DEMOCRACY'S CONDITION.

Within a month nearly all the states will hold elections for congressmen, hence the political situation just now is decidedly interesting. The policy of the democratic party, and the party itself are both on trial; the former by the entire people, the latter by the individual members of the party itself. Its policy is on trial by all the people, for the effect of its legislation has been experienced by all regardless of political beliefs. What the verdict of those who are not blinded by partisanship will be, is easily foreseen. Less than two years ago when President Cleveland took the oath of office, the country was prosperous, mills were running, agricultural products had a good and active market, labor was employed, and capital invested or seeking investment, debt was being paid off rapidly, and this was being done without burdensome taxation. Mr. Cleveland had no sooner taken his seat in the presidential chair, than a change came, but not the change the people had been clamoring for. The first act of the president was to call a special session of congress to repeal the purchasing clause of the Sherman act, and virtually putting a stop to the extension of the use of silver as money. The threatened change of the revenue system to a free trade basis, caused along with the demonization of silver as a future money metal, universal distrust. Capital began to protect itself, to gather up its wealth, and cease from investments. A run on the banks by people of moderate means followed and the money of the country went into the old stockings and hid itself from public view. Agricultural products went down in price because the factories no longer furnished employment, and the laborer had not the money to purchase. Hard times fell upon us, and while tax burdens were not increased the revenues of the government fell off, and instead of decreasing the national debt, \$50,000,000 of interest bearing bonds were issued. Of the final compromise to describe it mildly, with the sugar trust it is not necessary to speak. But for all these things the policy of the party is up before the people of this country for their judgment. On the other hand the party itself is on trial by its own members. The appointment of Gresham, the flitting with Queen Lil, but above all the surrender to the sugar trust, and the abandoning of the principle for which honest democrats had contended so bitterly for years, the abandoning of the free trade platform on which democracy triumphed, these things the honest members, the rank and file of the party will be called upon to pass their judgment on. There can be but one result. The country has suffered incomparably by the change and the country will correct it as speedily as possible. Democracy has suffered unto death at the hands of every department of the government except the lower house of congress. The president choked the life out of it in forcing it to do his bidding concerning silver, and the senate kicked its aspirations to pieces in forcing it to yield to the sugar trust. The people will down democracy, and the democrats will assist in holding the wake.

Investigation by the Chicago Trade Bulletin with regard to the feeding of wheat to live stock, confirms reports from other sources that there is a very general use of the cereal for this purpose. From all the states from New York and Pennsylvania westward to Colorado, and from several Southern states, replies have been received to the inquiries of the Trade Bulletin, some of which say that the consumption of wheat for animal food will amount to from 5 to 20 per cent, and a few anticipate the use of as much as 50 per cent in displacement of other grains. If these estimates have not been exaggerated the effect must ultimately be felt in a measure of relief to the abnormal price depression in the wheat markets. The relatively greater value of wheat when fed to stock is indicated by the report of a Western hog feeder to the president of the commercial exchange. The result of his experiments in wheat feeding in the last few weeks has been a gain in weight of hogs equivalent to 92 cents per bushel for wheat which is not worth over 54 cents in the Chicago market after the payment of freight and other expenses of shipment from the farm.

It is stated in the dispatches today that Senator Hill will decline the nomination for governor of New York. The senator in being interviewed concerning the report, replied that he had nothing whatever to say. The situation is a peculiar one, for even Hill, with all his great pull on New York, can scarcely hope to combat the republicans, the mugwumps and the administration, successfully. Neither can he hope to placate the chiefest of ingrates Grover Cleveland, nor to draw any strength

from the administration democrats in New York. If Hill runs he will be defeated, and if he declines it will injure him politically. It looks as though there had been some kind of a scheme put up to put Hill in just this position, and if he can pull himself out of it with credit, or even without positive injury he will develop elements of statesmanship that he has not yet made visible.

The Best Medicine.

J. O. WILSON, Contractor and Builder, Sulphur Springs, Texas, thus speaks of Ayer's Pills:
"Ayer's Pills are the best medicine I ever tried; and, in my judgment, no better general remedy could be devised. I have used them in my family and recommended them to my friends and employees for more than twenty years. To my certain knowledge, many cases of the following complaints have been completely and
Permanently Cured
by the use of Ayer's Pills alone: Third day chills, dumb ague, bilious fever, sick headache, rheumatism, flux, dyspepsia, constipation, and hard colds. I know that a moderate use of Ayer's Pills, continued for a few days or weeks, as the nature of the complaint required, would be found an absolute cure for the disorders I have named above."
"I have been selling medicine for eight years, and I can safely say that Ayer's Pills give better satisfaction than any other Pill I ever sold."—J. J. Perry, Spotsylvania C. H., Va.
