THE BILL IN FORCE

Secretary Carlisle Sends Out Instructions Concerning it.

THEY RECEIVED TWO CHECKS

The Pullman Employees Give in Their Testimony Concerning Pullman's Methods, and Close Management.

Rulings of Carlisle.

WASHINGTON, Aug. 27.—Secretary Carlisle has decided and will instruct customs collectors that goods placed in bonded warehouses under the McKinley law and made free of duty under the new tariff act are entitled to free entry and need not be exported and reimported in order to get the benefits of the new act. This is of special interest to the wool trade, as a large amount of wool is stored in the bonded warehouses. In this as in all other mooted questions the secretary will follow the intent of congress and let the aggrieved parties appeal to the courts if they care to contest on technical grounds. He will undoubtedly hold that diamonds are dutiable, notwithstanding the erroneous punctuations of the free list. The secretary today sent the following telegram to customs officials at all ports: "A vessel with a cargo not discharged nor entered for consumption may be made vessel warehouses temporarily for such goods as shall be entered today in bond."

The secretary today sent the following telegram to collectors at New York, San Francisco, Boston, Philadelphia, Baltimore, New Orleans, Chicago and Port Townsend, Wash.: "You are instructed as follows concerning the collection of duties under the recent revenue legislation of congress;

"First—All articles heretofore subject to duty, but made free by the provisions of the new act, may be withdrawn from the warehouses on and after Aug. 28, 1894, without payment of duty."

"Second—All manufactured articles except originally provided for in the schedule, composed wholly of materials other than wool or worsted, as a component part of their chief value, will be admitted on and after August 20, 1904, at the rate prescribed in the new act, all other manufactured articles specially or generally provided for in said schedule, will continue until January 1, 1895, to pay rates of duty imposed thereon, by the act entitled, 'An act to reduce the revenue, equalize duties on imports and for other purpose; approved October, 1890.'"

"Third—Coffee and tea, hides and skins, raw or uncurd, whether dry, salted or pickled, will be admitted free of duty on and after August 28, 1894, and treasury circular S. 12,510, dated March 24, 1892, issued in accordance with the proclamation of the president of the United States, dated March 15, 1892, and directing the collection of duties upon certain articles being products exported from Venezuela, Columbia and Hayti, is hereby revoked."

Although, as stated, it is Carlisle's purpose that the intent of congress shall be followed, it is learned that as to all questions of errors in punctuation he will make no decisions nor give any instructions to collectors until after an actual case has come before him on appeals from the decision of the board of general appraisers as to whether diamonds, seeds and certain other articles are by the terms of the bill dutiable or on the free list. Collectors will without instructions hold them to be dutiable in order to protect themselves, and the importers must go to law if they contest these rulings.

Pullman Employees Received Two Checks Each Month.

CHICAGO, Aug. 27.—The strike commissioners devoted a large portion of today to the examination of Manager E. F. Bryant, of a bank at Pullman. He was particular to state he was not an employee of the Pullman company, as the bank was owned by the Pullman Southern Car Company, but later admitted the latter company is controlled by the Palace Car Company. Bryant said the capital stock of the bank was \$100,000, and in July, 1893, the deposits amounted

to \$658,000. Two thousand four hundred and twenty-five depositors were Pullman employees, their accounts averaging \$240. In July, 1894 the deposits amounted to \$453,000, with only 1414 employees and accounts which averaged \$270. Witness said the Pullman workmen were paid in checks. Each month they were given two checks, one representing the amount of rent due, the other the balance of their wages. "It is just a sort of a gentle reminder the rent is due," suggested Commissioner Kernan. "It is simply for the men's convenience," the witness persisted. Bryant was rigidly examined as to the method of the company in collecting back rent.

Britannia Out of Commission.

LONDON, Aug. 27.—In consequence of the capsizing in Portland roads of the Britannia's dingy, through which two of the crew were drowned, the prince of Wales has canceled all the cutter's engagements on the western coast. The bodies of the drowned sailors have not been recovered. The Central News is authority for the statement that the Britannia will land her guests at Torquay, and proceed to Cowes, where she will go out of commission, unless the Vigilant compels her to contest for the Cape May cup September 9. Captain Carter, of the Britannia, is deeply grieved by the loss of Mate Simons, one of the two drowned in Portland roads, who, the captain declares, was his most useful officer.

Shock to Queen Margaret.

ROME, Aug. 27.—Queen Margaret went to Gressoney valley in the province of Turin several days ago to visit Baron and Baroness Pecore. Saturday her host gave in her honor an excursion into the Alps. During the ascent he dropped dead before the queen's eyes. She was nearly overcome, and became hysterical several times before reaching home. She still suffers from extreme nervousness. The king was summoned to her early yesterday. An examination of Baron Pecore's body showed he died from heart disease.

A Dutch Expedition Repulsed.

AMSTERDAM, Aug. 27.—The expedition against Lambok has been attacked by the natives and the Dutch beaten.

Lambok is an island not far from Java. The rajah at Lambok is a subject of Dutch rule, and his people having complained of his administration, an expedition was sent against him in June. The rajah promised to reform. The expedition when returning was attacked and defeated.

Whisky Trust and Taxes.

PEORIA, Ill., Aug. 27.—It was reported this morning the whisky trust would pay taxes to the amount of \$5,000,000 at 11 o'clock, but up to 11 o'clock officials of the revenue office had received no advice. At 1 p. m. only \$1,700,000 had been deposited in the New York banks for the payment of \$5,000,000 taxes.

Dissatisfaction in Venezuela.

NEW YORK, Aug. 27.—The steamer Caracas arrived today from Venezuela. She reports considerable dissatisfaction continues among the lower class of the country, but no immediate outbreak is feared. Some of Crespo's cabinet are stated to be very unpopular with many people.

A "Run-down"

And "used-up" feeling is the first warning that your liver isn't doing its work. And, with a torpid liver and the impure blood that follows it, you're an easy prey to all sorts of ailments. That is the time to take Dr. Pierce's Golden Medical Discovery. As an appetizing, restorative tonic, to repel disease and build up the needed flesh and strength, there's nothing to equal it. It rouses every organ into healthful action, purifies and enriches the blood, braces up the whole system, and restores health and vigor.

For every disease caused by a disordered liver or impure blood, it is the only guaranteed remedy. If it doesn't benefit or cure, in every case, you have your money back.

\$500 is offered, by the proprietors of Dr. Sage's Catarrh. Their remedy perfectly and permanently cures the worst cases.

ONE CAT THAT SWIMS.

Takes to the Water as Philosophically as a Duck.

"The common supposition is that cats are averse to the water," said a citizen of Baltimore to a St. Louis Globe-Democrat man recently, "but I once saw a cat that took to the water as naturally as a dog. I happened to be crossing the Mississippi river in a rowboat one day, when the man who was rowing me across suddenly said: 'Did you ever see a cat swim, sir?' At the same time pointing over the stern of the boat. On turning around I saw a large black and white cat swimming about in the middle of the river. On inquiry I found that the cat was in the habit of swimming every morning from the shore to an island in the river, where it visited a lot of fishing nets that were spread out there to dry, and picked up the dead fish, and also hunted for rats, which abounded on the island. After becoming thoroughly satiated the cat would commit himself again to the water and swim home. The next day I determined to try and witness the performance again, but I arrived at the waterside just in time to see him return from his morning's hunt. While swimming the cat kept most of his body out of the water, his tail being held erect in the air like the mast of a ship."

The New Bedford Strike.

NEW BEDFORD, Mass., Aug. 27.—There were 30,000 people at Bristol mill gates this morning, but no attempt was made to start the mills. A mass meeting of striking weavers followed. The Howland and New Bedford mills started up quietly with no demonstration by the operatives.

Malarial and other atmosphere influences are best counteracted by keeping the blood pure and vigorous with Ayer's Sarsaparilla. A little caution in this respect may prevent serious illness at this season. Ayer's Sarsaparilla is the best all-the-year-round medicine in existence.

"Now, Maud," he said anxiously, as they parted, "while you are away don't forget our secret—that you are my fiancée." "No, George, I won't forget it; and I'll never let any of the men even suspect it. I'll behave like a regular summer girl."—Harper's Bazar.
