County Clerk Leavitt of Klamath county is going to test the salary law enacted at the last legislature, and the result will be of interest to every county in the state. He collected \$57.75 for fees during July and August and declined to pay the same over to the treasurer, claiming he was entitled to the fees, whereupon the court refused to allow him his salary. The matter will be carried to the supreme court.

"What ought to be done with parties who have been married and who say they have been divorced, and who are both staying in his house on his ranch?"

The above "queery," somewhat misspelled and written on a postal card, reached us yesterday. The communication was unsigned, but as it dealt only with an abstract and interesting question we save it from the waste basket. We admit frankly that we do not know how to answer the question, for one the city. reason because it is too indefinite. The questioner does not say, for instance, whether the parties had been man and man and wife, or not. #### COMPLACENT CHINA.

Condescention Toward Wayward Young Nations Like America.

for three months, arrived home yes-

It is not easy for the outside world to understand that the position of China toward foreigners is one of philosophical condescention, and that nothing could be more genuine than the Chinese sense of mental superiority in dealing with human affairs, says the St. Louis Globe-Democrat. During one of the controversies between this country and China about immigration a

Chinese editor put the case in this way "We must remember that we are the oldest nation and that America is one of the youngest. We who have been so favored as to inherit a high civilization from our wise rulers of antiquity and have been blessed with the sublime teachings of our great sages, ought to be patient with the excited caprices of a nation in its unthinking childhood. If we maintain a calm attitude and do not allow ourselves to get angry over the pranks of a young country, why, in course of time America will change and grow wiser and abandon her pres ent foolish conduct. Nations learn by experience, just as children do, and we ought to maintain our dignity and wait in patience while America advances to a state of maturity and learns to manage things in a proper and judicious

The Heir to China's Throne. The birth of an heir to the Chinese throne at this time is an event of more than ordinary importance to the peace of the empire. Kuang Hsu is the first emperor of the present dynasty whose right of occupancy is not based upon actual descent. His predecessor, Tung Chih, died childless in 1875, after reign of only one year. He left several brothers, all having children, among whom a strife at once arose as to the succession. After several weeks of contention and intrigue a compromise was effected by which the young widowed empress and her unborn child were put to death, and the present emperor, then two years old, and the son of the "seventh prince," who was a was a brother of Tung Chih, and himself one of the contestants for the throne, was chosen by a family council. In order to correct the succession, the dead emperor was supposed to adopt this infant as his son and successor and an imperial decree to that effect was promulgated throughout the emwire. Kuang Hsu has been an invalid prom his birth, and his death at any time would occasion no surprise.
