CHINA WHIPPED. The Chinese in this country have great faith in their countrymen at home. They refuse to believe the reports about the Japanese victories, and say that the Chinese are ready to do and die for their country and that Japan will be whipped off the face of the earth when China gets ready to do the whipping.

Sandow, the strong man, has met his match in the little Miss Somebody who has defied the strongest of men to lift her from the floor. Sandow has lifted 5,300 pounds, but he failed to lift this little Georgia woman who only weighs 98 pounds, though he tugged and strained his utmost.

M. Sivan, a French watchmaker, has succeeded in arranging a phonograph in a watch so that upon pressing a button the watch calls out the time by such expressions as: "It is eight o'clock," "It is half past four," etc.

And now there is talk of still another transcontinental railroad in the face of the fact that none of those already built are paying dividends, or interest on the bonds.

If the Arctic explorers do not get a move on, and the railroad companies keep up their aggressiveness the latter will have a railroad to the north pole and use it for a flag staff for their grand central depot before the former discover it.

They had an election in Connecticut the other day it being for the selection of school clerks, but in its nature general. The result was what might reasonably be expected, an overwhelming republican vote.

A writer in the Prairie Farmer advocates the raising of a leaner breed of hogs, and to accomplish this suggests the crossing of breeds by procuring Improved Yorkshire and Tamworth males.

Scott Swetland, recently receiver of the U. S. land office at Vancouver, has been elected chairman of the Washington republican state central committee, and has established headquarters at Tacoma.

in Washington this year. The republican machine runs now without any attention, being self acting and self regulating.

The citizens of Pendleton, among means of entertaining the Press Association, will show the individual members thereof through the wool scouring establishment. If the suggestion is not too late it might be in order to run the whole mob through the machines, for they are all, "all wool," albeit in the grease.

Chief of Police Minto assumed his office in Portland this morning. While Mr. Minto may make an excellent officer Portland may well congratulate herself if he equals in ability his predecessor Mr. Hunt.

LITERARY NOTES.

ONLY one of George Meredith's books has thus far been translated into a foreign language. This is "The Ordeal of Richard Feverel," which has appeared in Italian.

A NOVEL series which is to be brought out in London will be called the "Pioneer," and will be concerned, it is said, "with the development of the New Woman." The title of the first story will be "Joanna Trull, Spinster."

Mr. STANLEY J. WEYMAN has completed a series of twelve stories, all dealing with the period of Henry of Navarre. They are to be called "From the Diary of a Minister," and will be published in the English Illustrated Magazine.

A NEW monthly publication, Science Progress, has made its appearance in London. From the names of the editor's counselor's, announced on the title page, and from the first table of contents, it is evident that the magazine will seek to cover the most advanced phases of investigation in chemistry, geology, zoology, botany and other physical sciences.

HOME HINTS.

TOOTH powder is an excellent cleaner of fine filigree jewelry. The fumes of a brimstone match will remove berry stains from the fingers; or still better, use a little lemon juice or ripe tomato.

A LITTLE alcohol will do wonders in brightening glasses. Turpentine is excellent for washing sinks which have become dull and dirty.

In a long experience I have found nothing that will clean brass so easily, quickly and satisfactorily as a paste called puty-pomade. It comes in small tin boxes and can be had of leading grocers.

RUBBER rings such as are used on fruit cans, often become hard and brittle. They can be restored by letting them lie in water in which you have put a little ammonia. Mix in this proportion: One part ammonia and two parts water. Sometimes they do not need to lie in this more than five minutes, but frequently a half hour is needed to restore their elasticity.

SHORT SERMONS.

WORKING without a plan is a waste of strength.

Men are often gainers when they lose their money.

It costs less to be contented than it does to be unhappy.

Too many people would rather have glory than goodness.

It is much easier to be contented without wealth than it is with it.

There are too many people who don't know what giving means by experience.

A COUNTERFEIT is always proclaiming at the top of its voice that there is a genuine.

It is a bad moral atmosphere where vulgarity passes for wit and humor, and men are entertained by it.—Ram's Horn.

The Best Medicine.

J. O. WILSON, Contractor and Builder, Sulphur Springs, Texas, thus speaks of Ayer's Pills:

"Ayer's Pills are the best medicine I ever tried; and, in my judgment, no better general remedy could be devised. I have used them in my family and recommended them to my friends and employes for more than twenty years. To my certain knowledge, many cases of the following complaints have been completely and

Permanently Cured

by the use of Ayer's Pills alone: Third day chills, dumb ague, bilious fever, sick headache, rheumatism, flux, dyspepsia, constipation, and hard colds. I know that a moderate use of Ayer's Pills, continued for a few days or weeks, as the nature of the complaint required, would be found an absolute cure for the disorders I have named above."

"I have been selling medicine for eight years, and I can safely say that Ayer's Pills give better satisfaction than any other pill I ever sold."—J. J. Perry, Spottsylvania C. H., Va.
