

Love at First Sight

Seed Rye, 75 cents per bushel, at Joles, Collins & Co.'s

The weather predictions for today and Tuesday are warmer and light rains.

The city recorder had two d. ds. before him this morning. Result, \$5 fine each.

Quite a lot of wool came in today, most of it from the neighborhood of the Warm Springs.

Miss Anna Peter & Co. will have an opening of new fall and winter millinery Tuesday, October 2d.

The Baptists have organized a new church society here with thirty-four members, and will build a church as soon as possible.

The No Treadle sewing machine made expressly for ladies who are not able to run a treadle machine, can be seen at The Dalles fair. See it before you buy, or address P. W. Brigham, 116 Court street, The Dalles, Or.

Mr. David Creighton is shipping pears to the cannery at Portland and finds the business profitable. If this can be done, surely there would be money in operating a cannery here. What's the matter with the company incorporated here a month or two ago?

The two-minute horse has at last materialized, the pacer, Flying Jib, making a mile at Chillicothe, Ohio, with running mate, in 1.59 1/2. As this style of going is not recognized by the sportsmen, it does not interfere with the record made by Robert J.

The baseball season has ended and Baltimore wins the league pennant, with New York second and Boston third. Since the organization of the league in 1876 Boston has won the pennant six times, Chicago six, New York two, Providence two, Brooklyn one, Baltimore one.

Madame L. Dulac, 382 Morrison street, Portland, Or., artistic French dress maker, late of H. B. Litt, is ready to make appointments with the ladies who would like to have her come to The Dalles, to take their order, to fit them there. Latest styles and fit guaranteed. Reasonable prices.

A dispatch from Portsmouth, Ohio, on the Ohio river, states that the skeleton of a giant has been found in Ken-

tucky, twelve miles south of that place. The skeleton is eight feet in height and four feet across the shoulders. We judge from its size it must be one that escaped from the late Congressman Breckinridge's family closet.

The East End is filled with wheat teams, and the warehouses begin to show the effect of the steady stream of sacks that is pouring into them. Owing to congested conditions in Portland wheat is not being shipped as rapidly as would otherwise occur. As soon as storage conveniences can be arranged in Portland, shipments will be doubled.

A letter was handed us this morning, written by a gentleman in Pennsylvania who wants a copy of the Wasco County Sun. The Sun having set, and that too without hatching, we forwarded a sample copy of THE CHRONICLE, knowing that what he sees in THE CHRONICLE he will know is so. The gentleman also wants to know where the government land lies, but unfortunately we have not time to describe 700,000 acres that is all outdoors and everywhere else.

Complaints are numerous concerning thefts of flowers and vases from the cemetery. The offense is so contemptible that it does not seem possible civilized persons could be guilty of it, and certainly savages would not. If caught the offenders should be given the full penalty the law provides, and the dose should be applied regardless of sex or color. A man who could rob a grave of the little tokens of love friends or relatives place on it, would sell his grandmother's shin bones for knife handles, or use them for shot gun barrels if straight enough.

Killed by the Cars.

A man named Charles Kane was run over by a freight train near Grant Saturday night and received injuries from which he died Sunday morning. He had been working for the Murray Bros., in Sherman county, and was working his way to Portland when he fell from the train. One arm was cut nearly off and his back was broken. He was brought here about 11 o'clock Saturday night and Dr. Sutherland dressed his arm and made him as comfortable as possible. He suffered great pain, but retained consciousness until a few moments before his death. He stated that he was married, but had separated from his wife, who is living in New York City, at which place he had been in the saloon business. Coroner Butts took charge of the body, and had it buried yesterday.

For Cutting Government Timber.

Mr. E. N. Phillips was arrested at Mosier Saturday by Deputy U. S. Marshal Murphy, on the charge of cutting timber from government land. The witnesses against them were J. D. Hogan, M. Duty, W. E. Huskey and F. P. Weidner. The examination was held before U. S. Commissioner Huntington today, and Mr. Phillips was bound over to appear before the U. S. grand jury. At the conclusion of the examination M. Duty and J. Hogan, the witnesses, were also arrested, on the same charge, the testimony showing that they assisted in the cutting.

Real Estate Transaction.

The following deed was filed for record today.

Warren Miller and Alice Miller, his wife, to E. N. Benson, 3 1/2 of sw 1/4 of nw 1/4, sec 1, tp 2 n of r 10 e 700.

The Coroner's Inquest.

In the matter of the inquest upon the body of a man killed on the O. R. & N. Co.'s line at Grant station, September 29, 1894.

We, the jury empaneled to inquire into the cause of the death of a man killed at Grant station, September 29th, 1894, on the O. R. & N. Co.'s railroad line find from the testimony produced at said inquest as follows:

That the name of said deceased was Charles Cain, age about 35 years, sandy brown hair and mustache, height about 5 feet, wore striped cloth pants, blue jumper and grey cotton undershirt and wore a pair of No. 8 brogan shoes.

We further find that he is a native-born citizen of Ireland, and has a mother whose name is Bridget Cain, now living at Cumber Cloudy, Kerry county, Ireland.

That he was a married man and has a wife residing at 437 West 52d street, New York City, N. Y., whose given name is Margaret.

That he came to his death through his own fault and neglect by walking on the top of a moving train, and while walking towards the caboose of train No. 1st 23, he accidentally stepped into the open space between two cars, and was precipitated down to the track under the train and about four cars run over him before said train could be stopped.

Cattle Thieves Caught.

Deputy U. S. Marshal Billy Morgan of Portland, arrived in the city yesterday and from him is learned of a clever catch of cattle thieves by Union county officers.

The officials have been on the lookout for the offenders for some time and getting on the trail, one of Sheriff Phy's deputies and Marshal McLachlin, of La Grande, followed and succeeded in overhauling them together with sixty head of cattle between Meacham and Pendleton.

The rustlers were well armed but were taken so completely by surprise that they did not attempt any resistance.

The men arrested were two brothers by the name of Turner, two by the name of Fisher and one Prescott, all said to be hailing from the neighborhood of Big Creek.—Baker City Democrat.

We have made arrangements with the San Francisco Examiner to furnish it in connection with THE CHRONICLE. Having a clubbing rate with the Oregonian and N. Y. Tribune for our republican patrons, we have made this arrangement for the accommodation of the democratic members of THE CHRONICLE family. Both papers, the Weekly Examiner and SEMI-WEEKLY CHRONICLE will be furnished for one year for \$2.25, cash in advance.

Do you want THE CHRONICLE and San Francisco Examiner for a year? If so send us \$2.25 and you can have them, 156 papers for \$2.25 or less than a cent and a half a piece. If you would rather have the New York World, we will send you that and the SEMI-WEEKLY CHRONICLE one year for \$2.25. The World is also a semi-weekly so you will get 208 papers for \$2.25.

Put on Your Glasses and Look at This. From \$100 to \$2,000 to loan. Apply to GEO. W. ROWLAND, 113 Third St., The Dalles, Or.

Mrs. O. C. Stevens has returned home for the winter, Mr. and Mrs. Chas. Stevens accompanying her for a visit to friends.

INJURIOUS MODERN DANCING.

What a Physician Thinks of the Art as Now Practiced.

The art of dancing as practiced by the Greeks and Romans was a useful form of gymnastics that they held in great esteem, regarding it rightly as a means eminently suited to develop the organism. We must confess, however, that in our times this art has degenerated, says a writer in the European edition of the New York Herald, and can be called unhealthy in the great majority of cases and not in all, as dancing in the open air in the daytime may have decided merits. This is never true for balls given in rooms filled with people, overheated by a quantity of lights, and with the atmosphere thoroughly poisoned by the very causes without which a ball cannot be brilliant.

It is scarcely necessary to refer to the dust of all kinds, to the innumerable microbes that the dancers send flying into the air, nor need we speak of the untimely strain imposed on the organism which, at a time when it ought to be at rest, is on the contrary over excited. What greater mistake than the midnight supper at which the most unwholesome things are eaten and drunk? The guests bolt in a very short time food that is generally heavy and washed down with strong wines, and this is scarcely over before the dancing is resumed, against the most elementary rules of common sense and hygiene. Nor is this all; it is not only the body alone that is concerned, as the mind has its share in this fatigue by the vivid emotions produced by the conversation, music and flowers.

It is quite usual after a ball to find that the action of the heart shows traces of fatigue, particularly in delicate young women, who complain of a vague sensation of uneasiness, sadness and even of pain, and are, in a word, in a peculiar condition that is not yet disease nor is it health—much nearer the former than the latter.

Diseases caused by dancing are commoner in women than in men. The most frequent are laryngitis, particularly in women who talk a great deal while dancing; colds, bronchitis and sometimes pneumonia and pleurisy. Dancing should be absolutely forbidden in all cases of consumption, which may assume a very rapid form from this cause; it is counter indicated, as well, in all cases of heart trouble.

Physicians are unanimous in condemning dancing as it is understood at present, but it might be made a hygienic exercise if it were executed in the open air and in the daytime, and if the amount of exercise were in proportion to the strength of the dancers. Like all other bodily exercises, it should be used in moderation.
