CRIMSON CLOVER.

The Prairie farmer in a recent number gives the following description of the new variety of clover, which is known as the "crimson." It might prove a valuable variety for our dry hills, and is certainly worth experimenting with:

"The great nitrogen gatherer. It will improve worn out and poor soils more rapidly and permanently than any other plant in existence—therefore the cheapest and best fertilizer; also the cheapest food for all kinds of stock. Stock like it. They will leave their grain feed for it. Its use solves a great problem in economical farming. It will grow on poor, light soils where other grasses fail. It does not interfere with, but is an addition to other farm crops. It grows and matures its crop when others are dormant, furnishing the very best of feed and still permanently improving the soil.

"Crimson clover, or more commonly called Scarlet, Italian or German clover, is annual of French origin, makes a growth of from twenty to thirty inches high, has a bright crimson blossom from one and one-half to three inches long, and when in full bloom with its luxuriant growth of green foliage and its crimson bloom, is a thing of beauty once seen never to be forgotten. It is a winter crop, must be sown in July, August and September of each year from the spring following can be cut for soiling, by the 20th of April; for ensilage and hay by the 1st to the 8th of May, and for seed crop by the 25th of May. It will produce on ordinary soil eight tons of green food per acre, one and one-half to two and one-half tons of hay per acre, and two to twelve bushels seed per acre; ploughed under as a manure crop it is worth as a fertilizer \$24 per acre. Experiments at the Delaware experimental station have shown that \$1 invested in seed per acre added twenty-four bushels of corn, while \$1 worth of nitride of soda per acre increased the yield of corn only six bushels.

It can be sown in apple, peach, pear, plum or cherry orchards, in corn, tomato, cabbage, beans, peas, watermelon, cantaloupes or any cultivated crop; also with buckwheat. Has been sown in asparagus beds, in raspberry and blackberry patches, to keep down weeds and to be plowed under as manure, with most excellent results. When sown in July and August it furnishes excellent pasture in November and December; can also be pastured some in early spring, without injury to either hay or seed crop. Where red clover failed to give a good stand or blighted on wheat stubble, the stubble can be harrowed over and scarlet clover sown, which will more than make up the loss of the red clover.

Governor Penoyer gets off right foot foremost once in awhile. His latest move is to have the district attorney of Multnomah county fill a bill of discovery requiring the bank officers to answer certain interrogatives concerning money deposited in the banks, and remaining uncalled for, for seven years. Under the state law, such money escheats to the state, and the supposition is that the total amounts of such funds would make quite a handsome sum. At any rate whether the amount is large or small, the principle is the same, and all such money should be turned over to the state.

Wellman and his party of Arctic explorers have arrived home. They discovered that they couldn't discover the north pole, and also that the only way to get there was to come home and take a new start. It is one of the problems that has successfully defied mankind, this reaching the north pole, but the effort will be kept up by one blamed fool after another until finally it is accomplished, and then the "blamed fool" will be a hero. There is nothing succeeds like success.

The Japanese have given the Chinese battle, and come off victorious. The Chinese were annihilated, and as the rainy season has set in Japan will have possession of all of Korea until next summer. The high water in the streams will prevent China sending another army into Korea before that time, and in the meanwhile it is thought a peace will be patched up between them. It looks now as though Japan was to be a winner and that Korea will be set up as an independent kingdom free from China.

Japan and England have made a new treaty, which however will not go into effect until 1899. The existence of foreign tribunals on Japanese soil is one of Japan's greatest grievances, and in 1899 this will no longer be permitted. It is said that Russia is pleased with the new treaty, and that England has not gained anything by it.

The situation has changed wonderfully in the last twenty years. Then the United States army was located in the West to keep down the wild and woolly savages. Now the army is ordered East, to keep down the savages of the East. By a recent order the main body of troops will be located at New York, Chicago and other large cities. The Indian has passed away but the anarchist fills his place to overflowing.

Children who are puny, pale, weak, or scrofulous, ought to take Dr. Pierce's Golden Medical Discovery. That builds up both their flesh and their strength. For this, and for purifying the blood, there's nothing in all medicine that can equal the "Discovery."

In recovering from "Grippe," or in convalescence from pneumonia, fevers, or other wasting diseases, it speedily and surely invigorates and builds up the whole system. As an appetizing, restorative tonic, it sets at work all the processes of digestion and nutrition, rouses every organ into natural action, and brings back health and strength.

For all diseases caused by a torpid liver or impure blood, Dyspepsia, Biliousness, Scrofulous, Skin and Scalp Diseases—even Consumption (or Lung-scrofula) in its earlier stages—the "Discovery" is the only guaranteed remedy.

If it doesn't benefit or cure, in every case, you have your money back.

Notice to Water Consumers.

The charges for patent closets when used when necessary only, is 25 cents, but when a constant stream is allowed to flow, the charge is \$5 per month. In the last two years a large number of closets have been put in, and in a large number of them a constant stream is allowed to flow. The drain on the water supply has become so great that I am compelled to enforce the rules, and will hereafter charge \$5 per month for all closets using a constant stream of water. Dalles City, Or., Sept. 10, 1894.

I. J. NORMAN, Superintendent.

Deserving Praise

We desire to say to our citizens, that for years we have been selling Dr. King's New Discovery for Consumption, Dr. King's New Life Pills, Bucklen's Arnica Salve and Electric Bitters, and have never handled remedies that sell as well, or that have given such universal satisfaction. We do not hesitate to guarantee them every time, as we stand ready to refund the purchase price, if satisfactory results do not follow their use. These remedies have won their reputation purely on their merits. Snipes & Kinsley's druggists.

As the express dashes through the station—"Oh, porter, doesn't that train stop here?" Porter—No, mum; it don't even hesitate.—Woonsocket (R. L.) Reporter.

People who live in new countries are liable to be prostrated by malarial fevers. Inhabitants of cities, by reason of bad drainage and unwholesome odors, suffer from similar diseases. Ayer's Ague Cure is warranted a specific for all malarial poisons.

Phil—Tell me candidly, do you think I should be foolish if I married you? Precilla—Yes; and if you didn't marry me, too.—New York Herald.

Notice to Taxpayers.

The county board of equalization will meet in the assessor's office on Monday, Sept. 24th, and continue in session one week, for the purpose of equalizing the assessment of Wasco county for 1894. All tax payers who have not been interviewed by the assessor will please call at the office on Thursdays, Fridays or Saturdays, as all property must be assessed.

JORI KOONTZ, County Assessor.

Buckingham's Dye for the Whiskers is a popular preparation in one bottle, and colors evenly a brown or black. Any person can easily apply it at home.

For Trout Lake.

The great fishing resort of the Northwest. Parties can procure teams or conveyance the round trip by writing and stating time they wish to start, number of the party, amount of baggage, etc. Address A. H. JEWETT, 1m White Salmon, Wash.

NOTICE.

No Freight will be accepted for shipment between the hours of 5 P. M. and 9 A. M., except Live Stock and Perishable Goods. D. F. & A. N. Co. July 20th, 1894.

For Colic and Grubs.

In my mules and horses, I give Simmons Liver Regulator. I have not lost one I gave it to.

E. T. TAYLOR, Agt. for Grangers of Ga. Grain sacks for sale at the Wasco warehouse. tf

POTTED PLANTS of All Kinds.

We are prepared to furnish on short notice cut flowers for all occasions; also pot plants and wires.

Mrs. J. H. HORSNIDER, 152 Pacific Ave., Santa Cruz, Cal., writes:

"When a girl at school, in Reading, Ohio, I had a severe attack of brain fever. On my recovery, I found myself perfectly bald, and, for a long time, I feared I should be permanently so. Friends urged me to use Ayer's Hair Vigor, and, on doing so, my hair

Began to Grow,

and I now have as fine a head of hair as one could wish for, being changed, however, from blonde to dark brown."

"After a fit of sickness, my hair came out in combfalls. I used two bottles of

Ayer's Hair Vigor

and now my hair is over a yard long and very full and heavy. I have recommended this preparation to others with like good effect."—Mrs. Sidney Carr, 1490 Regina st., Harrisburg, Pa.

"I have used Ayer's Hair Vigor for several years and always obtained satisfactory results. I know it is the best preparation for the hair that is made."—C. T. Arnett, Mammoth Spring, Ark.

Ayer's Hair Vigor

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass.
