#### A TEXAS FLOOD.

The Southern Pacific has been having an experience similar to that of the Union Pacific during the high water here, the only difference being that the lordly Columbia came up slowly and in a dignified manner and took possession of the track, while down in Texas the floods were simply one wild rush. An

exchange, speaking of the matter, says: "The scenes of destruction and desolation in the flooded district, 100 miles east and west of San Antonia, Texas, are simply terrible. Thousands of acres of farm and pasture land are under water. The damage to crops in the Leona river valley will be \$500,000, and an equal amount in the valleys of the Saco and Sabinal. Many people have been drowned and half the houses in Uvalde, a town of 2,800 people, have been swept away. The S. P. railroad's loss is \$1,000,000.

Advices from the interior indicate that farmers in many sections are feeding considerable wheat to live stock. Supplies of old corn are small and prices high, while the corn crop and pastures have been seriously damaged by the drouth. On the other hand wheat is plenty and cheap, and if prepared properly and fed judiciously to live stock no doubt is an excellent substitute for corn. Besides, at current figures for the leading cereals it is a profitable disposal of it for the farmer-some say equal to a state. walue of 75 to 85 cents per bushel. No doubt a liberal quantity may be disposed of in that way, possibly 1,000,000 bushels per week. In years of ordinary yields of Portland, has been arrested on the all kinds of grain the feeding of wheat charge of murder in the second degree. was estimated at about 5,000,000 bushels, There is no doubt as to the law in the and in 1893 it was increased to 15,000,000 bushels. Should it be enlarged to 50,- tation of the man he killed will help 000,000 bushels in 1894 it would seem to him in his defense, and that the jury be as large a quantity as circumstances warranted. Feeding of wheat to live stock, however, should not be regarded any longer as an experiment-unless prices advance to the old relative plane of values for all cereals, more or less wheat will be disposed of that way .- Burney Valley Bulletin adds that Daily Trade Bulletin.

Returns are coming in from shipments of shingles and lumber to the East, and mills in qualities of Dr. Sage's Catarrh Remedy every direction are starting up on full time with full force. The shipment from Tacoma alone since August 1st has averaged ten cars of lumber and shingles per day, and the shipments from other points in Western Washington have been correspondingly great. Merchants, too are beginning to feel encouraged by an increased trade and are placing large orders for fall goods."

Some of our exchanges have accused Senator Jones of going over to the populists in order to accept the nomination for president. There is nothing in the story, for Jones was born in Wales, and under our constitution can never hold the office. Jones has simply accepted the silver ideas advocated by populists, his love for silver outweighing all other political measures. Senator Jones is a protectionist, and if returned to the republicans on all matters except silver.

The Minnesota fires are not yet over. Sunday the fires were again fanned into flame, and began anew the work of destruction. The town of Mora was soon destroyed, the inhabitants taking refuge in the Snake river. At latest accounts the fire was doing immense damage 9 A. M., except Live Stock and Perish along the line of the Eastern Minnesots able Goods. railroad. At Mahetowa, Ross City and Pine City the people were for a while panic stricken, but a change in the direction of the wind removed the threatened danger.

It looks now as though Breckinridge

disgraced his state. The irony of the situation is that the religious people who first were most bitter of all against him, have now turned round and are supporting him on the ground that he has \$1.50 repented, and it is only the proper Christian spirit to forgive him. Breckinridge has not lost his centerboard.

> If senators were elected by the people, Gorman, Brice, Murphy, and all the others of that stripe would not be there; Vest, Jones of Arkansas and others of that kind would not deliberately go back on the pledges the party made. It may take some time, but it is quite certain that before many years the United States senators will either be elected by the direct vote of the people, or there will be no senate.

The unkindest thing said about Senator Jones is contained in the following squib from the Telegram:

The republicans congratulate themselves that the loss of Jones and Stew-art is more than compensated for by the gain of Brice and Gorman.

If Brice and Gorman will pull down more heavily in the political scales than Jones and Stewart, then are Jones and Stewart indeed very small potatoes.

It is reported that Teller and Wolcott are about to follow Jones out of the republican party. The truth of the matter is that the silver question with them is not only a local question but a personal one. All them of are interested in silver mines, and the good of the country is a secondary consideration when it runs counter to the good of Jones, Wolcott, Teller & Co.

It seems probable that S. C. Hyde of Spokane will be the republican nominee for congress from Eastern Washington. Sam is one of the brightest and ablest men in the state, and the only reason why he should not be nominated for congress is that he is the best stick of senatorial timber in our neighboring

S. P. SMITH, of Towanda, Pa. whose constitution was completely broken down, is cured by Ayer's Sarsaparilla. He writes:

"For eight years, I was, most of the time, a great sufferer from constipation, kidney trouble, and indigestion, so that my constitution seemed to be completely broken down. I was induced to try Ayer's Sarsaparilla, and took nearly seven bottles, with such excellent results that my stomach, bowels, and kidneys are in perfect condition, and, in all their functions, as regular as clock-work. At the time I began taking Ayer's Sarsaparilla, my weight was only 129 pounds; I now can brag of 159 pounds, and was never in so good health. If you could see me before and after using, you would want me for a traveling advertisement. I believe this preparation of Sarsaparilla to be the best in the market to-day."
