my recovery, I found myself perfectly bald, and, for a long time, I feared I should be permanently so. Friends urged me to use Ayer's Hair Vigor, and, on doing so, my hair

Began to Grow,

and I now have as fine a head of hair as one could wish for, being changed, however, from blonde to dark brown."

"After a fit of sickness, my hair came out in combfalls. I used two bottles of

Ayer's Hair Vigor

and now my hair is over a yard long and very full and heavy. I have recommended this preparation to others with like good effect."—Mrs. Sidney Carr, 1409 Regina St., Harrisburg, Pa.

"I have used Ayer's Hair Vigor for several years and always obtained satisfactory results. I know it is the best preparation for the hair that is made."—C. T. Arnett, Mammoth Spring, Ark.

Ginseng in China.

Ginseng is an important article of export to China, and the trade is largely in the hands of the resident Chinese themselves. They buy the root of wholesale dealers, who get it of country folk at about two dollars and fifty cents a pound. Chinamen seldom buy directly from the countrymen, because the latter being unacquainted with the Celestials are unwilling to send the root to O. D. The Chinese make a mystery of the trade, but they send abroad yearly many thousands of dollars' worth of ginseng.

Notice to Taxpayers.

The county board of equalization will meet in the assessor's office on Monday, Sept. 24th, and continue in session one week, for the purpose of equalizing the assessment of Wasco county for 1894.
